

CARL HUSLIG

As president of ITC Great Plains, Kansas native Carl A. Huslig is dedicated to meeting the energy needs of Kansas and the Great Plains area through the development of electricity transmission infrastructural improvements.

As president of ITC Great Plains, he focuses on increasing electricity transfer capability and improving the region's overall electricity transmission reliability.

Carl brings over 16 years experience in the utility industry and vast experience with the Southwest Power Pool policies. During his 15 year career at Aquila starting in 1991, he held positions of increasing responsibility primarily within the transmission function.

Most recently, Carl served as vice president of transmission during which he was responsible for day-to-day operations including planning, system operations, capital and maintenance budgets, and regulatory and legislative affairs.

Mr. Huslig is a 1991 graduate of Kansas State University in Manhattan, Kansas, with a bachelor of science in electrical engineering.
