

## **DALE JONES**

Dale Jones is the President of Enertech, a manufacturer of wind turbines ranging in size from 5kw to 600kw. He has been involved with wind energy for over 26 years. Mr. Jones was founder and owner of Alternative Industries from 1983 to 1987. The company designed and produced wind turbines with rated outputs of 2kW, 10kW and 25kW.

Mr. Jones has also worked in various sales management and marketing positions in the construction equipment industry, including earthmoving, drilling and lifting equipment. These companies include John Deere, StraightLine Manufacturing and Manitowoc Cranes. Mr. Jones was also founder and President of Geocorp, Inc., a company involved in geothermal energy design and drilling, and the repair of old wind turbines.

Mr. Jones has a Bachelor of Science in Business Administration from Emporia State University.
