

UTILITIES AND COMMON CARRIERS

ANNUAL REPORT 2019

*We serve the
people of Kansas...*

The mission of the Kansas Corporation Commission is to serve the people of Kansas by regulating the State's energy infrastructure, oil and gas production, and commercial trucking to ensure public safety.

Our vision is a Kansas served by safe, reliable, environmentally responsible, diverse energy supplied at the lowest cost and for safe travel for the motoring public.

About the KCC

Established in 1883 to regulate railroad activity, the Kansas Corporation Commission (KCC) was one of the first state regulatory bodies in the nation. In 1911, the Kansas Legislature created a three member Public Utilities Commission to regulate telegraph and telephone companies, pipeline companies, common carriers, water, electric, gas, and all power companies with the exception of those owned by municipalities.

The present regulatory body was established by the Legislature in 1933. Over the years, its jurisdiction was extended to include motor carriers, gas conservation, and supervision of plugging abandoned wells to protect fresh and useable water from pollution.

Today, the KCC regulates five cornerstone industries in the Kansas economy. The Commission has the responsibility of ensuring that natural gas, electricity, telephone, and transportation vendors provide safe, adequate, and reliable services at reasonable rates. The Commission also has the mandate of ensuring that oil and gas producers protect correlative rights and environmental resources. The authority of the Kansas Corporation Commission is derived from KSA 74-601 to 74-631.

The Commission is comprised of three members who are appointed by the Governor and confirmed by the Senate. Members serve staggered four-year terms. Law provides that no more than

two of the three commissioners may belong to the same political party. Commissioners elect one of their colleagues as Chair. The work of the Commission is supported by the KCC Administrative Division, Public Affairs and Consumer Protection, Utilities, Conservation, Transportation, and Energy.

The KCC does not regulate most electric cooperatives, water cooperatives, municipalities, wireless telephone, long distance service, cable companies, or the internet.

Current KCC Leadership

Shari Feist Albrecht
Chair

Shari Feist Albrecht was appointed to the KCC by Governor Brownback on June 25, 2012. She was reappointed to a second four year term, which expires on March 15, 2020. Albrecht was elected Chair on January 11, 2018.

Albrecht served at the Kansas Department of Health and Environment from 1993 to 2012. Previously at the KCC, Albrecht held the positions of Director and Deputy Director of the Conservation Division, chairing numerous committees, including the Oil and Gas Advisory Committee. She also served as Acting General Counsel, Assistant General Counsel, and staff attorney for the Transportation Division.

Albrecht just completed her term as President of the Regional State Committee of the Southwest Power Pool and serves on the Advisory Board of the Financial Resources Institute. She is a member of NARUC, serving on the Electricity Committee and the Washington Action Committee. She is also a member of the Advisory Council of the New Mexico State University Center for Public Utilities and of the Energy Bar Association.

Albrecht earned a bachelor of arts degree in Spanish literature from KU in 1982. She graduated from WU School of Law in 1984 and is licensed in Kansas, the U.S. District Court for Kansas, and the U.S. Supreme Court. Albrecht and her husband live in Topeka and attend Faith Lutheran Church.

Jay Scott Emler
Commissioner

Jay Scott Emler was appointed to the KCC by Governor Brownback on January 8, 2014, to fill an unexpired term ending March 2015. He served as Chairman from January 14, 2016, to January 12, 2017. Emler was confirmed for a four year term, which expires on March 15, 2019.

Emler previously served in the Kansas Senate where he was elected Senate Majority Leader. He represented the 35th District in central Kansas for 13 years. Emler also served as Chairman of both Ways and Means and Utilities committees. Prior to the Senate, he was Vice President and General Counsel for Kansas Cellular.

He is the past national Chairman of the Council on State Governments. He also served on Governor Brownback's transition team.

Emler is a graduate of Bethany College, Lindsborg, where he earned a bachelor's degree and teaching certificate. He earned his law degree from the University of Denver, College of Law. In addition, Emler holds a master's degree in security studies from the Naval Postgraduate School in Monterey, California.

Emler and his wife Lorraine live in McPherson County, where they operate a small family farm and belong to Bethany Lutheran Church.

Dwight D. Keen
Commissioner

Dwight D. Keen was appointed to the KCC by Governor Colyer on April 7, 2018. His term expires March 15, 2022.

Keen has experience in business, law and government. His prior legal and finance experience includes serving as a securities attorney with the National Association of Securities Dealers, Inc. (presently FINRA) in Washington, D.C.; serving as the Senior Financial Analyst and Counsel to the Director of Corporation Finance for a large money center bank in New York City; and practicing corporate and securities law with two prominent Wichita law firms.

Keen's prior state government service includes: serving for six years as Kansas Securities Commissioner; serving two terms as a Commissioner on the Kansas Commission on Veterans' Affairs; and one-four year term on the Kansas Board of Tax Appeals.

From 1998 to 2010, Keen was an Adjunct Professor of Business for the Graduate School at Friends University in Wichita.

Prior to joining the KCC, Keen operated an independent oil and gas production company. Upon appointment to the KCC, Keen resigned as the managing member of this company and formally severed all forms of management and control over the company. From 2011 to 2013, he served as Chairman of the Board of Directors of the Kansas Independent Oil and Gas Association. He has also served as a member of the board of the Eastern Kansas Oil and Gas Association and the Kansas Oil and Gas Resources Fund. Keen has resigned from membership in and from the board of directors of all organizations associated or affiliated with the oil and gas industry.

Keen has a B.B.A. degree in business administration, a Master of Science degree in business, and a Master of Arts degree in Economics – each from Wichita State University. He has a Juris Doctor degree in law from the University of Kansas School of Law and is a U.S. Army Vietnam veteran. Keen and his wife Lenore reside in Winfield.

Utilities Overview

The Utilities Division is responsible for administering the laws and regulations applicable to jurisdictional electric, natural gas, telephone, and water utilities. The Utilities Division is comprised of four sections that are responsible for providing recommendations and advice to the Commission to promote and ensure sufficient, efficient, and safe utility services at reasonable and non-discriminatory rates to consumers.

The four sections within the Utilities Division are Accounting and Financial Analysis, Economics and Rates, Energy Operations and Pipeline Safety, and Telecommunications. These sections are responsible for the following:

1. The Accounting and Financial Analysis section is responsible for investigating, analyzing and making recommendations to the Commission on accounting and financial issues relating to the electric, natural gas, telecommunication, and water industries. These issues include the development of a revenue requirement for rate cases and KUSF audits as well as yearly surcharge filings. The section is also involved in Federal Energy Regulatory Commission (FERC) cases and participating in Southwest Power Pool workgroups.

2. The Economic Policy and Rates section is responsible for investigating and making recommendations on economic issues relating to the natural gas, electric, and telecommunications industries to the Commission as well as the Kansas Legislature and other state agencies. In rate cases, this section is also responsible for evaluating the class cost

of service and developing a rate design.

3. The Energy Operations and Pipeline Safety section provides technical expertise relating to electric utility operations, reliability, safety, electric transmission siting, and electric and gas consumer service, as well as analyzing requested changes to natural gas and electric certificates. The section has primary responsibility to ensure safe operation of all gas utilities through enforcement of federal and state pipeline safety regulations. The section also has the responsibility to ensure the safe operation of electric utilities under the provisions of K.S.A. 66-101h.

4. The Telecommunications section is responsible for researching, investigating, analyzing, and making recommendations on courses of action for all telecommunications matters that come before the Commission. This section is also involved in Federal Communications Commission cases and participating on NARUC subcommittees and Federal-State Joint Boards.

Major Issues for FY 2018

WESTAR AND KCP&L MERGER, DOCKET NO. 18-KCPE-095-MER

- On August 25, 2017, Great Plains Energy Incorporated (GPE), Kansas City Power and Light Company (KCP&L) and Westar Energy, Inc. (Westar) filed a Joint Application requesting the Commission approve a merger of equals between Westar and KCP&L. This transaction was structured to correct many of the flaws that the Commission identified in its April 19, 2017, Order denying GPE's original request to acquire Westar, in Docket No. 16-KCPE-593-ACQ. Under the revised merger proposal, Westar shareholders would own 52.5% of the newly created holding company, with GPE shareholders owning 47.5% of the new entity. On January 26, 2018, Staff, CURB, and several interveners filed testimony in response to the revised merger Application. Staff recommended conditional approval of the merger, supported by 56 commitments as outlined in Staff's testimony. These conditions included, but are not limited to: (1) additional upfront and ongoing rate credits; (2) guaranteed merger savings

reflected in upcoming rate cases (even before they were fully achieved); (3) a base rate moratorium for a period of five years; (4) an annual earnings review and sharing plan that would share 50% of any earnings achieved in excess of the authorized return on equity; (5) commitments to maintain a Topeka headquarters for ten years (with at least 500 full time positions for the first five years); (6) no involuntary terminations; (7) extensive reporting on areas of quality of service, capital expenditure plans and merger integration success.

• On March 7, 2018, Staff, CURB, the Joint Applicants and several other interveners filed a Joint Motion requesting approval of a Non-Unanimous Settlement Agreement (Settlement). The Settlement contained the following major terms: 1) a five-year moratorium on rate cases beginning after Westar's (18-WSEE-328-RTS) and KCP&L's (18-KCPE-480-RTS) 2018 rate cases; 2) establish an Earnings Review & Sharing Plan to share additional merger savings between consumers and shareholders during the rate case moratorium; 3) upfront payments to consumers of \$50 million across all jurisdictions (\$23.07 million Westar and \$7.51 million KCP&L-KS); 4) annual bill credits from 2019 through 2022 of \$8.65 million for Westar customers and \$2.82 million for KCP&L-KS; 5) guaranteed recognition of \$30 million of merger savings in the 2018 rate cases; 6) agreement for parties to recommend the Commission adopt a 9.30% return on equity in the 2018 rate cases (18-WSEE-328-RTS and 18-KCPE-480-RTS); 7) commitments to zero involuntary terminations and to maintain a headquarters in Topeka for at least ten years after the merger closes (500 full time positions in the Topeka headquarters for the next five years); and 8) several reporting conditions involving capital expenditure plans, quality of service metrics, and merger integration and savings success.

TAX CUTS AND JOBS ACT (TCJA), DOCKET NO. 18-GIMX-248-GIV

• On December 14, 2017, Staff filed a motion to open a general investigation and issue an accounting authority order in anticipation of the implementation of federal corporate income tax reform. Staff's motion requested that the Commission issue an Order requiring all regulated utilities operating in the state that were taxable at the corporate level to accumulate all tax savings associated with the TCJA, plus interest, in a special regulatory account so that these tax savings could be refunded back to customers in the next general rate proceeding. On December 22, 2017, the TCJA was signed into law. On January 18, 2018, the Commission approved Staff's motion and ordered all regulated utilities in the state to take action to preserve the financial benefits of the TCJA so that these benefits may be evaluated in the context of a general rate proceeding or company specific financial investigation. Subsequent to the Commission's January 18, 2018 Order, the following has taken place:

- Black Hills Energy and Atmos Energy both agreed to revise their rates downward on a single-issue basis to account for the tax savings associated with the TCJA. The Commission approved these agreements on March 27, 2018.

- Kansas Gas Service (KGS) did not agree to reduce its rates in the fashion that Black Hills and Atmos did. Instead, KGS agreed to preserve the benefits of tax reform in a special regulatory account, the disposition of which is to be decided in KGS's current rate case, Docket No. 18-KGSG-560-RTS. At the conclusion of this case, KGS's base rates will reflect the new lower tax rate.

- Westar and KCPL both agreed to preserve all tax benefits associated with the TCJA, and both subsequently agreed to give all deferred tax benefits, with interest, back to customers in a one-time bill credit following the conclusion of each utility's general rate case which

were filed in early 2018 (Dockets 18-WSEE-328-RTS and 18-KCPE-480-RTS). At the conclusion of these rate cases, both Westar and KCPL's base rates reflected the benefit of the lower federal tax rate.

- Empire District Electric company has agreed to preserve the tax benefits, with interest, so that these benefits can be evaluated in the context of a general rate case, which was filed in late 2018. At the conclusion of this rate case, Empire's rates will reflect the lower federal tax rate.

- In addition to the natural gas and electric company agreements discussed above, Staff has reached agreements with several recipients of the Kansas Universal Service Fund (KUSF) to either reduce their current KUSF draw in order to reflect the new lower tax rates or to preserve these benefits so that they may be evaluated in the context of the next KUSF determination proceeding.

ENVIRONMENTAL PROTECTION AGENCY (EPA)

• In early 2013, President Obama issued a memorandum directing the EPA to re-propose carbon pollution guidelines for new and existing power plants. In September 2013, EPA announced proposed standards for new sources, and in June 2014, the EPA announced its proposed standards for existing sources (the Clean Power Plan). The EPA's rule proposed the use of four building blocks that required the re-dispatch of Kansas' affected coal electrical generating units (EGU's) to natural gas combined cycle, renewable generation, and demand-side management and energy efficiency. Kansas Department of Health and Environment (KDHE) and the KCC discussed the proposed plan and mutually agreed that each Agency would file separate comments focused on the respective expertise of each Agency. As a result, the KCC Staff filed comments on our concerns regarding jurisdictional authority, cost, and reliability on October 29, 2014.

- HB 2233 (amending K.S.A. 65-3031) became law on May 28, 2015, and required KDHE and the KCC to enter into a memorandum of understanding (MOU) regarding the implementation of the requirements and responsibilities under the Kansas Air Quality Act. KDHE and KCC completed and signed the MOU on July 14, 2015. In addition, HB 2233 requires the KCC to submit the following information to the clean power plan implementation study committee: each utility’s re-dispatch options along with the cost of each option; the lowest possible cost re-dispatch options on a statewide basis; and the impact of each re-dispatch option on the reliability of Kansas’ integrated electric system.

- On August 3, 2015, EPA issued final emission guideline rules for existing electrical generating units, final CO2 performance standards for new, modified and reconstructed EGUs, and a proposed federal plan and model rule for existing EGUs. In order to fully evaluate the re-dispatch options available to Kansas and determine the impact of each re-dispatch option, Staff issued a Request for Proposal (RFP) to engage a consulting firm with the necessary experience and modeling software to run re-dispatch and power flow models. The RFP closed on September 22, 2015, and staff retained a consultant based on the RFP process.

- On February 9, 2016, the United States Supreme Court stayed the EPA’s proposed Clean Power Plan. With a stay in place, the legislature modified K.S.A. 65-3031 via SB 318, which became effective May 19, 2016. The modification requires all state agency activities, studies and investigations in furtherance of the preparation of an initial submittal, or any evaluation of options for the submission of a final state plan be suspended until the stay is lifted.

- The Clean Power Plan has been appealed to the U.S. Court of Appeals for the District of Columbia Circuit. Oral arguments were held on September 27, 2016, and an Order was expected the first or second quarter of 2017. However,

with the election of President Trump, the EPA has been directed to review the proposed regulation with an eye towards its elimination. To that end, the EPA has determined that the agency lacks authority under the Clean Air Act to promulgate the Clean Power Plan.

- On July 9, 2018, the EPA submitted its replacement rule for the Clean Power Plan to the White House for review. The replacement rule is titled “State Guidelines for Greenhouse Gas Emissions From Electric Utility Generating Units” and it is also known as the Affordable Clean Energy or “ACE” rule. The EPA has also indicated that it intends to finalize its repeal of the Clean Power Plan in December 2018 on the grounds that the rule exceeds the statutory authority provided under Section 111 of the Clean Air Act.

- Pursuant to K.S.A. 65-3031, KCC Staff is monitoring the progress of the appeal and the EPA’s repeal process, but neither Staff nor our consultant is performing any activities in furtherance of a preliminary or final plan during the stay.

SIGNIFICANT INCREASES IN CAPITAL INVESTMENT

- Electric utilities have effectively completed large-scale environmental retrofit projects on coal-fired generation assets. However, any new EPA rule related to greenhouse gases would have the potential to require significant investments in existing and potentially new generation and transmission assets. In addition, the Southwest Power Pool continues to approve new transmission facilities to enhance reliability of the transmission system. The potential new investments in generation and transmission assets are capital intensive and will continue to place upward pressure on utility rates.

- Investor-owned natural gas distribution utilities in Kansas are facing aging infrastructure, some of which is constructed of materials that are considered to be obsolete or that present a safety risk. This has led to these gas utilities placing an increased emphasis

on accelerating the rate of replacement of aging infrastructure. This effort has also increased capital expenditures levels and led to more frequent general rate cases. Senate Bill 279 takes effect January 1, 2019, and will amend K.S.A. 66-2202, 66-2203, and 66-2204. This bill expanded the definition of eligible capital investments that are recoverable through the Gas System Reliability Surcharge (GSRS) and doubled the size limitations previously in effect for the GSRS. With these revisions, gas utilities in the state will be able to file for Commission approval of an annual cost recovery mechanism to recover up to \$.80 per month, per residential customer, in new revenues each year. This surcharge may recover up to 20% of a company’s currently approved base revenue level. The surcharge may only be in effect for five years (with an additional year extension available upon Commission approval) until a rate case must be filed in order for the utility to regain eligibility to file for a new GSRS surcharge. Staff believes this newly expanded GSRS surcharge will alleviate the need for KGS to file frequent rate cases because this surcharge will cover substantially all of KGS’s currently projected capital investment. Whether this will be the case for Atmos and Black Hills remains to be seen.

- Telecommunications companies are continuing to invest in new technologies, primarily to enhance broadband services. The investment in broadband services is generally driven by the Federal Communication Commission’s National Broadband Plan, which has a goal of supporting the provision of broadband communications in areas that would be unserved or underserved without such support. However, the continued investment in new technologies should not increase the size of the KUSF. The 2013 Kansas Legislature passed House Bill 2201, which modified K.S.A. 66-2008. K.S.A. 66-2008, as revised, caps the KUSF fund at \$30 million for rate of return regulated carriers, caps support for price cap regulated carriers, eliminates KUSF support for electing carriers, and

phased out KUSF support for competitive eligible telecommunications carriers.

Electric

OVERVIEW

The KCC regulates nine large (annual operating revenue greater than \$10 million) electric utilities. A list of the large electric utilities and a brief overview of the major activities for FY 2018 are noted below. A summary of each major docket associated with the companies follows this narrative section along with a listing of all other electric dockets. Also included in this narrative section is a discussion of the Federal, transmission, and wind issues that the Utilities Division spent a significant amount of time on during FY 2018.

LARGE ELECTRIC UTILITY COMPANIES

(Annual operating revenue greater than \$10M)

Empire District Electric Company

ITC Great Plains, LLC (Transmission Only)

Kansas City Power & Light Company

Mid-Kansas Electric Company
(Limited per K.S.A. 66-104d)

Midwest Energy, Inc. (Limited per K.S.A. 66-104d)

Prairie Wind Transmission, LLC
(Transmission Only)

Southern Pioneer Electric Company

Sunflower Electric Power Corporation
(Limited per K.S.A. 66-104d)

Westar Energy, Inc.

Two major electric utility companies filed Applications to increase rates during FY 2018, and two other major electric utility companies filed formula base rate updates or tariff changes. These four utilities were Westar Energy, Kansas City Power and Light Company, Southern Pioneer Electric Company, and Sunflower Electric Power Corporation.

Westar Energy filed Docket No. 18-WSEE-328-RTS requesting a \$52.5 million rate increase to update rates to reflect the impact of Westar's investment in the Western Plains Wind Farm, the change in the federal tax rate, increases in depreciation expense associated with a recently completed depreciation study, the expiration of a wholesale power contract, and the expiration of production tax credits on some of its early wind farms. Ultimately, this Docket resulted in a unanimous settlement agreement that was approved by the Commission, granting a \$66 million reduction in revenues to Westar.

Southern Pioneer filed Docket No. 18-SPEE-477-RTS requesting a \$1,311,929 decrease in its retail distribution rates to meet pre-determined debt service coverage ratios approved by the Commission in a Debt Service Coverage Formula Based Rate (FBR) pilot program approved in FY 2013. This Docket also contained a request to increase third-party local access rates by \$110,656 under Southern Pioneer's 34.5kV FBR Plan, originally approved by the Commission in 2016. The Commission approved this filing on July 31, 2018.

Sunflower Electric Power Corporation filed Docket No. 17-SEPE-415-TAR requesting revisions to its Transmission Formula Rate (TFR) template. This TFR is used to collect the revenue requirement associated with Sunflower's transmission assets that are under the functional control of the Southwest Power Pool (SPP) and, therefore, are included in the SPP Open Access Transmission Tariff (OATT). Sunflower requested KCC approval to maintain the financial ratios that limit the level of operating margin in the TFR and to make revisions to the TFR template that would allow Sunflower flexibility when submitting revenue requirements as part of the competitive bidding process that resulted from FERC Order 1000. The Commission approved a revised version of Sunflower's TFR template on March 6, 2018.

Kansas City Power & Light Company filed Docket No. 18-KCPE-480-RTS requesting a \$32.9 million increase in revenues. The primary drivers of this case were the implementation of a new customer service information system, the need to update the amount of depreciation expense in rates as a result of a recent depreciation study, and the revision in the federal corporate income tax rate. Ultimately, the parties to this case agreed that KCP&L should reduce rates by \$10.7 million. The Commission approved this Settlement Agreement on December 13, 2018.

In Docket No. 18-EPDE-184-PRE, Empire District Electric Company filed a predetermination docket requesting Commission approval to retire the Asbury Coal Fired Generating Station and to acquire up to 800 MW of wind powered generation. The Asbury Generating Station recently completed an environmental retrofit and Empire also explicitly requested approval to recover a full return on and return of its outstanding investment in Asbury, despite the fact that this plant would no longer be used and useful in the production of electricity. After opposition by Staff and CURB, Empire filed a motion to withdraw the filing with a procedural agreement for how to address these issues in a future Empire rate case.

FEDERAL ISSUES

The KCC intervened in several matters at the Federal Energy Regulatory Commission (FERC) during FY 2018.

In FERC electric dockets, the Commission intervened in Docket Nos. EC17-171; EL16-91; ER10-2074; EL18-20; ER18-1251; ER18-1299; and RM18-9.

In Docket Nos. EC17-171 and RM18-9, the Commission filed a doc-less intervention (no comments filed, intervention only) to monitor the cases. In Docket Nos. EL18-20, ER18-1251 and ER18-1299, the Commission also filed comments in support of the filing originating the case. In Docket No. EL16-91, the Commission filed a substantive

Answer in Support of November 20, 2017 Request for Clarification and Rehearing by National Rural Electric Cooperative Association (NRECA), et al.

In FERC gas dockets, the Commission intervened in Docket Nos. RP18-385; RP18-477; RP18-510; RP18-533; and RP18-648.

In Docket Nos. 18-385 and 18-648, the Commission monitored the cases. In Docket Nos. RP18-477, RP18-510 and RP18-533, the Commission filed comments on the compliance filings at issue.

In Docket Nos. ER14-2850/2851, ER15-1775, and ER 15-1777, the Commission protested the expansion of Southwest Power Pool (SPP) to include the Integrated System of the Western Area Power Authority, Basin Electric, and Heartland Electric. On October 15, 2015, FERC issued an Order denying the Commission's protest. On December 14, 2015, the Commission filed a Petition for Review at the U.S. Court of Appeals for the D.C. Circuit. On November 28, 2017, the D.C. Circuit Court denied the Commission's Petition for Review.

In another federal appeal, the Commission protested the transmission formula rates of Transource Kansas and Kanstar in FERC Docket Nos. ER15-958 and ER15-2237 on the grounds that the requested returns on equity were too high and a request that future – yet to be created affiliates – of Transource Kansas and Kanstar would be permitted to automatically utilize the capital structure and return on equity approved by FERC in ER15-958 and ER15-2237. FERC ruled that future Transource Kansas and Kanstar affiliates would be permitted to automatically adopt the return on equity and capital structure of their parents without an additional filing. On March 8, 2016, the KCC filed a Petition for Review at the U.S. Court of Appeals for the D.C. Circuit in the Transource case. On June 2, 2016, the KCC filed a Petition for Review at the U.S. Court of Appeals for the D.C. Circuit in the Kanstar case.

Those two appeals were consolidated. On February 6, 2018, the D.C. Circuit determined that the Commission lacked standing to bring its appeal. On March 23, 2018, the Commission petitioned the Court for rehearing en banc. The Commission's petition was denied.

SOUTHWEST POWER POOL

The Southwest Power Pool (SPP) was approved as a Regional Transmission Organization (RTO) by the Federal Energy Regulatory Commission (FERC) in 2004 and is, therefore, required to ensure reliable supplies of power, adequate transmission infrastructure, and competitive wholesale pricing of electricity. SPP is a non-profit corporation organized under the laws of the State of Arkansas and regulated by the FERC.

SPP is also a regulated public utility in Kansas, having obtained from the Commission a limited Certificate of Convenience and Authority to manage and coordinate use of certain transmission facilities and to develop an energy imbalance market. Simultaneously, the Commission authorized the existing electric public utilities in Kansas to transfer functional control of transmission facilities to and participate in an SPP energy imbalance market.

When SPP became an RTO, it had 131 employees and 48 members including 28 (58% of membership) investor-owned utilities, municipal systems, generation and transmission cooperatives and state authorities who served retail loads in parts of eight states (Arkansas, Kansas, Louisiana, Montana, Missouri, New Mexico, Oklahoma, and Texas). Three Nebraska public power utilities became members of SPP in 2008. On October 1, 2015, SPP membership expanded to include the Integrated Transmission System consisting of a portion of the Western Area Power Administration, Basin Electric Cooperative and the Heartland Consumers Power District. This integration, while contested by the KCC at FERC because of cost

allocation concerns, added 5,000 MW of peak demand and 7,600 MW of generating capacity to SPP's system. SPP currently has around 600 employees and 97 members directly or indirectly responsible for serving more than 18 million people in the 14 state, 546,000-square-mile region, including more than 60,000 miles of high-voltage transmission lines.

In early 2017, the Mountain West Transmission Group (MWTG) began negotiating with SPP to potentially join SPP in 2019. The MWTG footprint covers most of Colorado and Wyoming and smaller areas of Arizona, Montana, New Mexico, and Utah. The SPP Board of Director's voted on March 13, 2018, to approve a set of policies defining the terms and conditions of MWTG's potential membership in SPP. However, the largest entity within the MWTG, Xcel Energy-Colorado, announced on April 20, 2018, that it would exit the MWTG. The remaining MWTG members continue discussions with SPP to pursue an agreement that would be beneficial to all parties involved.

Commission interaction with the SPP and participation in RTO matters is authorized by K.S.A. 74-633 and K.S.A. 66-106. The SPP organization has created approximately thirty primary working groups/committees, as well as multiple subordinate task forces. The Commission is represented by one KCC Commissioner on the Regional State Committee (RSC), which consists of one regulator or other state representative from each of the states in the SPP. In 2018, KCC Commissioner Shari Feist Albrecht served as the President of the RSC. The Cost Allocation Working Group reports to the RSC and is composed of one voting staff member from each of the states, along with other state staff participants. The RSC fulfills an advisory role in SPP and does not "approve" any transmission projects. Its participation in the SPP process is mostly limited to providing collective state regulatory agency input

and participation, as stated in the RSC By-Laws. However, the RSC does have specific authority over specific areas within SPP including cost allocation methodologies. For example, the RSC designed the original cost allocation methodology for committing retail ratepayer funds for construction of new transmission projects and has revised the methodology from time-to-time. The RSC has no responsibility in approving transmission projects or their associated costs. Approval of specific transmission projects and their associated costs are ultimately approved for construction by the SPP Board of Directors. Thus, the KCC has no direct oversight through its SPP involvement over the amount of spending for Kansas-specific or regional transmission projects, which makes it imperative that the Commission be represented in a liaison capacity on multiple SPP stakeholder committees and task forces.

TRANSMISSION PLANNING AND CONSTRUCTION

Since its inception as an RTO, the SPP has added \$8.0 billion in new transmission projects.

The total Annual Transmission Revenue Requirement (ATRR) for region-wide transmission projects is \$639 million as of October 2018. This represents annual capital cost recovery, operation and maintenance (O&M), and other transmission related expenses for regional projects that are in-service or under construction as of October 2018. These revenue requirements are recovered through FERC-approved Transmission Formula Rates (TFRs), FERC-approved stated rates, or, in some cases, state approved TFRs. The current annual cost to Kansas ratepayers is approximately 17% of the annual transmission revenue requirement for the region, or \$110 million. The amount of expected transmission investment is currently expected to grow by approximately \$1.5 billion for the entire SPP footprint in the next three years as new SPP-approved projects come in to service. These

projects are expected to come into service during the years 2019 through 2021, with relatively few new transmission projects currently expected after that timeframe.

Grain Belt Express

Clean Line Energy Partners (Clean Line) was certificated as a public utility by the Commission in December 2011. Clean Line subsequently filed a line siting application for the Grain Belt Express Clean Line Project and this project was approved by the Commission on November 7, 2013. Clean Line is presently seeking similar approvals in Missouri and Illinois. The proposed line is a ±600 kilo-volt (kV), high voltage direct current (HVDC) transmission line along with associated facilities capable of delivering 4,000 megawatts (MW) of power from Kansas to load centers east of Kansas. The project will originate in western Kansas near Sunflower's Spearville substation and traverse east across the state (approximately 370 miles) into Missouri where it will interconnect in the MISO RTO market at the St. Francis substation in southeastern Missouri. From there, the line will continue into Indiana where it will interconnect with the PJM RTO market at the Sullivan substation. The Project has been estimated to cost \$2.2 billion with an in-service date of 2018. This project will be funded through the sales of transmission capacity to wholesale customers (referred to as merchant transmission) and, therefore, will not be funded by Kansas retail ratepayers. The project was approved by Indiana and Kansas. Clean Line was denied a Certification of Public Convenience and Necessity in 2015 in Missouri and the Certificate it had received from the Illinois Commerce Commission was reversed upon appeal. After a July 2018 court ruling in Missouri, the decision of issuing a Certificate of Convenience and Necessity has been remanded to the Missouri Public Service Commission for additional review. The Kansas docket approving the siting of the proposed transmission line required the Grain Belt

Express to begin construction in Kansas by November of 2018. In an October 4, 2018, Order issued in Docket 13-GBEE-803-MIS, the Commission extended the sunset term of the siting approval to March 1, 2019, conditioned upon Grain Belt submitting evidence of its financial, managerial and technical ability to complete the Project. On November 21, 2018, Clean Line and Commission Staff filed a joint motion to stay the procedural schedule in the 13-803 Docket. The request to stay the docket was filed because on November 9, 2018, Grain Belt Express entered into a Membership Interest Purchase Agreement with Invenergy Transmission LLC under which Invenergy is to purchase 100% of the interest in Grain Belt Express. On December 6, 2018, the Commission issued an order in the 13-803 Docket that cancelled the procedural schedule and granted a limited extension of the sunset provision to coincide with the 300 days allowed under statute to review an acquisition. The expiration date set forth in the Commission's order is December 2, 2019.

FERC Order 1000

The Commission Staff continues to monitor the effects of FERC Order 1000, which was issued in July 2011. This landmark Order affects the transmission planning process as it eliminated the right of first refusal to incumbent transmission owners for any projects receiving regional funding. The Order also requires RTOs to: 1) coordinate and share information in a transparent manner with neighboring RTOs; 2) establish cooperative procedures by which interregional projects might be addressed; and 3) develop a cost allocation methodology for those interregional projects. SPP's implementation of a competitive bid solicitation process for transmission projects with a region-wide funding component has led to a flood of new transmission companies filing for Transmission Formula Rates (TFRs) at FERC. This process may also lead to the

KCC certifying new utilities in the State if the successful bidder for a new regional transmission project in Kansas is not a current Kansas utility.

Wind Generation and the Renewable Portfolio/Energy Standard (RPS/RES)

The Renewable Energy Standards Act (RESA) (K.S.A. 66-1256, 66-1257, and 66-1259), part of Kansas House Bill 2369 which became law on May 22, 2009, established a required renewable energy standard for the state. In addition, RESA authorized and required the KCC to formulate rules and regulations in regards to the established renewable energy standard. In October 2010, the KCC finalized K.A.R. 82-16-1 through 82-16-6, establishing these rules and regulations.

Kansas Senate Bill No. 91 (SB 91), which was signed into law May 28, 2015, repealed and amended sections of RESA which, in turn, affected the KCC's rules and regulations that were authorized and required by RESA. Notably, the renewable energy standard for the state is now a voluntary goal that nameplate capacity from renewable energy generation resources be 20% of a utility's peak load demand by 2020. The KCC is currently in the process of revising K.A.R. 82-16-1 through 82-16-6 to align with the changes to RESA brought about by SB 91.

Natural Gas

OVERVIEW

The KCC regulates three large (annual operating revenue greater than \$10 million) natural gas distribution utilities. A list of the large gas distribution utilities and a brief overview of the major activities for FY 2018 are noted below. A summary of each major docket associated with the companies follows this narrative section along with a listing of all other natural gas dockets. In addition, included in this narrative section is a discussion of the Federal issues that the Utilities Division spent a significant amount of time on during FY 2018.

LARGE GAS UTILITY COMPANIES

ATMOS Energy Corporation

Black Hills/Kansas Gas Utility Co.

Kansas Gas Service, a Division of ONE Gas, Inc.

During FY2018, there was one rate case filed by a major natural gas company. In Docket No. 18-KGSG-560-RTS, Kansas Gas Service (KGS) requested an increase in revenues of \$42.7 million. The company cited several primary drivers for the filing of the rate case, including: 1) significant capital investment since its last rate case; 2) increases in employee wages and benefits costs; 3) the reduction in the federal corporate income tax rate; 4) a request to update depreciation rates and expenses, and 5) the need to implement several alternative ratemaking mechanisms including a depreciation tracker, a pension savings sharing program, and a revenue normalization rider (a decoupling mechanism). Notably, the company also requested to be allowed to retain any deferred tax savings that have accumulated in a regulatory liability as ordered by the Commission in Docket No. 18-GIMX-248-GIV. Staff has recommended a revenue requirement increase of \$16.9 million in this Docket, and has recommended that all deferred tax savings be given back to customers as a one-time bill credit. CURB has recommended a reduction in revenues of \$4.7 million. This case is ongoing, with the Commission required to issue an order by February 25, 2019.

During FY 2018, there was one major gas proceeding decided by the Commission. In March of 2015, the Commission opened a general investigation into the need to accelerate the replacement of obsolete natural gas infrastructure and to consider the necessity of alternative rate treatment for pipe replacement programs. In its recommendation to open the general recommendation, Staff noted there are 5,300 miles of obsolete piping in natural gas distribution service. While acknowledging the progress of current pipe replacement programs, Staff argued that accelerating the rate of replacement

for all utilities would be in the public interest because it would provide the public with the benefit of achieving these safety goals sooner than a program that simply replaces pipe based on the current leakage rate. On September 12, 2017, the Commission issued a Final Order in this Docket that required Atmos Energy, Black Hills Energy, and Kansas Gas Service to develop plans for the systematic accelerated replacement of all of their bare steel service/yard lines, cast iron mains, and all bare steel mains within urban areas. In April of 2018, the three utilities filed their respective pipe replacement plans. Beginning in 2019, the three companies will begin replacing 65 miles of bare steel mains and 13,400 services lines per year. Collectively, the replacement plan spends \$2.2 billion over the next 35 years.

FEDERAL ISSUES

The Commission Staff monitors the rate and tariff activities of several interstate pipelines that serve Kansas local distribution companies, towns, and other large volume gas users. Chief among these is Southern Star Central, which transports 50% to 70% of all natural gas consumed annually in Kansas. Other interstate gas pipelines such as Kansas Pipeline Company, Cheyenne Plains Gas Transmission, Tallgrass Interstate Gas Pipeline, and Northern Natural Gas are also monitored.

In gas storage matters, the KCC continues to monitor Docket CP11-481 Alden Storage Field, CP13-76 Alden Storage Field, and CP13-531 Elk City Storage Field. These Dockets are all related to Southern Star's continued efforts to maintain storage containment in its natural gas storage fields. Continued monitoring of these Dockets is important as the process of stemming the loss of storage gas can take several years to fully vet.

In other storage matters, the KCC continues to monitor the activities of Northern Natural Gas in Docket CP09-465. In this case, Northern Natural has requested an enlargement of its

certificated storage boundaries at its Cunningham storage field in an attempt to contain migrating storage gas. Northern is required to make quarterly compliance filings at FERC regarding its efforts and the KCC receives and reviews these filings. Following the blowout of an abandoned, third-party production well within the FERC certificated boundaries of Northern's Cunningham Storage Field, the KCC filed a Motion urging the FERC to require Northern to isolate other third-party wellbores from its storage facility to prevent the vertical loss of storage gas within the Cunningham Storage Field. On September 20, 2018, FERC ordered Northern to file a plan for identifying and securing the all remaining third-party wells with access to the Cunningham storage field. The plan is required to include a near-term proposal to temporarily secure the wells within six months and a long-term plan to gain control of the wells and prevent access to the storage formations.

The KCC intervened and provided Comments in Support of a tariff waiver in the annual Fuel and Lost and Unaccounted For recovery filings at FERC filed by Southern Star Central in Docket RP17-438. During the tracker measurement period, Southern Star experienced larger than normal gas storage losses, due to the warmer than normal winters the past two years. When storage fields do not completely "cycle" (from full to empty as in a normal winter), gas losses tend to be higher. In an effort to insulate its customers from an unusually large increase, Southern Star proposed to recover the losses over a two-year period, which would require a waiver from their usual tariff provisions. The KCC filed Comments in Support of Southern Star's tariff waiver request, which was ultimately approved by FERC.

In Kansas Pipeline Company's (KPC) 2015 Fuel and Lost and Unaccounted For docket, the KCC protested KPC's lack of sufficient data and information. The FERC agreed and required KPC to make a compliance filing with the required data and computational processes. The

KCC intervened in KPC's 2016 fuel and loss filing, Docket RP16-777, to ensure that KPC continues with the FERC's instructions to them to make the data changes required in the FERC Order from the previous docket. The KCC intervened in KPC's 2017 Fuel and Lost filing at FERC in Docket RP17-137 to ensure that KPC continues to report its Fuel and Lost percentages accurately.

The KCC Intervened in FERC Docket CP16-502 and CP17-45, both Abandonment dockets. In Docket CP16-502, Southern Star was requesting permission to abandon four compressor units on its mainline transmission system. In Docket CP17-45, Southern Star was seeking permission to abandon a compressor unit in its South Welda storage field. The KCC routinely intervenes in Abandonment dockets to ensure that Peak Day Deliveries will not be affected by the abandonment. At the KCC's request, in both Dockets, Southern Star provided analysis that showed that Peak Day Deliveries would not be affected.

Natural Gas Pipeline Safety

OVERVIEW

Pipeline safety personnel continue to conduct on-site inspections of intrastate natural gas facilities. The inspections monitor the gas systems for any areas of non-compliance with pipeline safety regulations. A typical audit will stress compliance with the operator's management of the integrity of the pipeline delivery system including such topics as review of emergency response plans, odorization requirements, cathodic protection, leak surveys, and operator qualification requirements. In addition, engineers and pipeline safety inspectors investigate any incident suspected of being caused by natural gas and report these to the Commission. Any recommendations of Staff regarding prevention of potential incidents are included in the report and considered by the Commission. Statistics that provide a snapshot of the pipeline safety personnel's

inspection activity, as well as an overview of the regulated gas infrastructure in Kansas, can be found in the pipeline safety section of this report.

Pipeline safety personnel also investigate violations of the Kansas Underground Utilities Damage Prevention Act (KUUDPA). Investigators work with excavators and utility operators to assure compliance with provisions of the Act such as requesting locates prior to digging and locating facilities within 48 hours of being notified of pending excavation work. To enhance our KUUDPA enforcement efforts, KCC receives two federal grants that provide funding for two inspector positions for the calendar year. For the calendar year of 2017, the Commission acted upon 26 filings in which fines were levied to 20 excavators for failure to notify utilities prior to excavating over buried facilities. Fines were also levied to four utility operators for failure to provide timely or accurate locates. For the 26 cases, a total of \$21,000 in fines was levied.

Kansas experienced two natural gas incidents in FY 2018. There was one minor injury resulting from these incidents and one incident which resulted in significant property damage. The specifics for the two incidents considered to be significant are included in the Pipeline Safety dockets portion of this report.

Liquid Pipeline Common Carriers

OVERVIEW

Although there are relatively few intrastate pipeline common carriers in Kansas, the Commission is responsible for the economic regulation of this sector. The majority of Staff's work in this area is the review of tariff and rate filings in an effort to ensure efficiency, public interest, and balanced benefit to Kansas common carriers and shippers. Staff is responsible for the economic regulation, including but not limited to: processing tariff and rate filings; analyzing tariffs for compliance;

monitoring complaints; processing and monitoring certificate filings due to sales, purchases, mergers and acquisitions, divestitures, service cessations and abandonment; and monitoring operations for unforeseeable events and capacity constraints. Additionally, Staff tracks all intrastate revenue reported from each pipeline company. Staff processed 13 intrastate pipeline common carrier dockets during FY 2018. The intrastate liquid pipeline companies regulated by the KCC are noted below. A summary of each major docket follows this narrative section along with a listing of all other liquid pipeline dockets.

LARGE LIQUID PIPELINE UTILITIES

(\$10M or more in annual intrastate revenues)

Jayhawk Pipeline (owned by NCRA)

Magellan Pipeline Company, LP

Mid-America Pipeline Company, a subsidiary of Enterprise Products Partners, LP

ONEOK North Systems

SMALL LIQUID PIPELINE UTILITIES

(\$10M or less in annual intrastate revenues)

Kaw Pipeline Company

NuStar Pipeline Operating Partnership, LP

ONEOK NGL Pipeline, LLC

Plains Pipeline, LP

Freedom Pipeline, LLC

Telecommunications

OVERVIEW

The KCC regulates four primary types of telecommunications carriers with varying degrees of regulation: Incumbent Local Exchange Carriers (ILECs); Electing Carriers; Competitive Local Exchange Carriers (CLECs); and Interexchange Carriers (IXCs) (also known as long distance carriers). These telecommunications carriers serve a customer base ranging from as few as

one customer to over 250,000 customers. The large telecommunications carriers regulated by the KCC are noted below. A summary of each major docket associated with the telecommunications carriers follow this narrative section along with a listing of all other telecommunications dockets.

LARGE TELECOMMUNICATIONS CARRIERS

Consolidated Communications Enterprise Services, Inc.

Cox Kansas Telecom, LLC

Kansas Fiber Network, LLC

Rural Telephone Service Co., Inc.

Southwestern Bell Telephone Company d/b/a AT&T Kansas

Time Warner Cable Information Services (Kansas), LLC

United Telephone Company of Kansas, Inc. d/b/a Century Link

In addition to the seven large telecommunications utilities listed above, the Commission has certificated 34 incumbent local exchange carriers (ILECs), 122 competitive local exchange carriers (CLECs), and 227 interexchange carriers (IXCs).

The KCC continues its effort in fulfilling its obligation to protect the rights and privileges of Kansas consumers in balance with the interests of the telecommunication carriers. The evolution of competition in providing local and long distance telecommunications has resulted, in some instances, in greater choice of available services at a variety of rates with a wider array of providers, packages, and bundles from which to choose. Technology developments have also continued to play a key role in the evolution of the telecommunications industry.

The KCC Staff is responsible for the economic regulation, including but not limited to: processing incumbent local exchange carrier tariff filings and switched access rate filings; analyzing

tariffs for compliance with KCC rules and regulations; administering consumer and carrier complaints; processing certificate filings, service cessations, and name changes; reviewing carrier-to-carrier interconnection agreements and providing mediation when necessary; ensuring quality services of the incumbent local exchange carriers; overseeing the Kansas Universal Service Fund (KUSF); auditing rate-of-return regulated ILECs; processing video service applications; and processing eligible telecommunications carriers filings.

KANSAS UNIVERSAL SERVICE FUND

The KUSF was established by the Commission in 1996, as required by the Kansas Telecommunications Act. The KUSF is in its twenty-first year of providing support to local telephone service providers to assist in making universal service available in high-cost areas of the state, to provide dual-party relay service and telecommunications equipment for persons with disabilities, and to provide assistance to those with lower incomes through the Lifeline program. Effective March 1, 2018, the annual KUSF funding requirement is approximately \$41 million and the carrier assessment rate is 7.5%. The KUSF provides approximately \$38.3 million in high-cost support, \$1.4 million for low-income subscribers, \$420,000 for telecommunications relay service, \$227,000 for the telecommunications equipment program, and \$552,000 for the fund administration and carrier audits.

The Commission began audits of all ILECs receiving KUSF support in 2000. The Commission has completed the initial audits for all ILECs and continues to monitor and initiate new audits when warranted based on an annual review of financial metrics. All of the rural LECs have elected rate-of-return regulation; therefore, the audits provide an opportunity for the Commission to determine whether or not the KUSF support is cost-based for each rural ILEC.

The Commission completed one review of an RLEC's current KUSF distribution in FY2018. On June 19, 2017, Rainbow Telecommunications Association, Inc. (Rainbow) filed a request to increase its KUSF distribution by \$1,387,985 annually. On October 26, 2017, Staff filed testimony recommending an increase of \$618,864 in annual support. This number was subsequently revised to \$685,093 in errata testimony. Rainbow and Staff agreed to this revised KUSF support amount and filed a Joint Motion for Commission Approval of KUSF Distribution on November 9, 2017. The Commission approved this request on January 4, 2018.

FEDERAL ISSUES

Congress has determined that broadband has gone from being a luxury to a necessity for full participation in our economy and society – for all Americans. For that reason, the FCC has adopted comprehensive reforms of its Universal Service Fund (USF) and Intercarrier Compensation (ICC) systems to accelerate broadband build-out to the approximately 23 million Americans (as of December 31, 2013) who lacked access to infrastructure capable of providing 10/1 Megabits per second (Mbps) fixed broadband. This reform will expand the benefits of high-speed Internet to millions of consumers in every part of the county by transforming the existing USF into a new Connect America Fund (CAF) focused on broadband. The broad goal is to support the provision of broadband communications in areas that would be unserved without such support or that depend on universal service support for the maintenance of existing broadband service. The FCC has initiated numerous proceedings aimed at implementing its broadband goals.

As part of its reform efforts, the FCC offered over \$1.675 billion annually, for six calendar years (2015-2020), model-based CAF support to price cap carriers nationwide to fund the deployment of voice and broadband-capable services of at least 10/1 (Mbps) in the eligible

areas. CenturyLink accepted \$16.5 million to provide broadband to 29,018 eligible households in Kansas, and AT&T accepted \$18.9 million to provide broadband to 35,375 eligible households in Kansas. Carriers are required to meet specific deployment milestones required by the FCC, including deployment to at least 60 percent of the supported locations in each state by December 31, 2018.

Taking further steps to expand rural broadband deployment, in March of 2016, the FCC approved modernization and reform of its universal service program supporting the nation's rate-of-return carriers. Providing approximately \$20 billion in support over the next ten years, modernizations of the universal service program for rate-of-return areas include enabling rate-of-return providers to meet consumer demand for stand-alone broadband by providing support for stand-alone broadband. Reforms also include better targeting of support to communities that need it the most. The FCC is further allowing carriers to voluntarily transition from legacy rate-of-return support to model-based support, similar to CAF Phase II for rate-of-return carriers (also known as Alternative Connect America Cost Model of ACAM). Kansas rate-of-return carriers: Haviland Telephone Company; Moundridge Telephone Company; S&A Telephone Company; Zenda Telephone Company; and Totah Communications elected to transition from legacy USF support to ACAM support. Carriers electing to voluntarily transition to model-based support must deploy service providing 10 Mbps/1 Mbps to all funded locations, with faster 25 Mbps/3 Mbps service required in areas of higher population density. Carriers are required to meet specific deployment milestones required by the FCC. Because the amount of federal high-cost support a carrier receives is included in the calculation of high-cost KUSF support received by a rate-of-return regulated carrier, changes in federal support may affect the KUSF - although it remains subject to the \$30 million cap.

Water

OVERVIEW

The Kansas Corporation Commission (KCC) regulates three water companies, none of which fall into the large utility category. These water companies serve a customer base ranging from as few as 60 to as many as 1,850. Customers served by these companies typically live in a suburban area approximately two to ten miles outside the city. The water supplied varies from city water supplied by a nearby town to ground water supplied by the company's own water wells. The water companies regulated by the KCC are noted below. There were no major dockets associated with these companies.

WATER COMPANIES

Barton Hills Water District

Green Acres Mobile Home Park, LLC

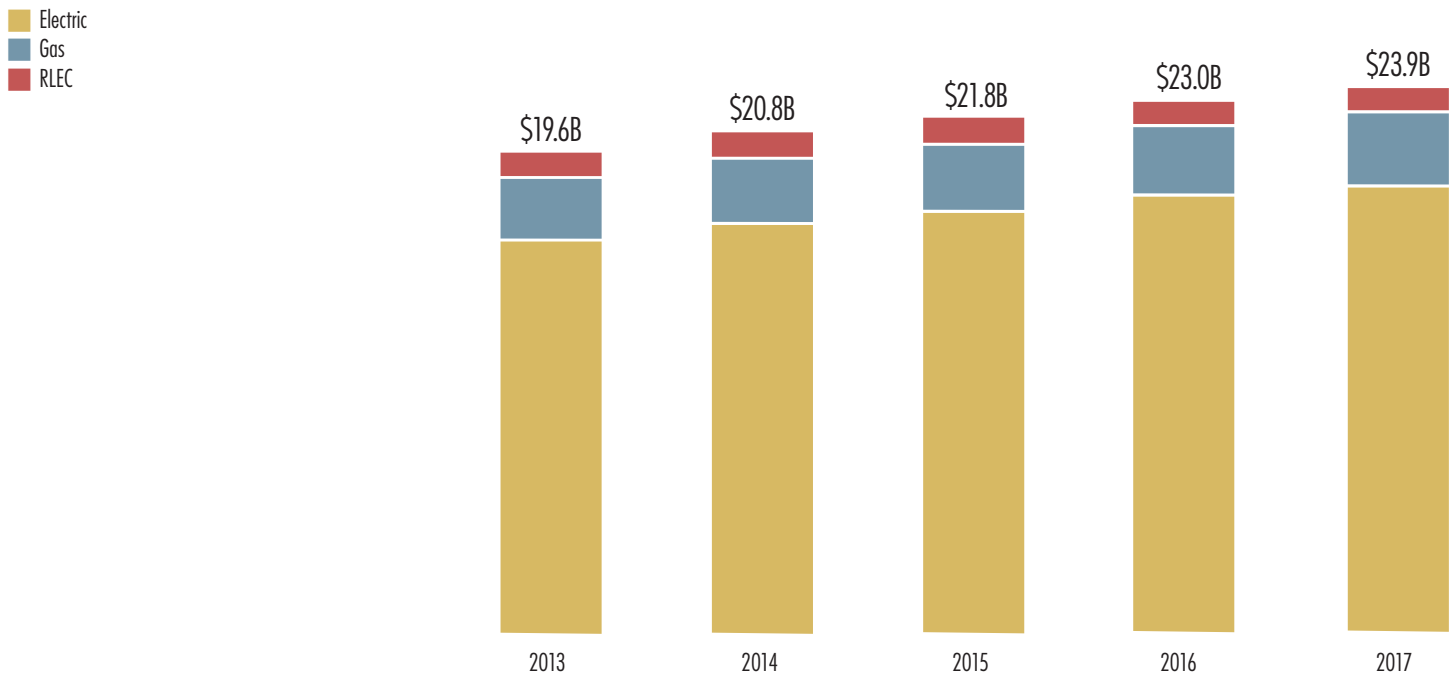

Suburban Water, Inc.

Financial Information and Other Metrics

OVERVIEW

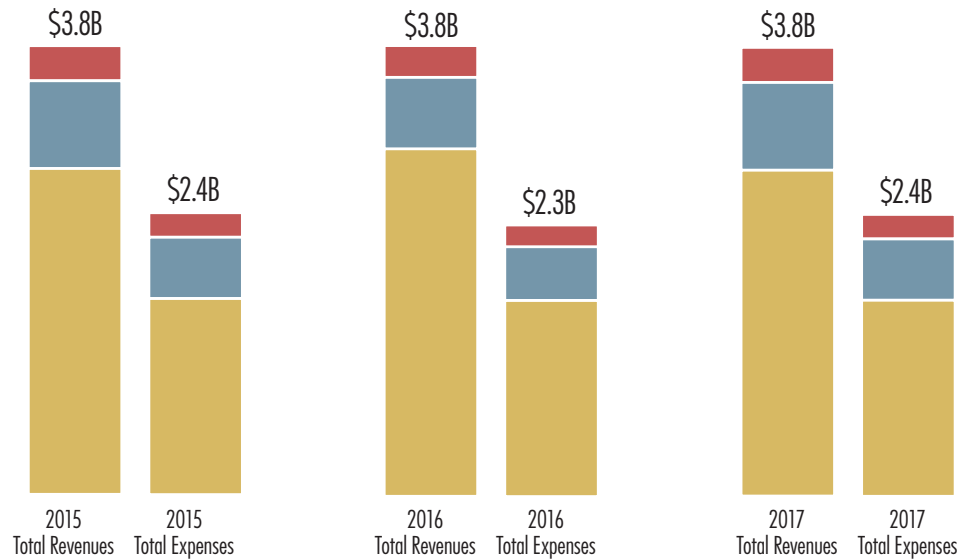

The KCC sets rates for electric, natural gas, telecommunications, and water utilities on a rate base/rate of return basis for public or private utilities or a Times Interest Earned (TIER)/Debt Service Coverage Ratio (DSC) basis for cooperatives. For the electric, natural gas, and rural local exchange companies, the amount of capital investment, fuel and purchased power expense, total revenues, and total expenses are measured in billions of dollars. Following this overview section, more details are provided regarding financial information and other metrics for all the KCC jurisdictional utility industries on a consolidated and individual industry basis.

GAS, ELECTRIC, AND RURAL LOCAL EXCHANGE COMPANIES TOTAL GROSS PLANT | 2013–2017

GAS, ELECTRIC, AND RURAL LOCAL EXCHANGE COMPANIES TOTAL REVENUES AND EXPENSES | 2015–2017

16-UTDT-568-MIS	4	In the Matter of Petition of CenturyLink and Dex Media, Inc. for a Waiver of or Exemption from the Commission's Directive Regarding Distribution of Telephone Directories.
18-KCPE-480-RTS	876	In the Matter of the Application of Kansas City Power & Light Company to Make Certain Changes in Its Charges for Electric Service.

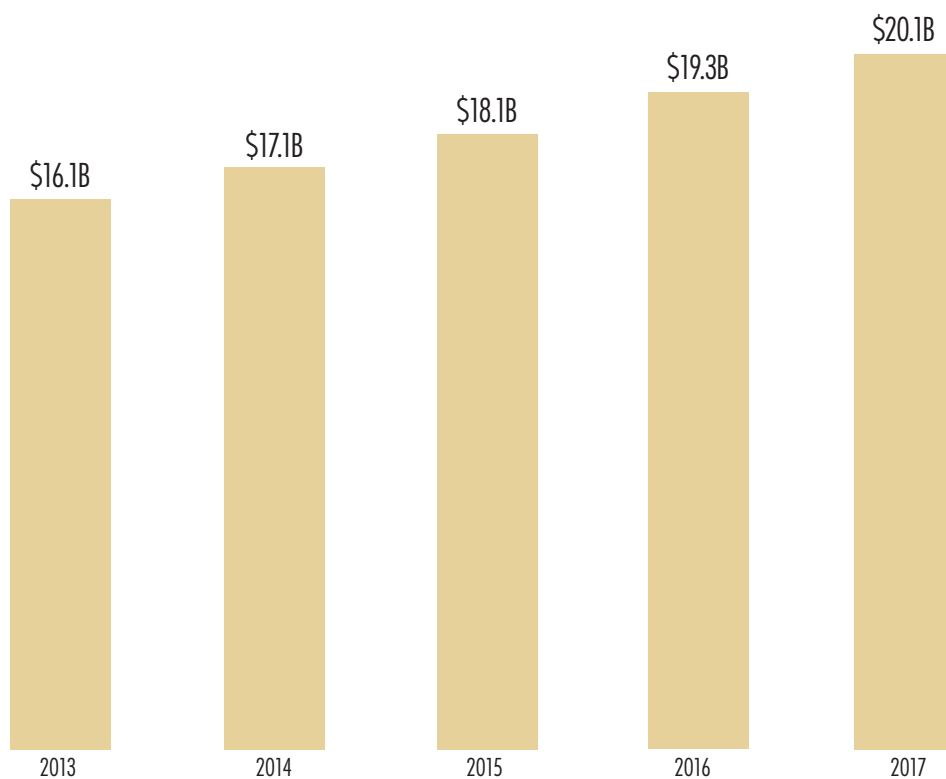

Electric Utilities

Financials

The following are selected Gross Plant, Revenue, and Expense charts and tables including updated information beyond the close of the fiscal year, where available. Some charts depict information available only on a calendar-year basis. Empire District Electric and Kansas City Power & Light have operations in multiple states. The values represented in the following charts relate only to the Kansas operations of those two entities.

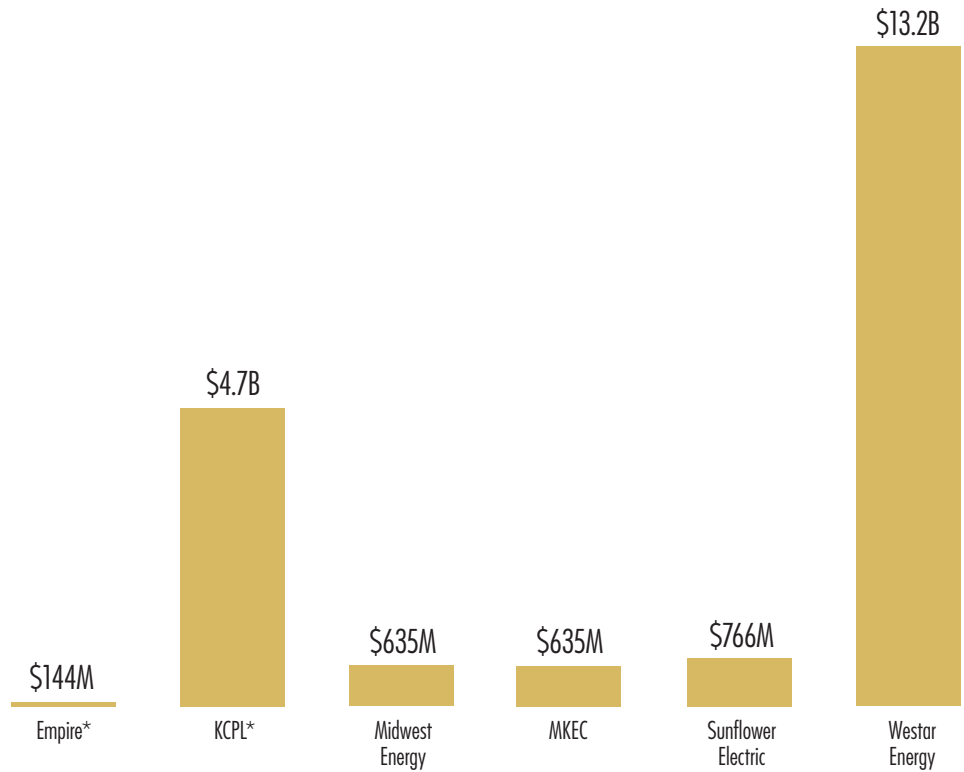

ELECTRIC COMPANIES STATEWIDE GROSS PLANT | 2013-2017

Gross Plant is the sum total value of utility assets and property as well as the fixed cost of the generation and provision of service on which the Utility's rate of return is applied in accordance with rules set by the KCC. This chart displays the aggregate total gross plant of all regulated public utilities in Kansas for the past five years.

ELECTRIC COMPANIES GROSS PLANT, BY COMPANY | 2017

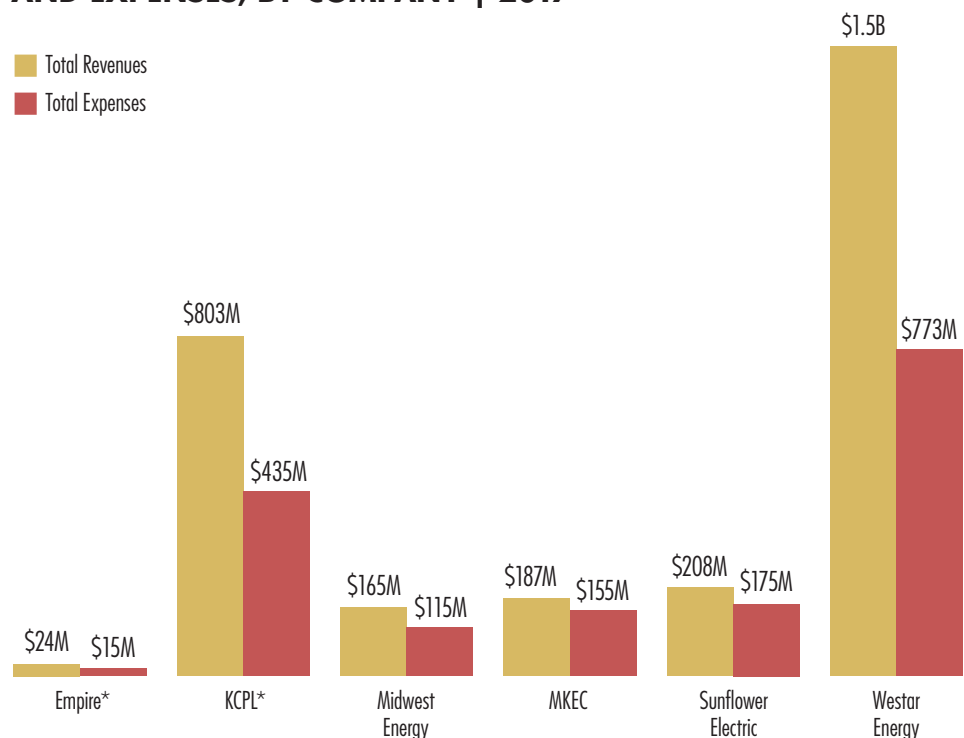

This chart takes the statewide aggregate gross plant figure from the preceding table and divides it among the major regulated utilities. As can be seen from the data, two entities encompass a vast majority of utility gross plant across Kansas.

*All figures for Kansas operations only.

ELECTRIC COMPANIES REVENUES AND EXPENSES, BY COMPANY | 2017

This chart compares each utility's annualized revenues and expenses. The difference between the two represents the gross margin of each company. Worth noting is the difference in gross margins between the investor-owned utilities and the cooperatives. Embedded in that difference is the dividend cost that rewards and helps ensure continued shareholder investment.

*All figures for Kansas operations only.

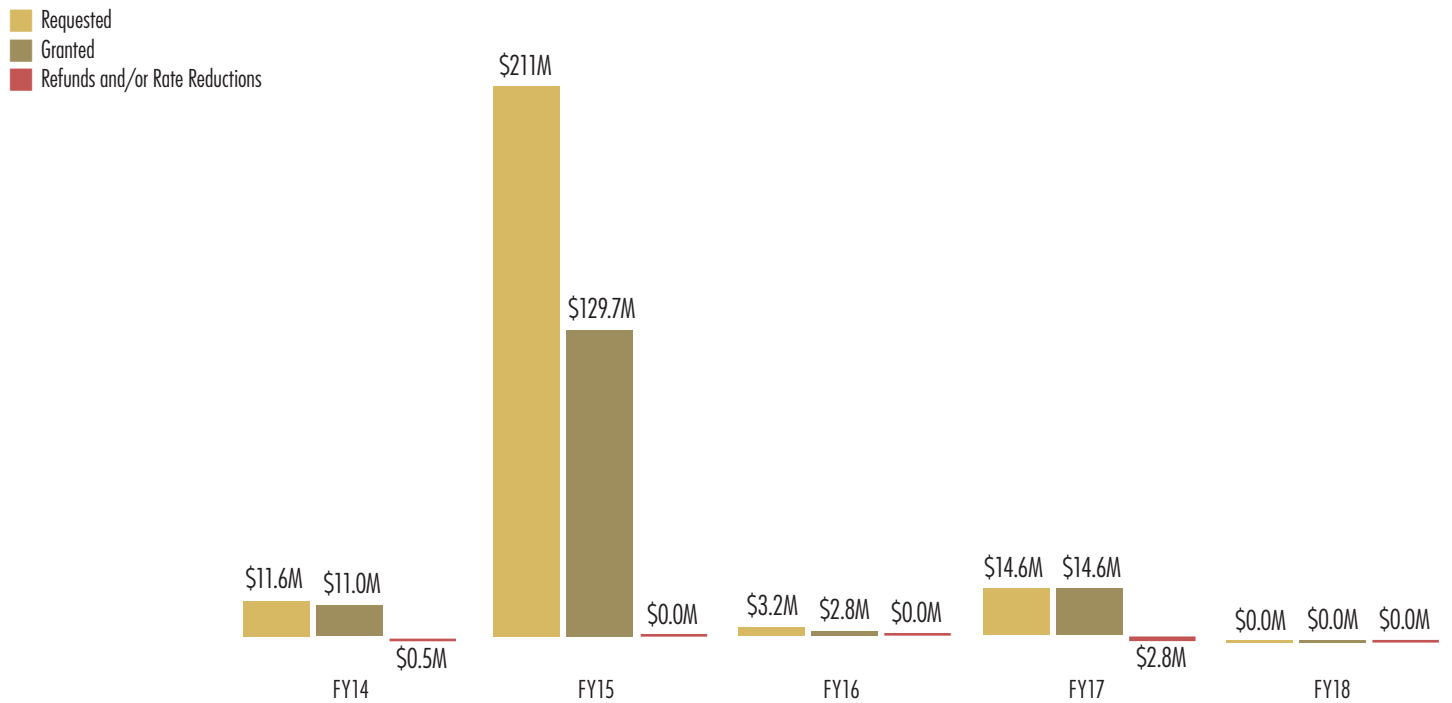

ELECTRIC COMPANIES GENERATING AND PURCHASED POWER COSTS, BY COMPANY | 2017

This chart takes the expense portion from each utility on the previous table and carves out the cost of generation and purchased power. As can be seen by comparing the two tables, generation and purchased power represent only about half the total cost of providing safe, reliable, and efficient electric service.

*All figures for Kansas operations only.

ELECTRIC COMPANIES WITH REVENUES OF OVER \$10M | RATE CASE RESULTS | FY14-FY18

RESIDENTIAL ELECTRIC BILL COMPARISON | JULY 2017 - JUNE 2018

The following chart represents a comparison of monthly bills based on average residential consumption of 916 kWh.

	Company**	Customer Charge	Energy Charge	ECA**	Environmental Cost Recovery	Energy Efficiency Rider	Trans. Delivery Charge	Property Tax Surcharge	Total Bill Without Tax	Utility Bill as a % of National Avg. Bill	Utility Bill as a % of Kansas Wt. Avg. Bill	Number of Residential Customers 2017

Generation Planning Survey

The Commission continues to monitor the generation capacity and reliability of Kansas electric utilities. Staff members annually review generation and load forecasts of Kansas electric utilities to ascertain whether there is adequate electric supply to meet the needs of Kansas electric consumers. The findings of that survey can be

seen below. Based on its review, staff determined that, at this time, forecasted electric generation capacity and planning to meet future changes in system load in the State of Kansas appears sufficient given current load and generation forecasts planned. Although utilities in the chart do indicate deficiencies in the future,

planned generation capacity additions can be made that will satisfy future planning responsibility. The chart on this page describes the generation capacity situation major utilities in Kansas face going forward.

		INVESTOR OWNED UTILITIES (IOUs)			COOPERATIVES			MUNICIPAL UTILITIES		
		Empire District Electric Company	Kansas City Power & Light (KCPL)	Westar Energy	Kansas Electric Power Coop. (KEPCo)	Midwest Energy	Sunflower Electric Power Corporation	Kansas City Board of Public Utilities (KC-BPU)	Kansas Municipal Energy Agency (KMEA)	Kansas Power Pool (KPP)

Large Electric Rate Cases

KANSAS CITY POWER & LIGHT COMPANY

<i>Docket number</i>	<i>18-KCPE-480-RTS</i>
<i>Docket type</i>	<i>Electric</i>
<i>Date filed</i>	<i>01 May 2018</i>
<i>Action date</i>	<i>12 Dec 2018</i>
<i>Commission action</i>	<i>Approved</i>

In the Matter of the Application of Kansas City Power & Light Company to Make Certain Changes in Its Charges for Electric Service.

On May 1, 2018, Kansas City Power & Light Company (KCP&L) filed an Application to make changes in its rates and charges for electric service. KCP&L's Application indicated a gross revenue deficiency of \$32,948,941. After rebasing the property tax surcharge (PTS) currently collected from customers, the net impact of KCP&L's requested revenue requirement is an increase of \$26,165,358. This amount includes the reduced revenue requirement that occurred as a result of the reduction in the federal corporate tax rate resulting from the TCJA; the impact of the revenue requirement associated with KCP&L's investment in a new customer information system, as well as other plant additions; and the impact of a change in depreciation rates proposed by KCP&L. On June 26, 2018, KCP&L filed supplemental testimony incorporating into its Application the terms of the agreement approved by the Commission in Docket No. 18-KCPE-095-MER, reducing its initial request by approximately \$10.3 million.

On September 12, 2018, the parties involved in the docket filed their direct testimony. In its direct testimony, Staff recommended a revenue decrease of \$1,231,844, excluding the PTS rebasing; and CURB recommended a decrease of \$12,228,763, excluding the PTS rebasing. Staff and CURB also addressed various policy and rate design issues. Other interveners filed direct and cross-answering testimony primarily addressing rate design issues. On October 3, 2018, KCP&L filed rebuttal testimony responding to the direct testimonies that were filed by Staff, CURB, and other interveners. The parties met collectively beginning October 9, 2018, continuing through October 10, 2018, to discuss the possible settlement of issues in this matter. After negotiations, the

parties agreed unanimously to a decrease of \$10,700,000.

On October 12, 2018, the parties filed a Joint Motion for Approval of Unanimous Settlement Agreement (Settlement Agreement), supporting the agreed-upon revenue decrease and also containing other provisions in the settlement that addressed all other disputed issues presented in the case. An order approving the unanimous settlement was issued on December 12, 2018.

SUNFLOWER ELECTRIC POWER CORPORATION

<i>Docket number</i>	<i>17-SEPE-415-TAR</i>
<i>Docket type</i>	<i>Electric</i>
<i>Date filed</i>	<i>16 Mar 2017</i>
<i>Action date</i>	<i>06 Mar 2018</i>
<i>Commission action</i>	<i>Approved</i>

In the Matter of the Application of Sunflower Electric Power Corporation for an Order Approving (i) Continued Use of the Target Financial Ratio Levels Used in, and (ii) Amendments to its Commission Approved Formula-Based Rate for Recovery of Transmission Costs.

On March 16, 2017, Sunflower Electric Power Corporation (Sunflower) filed an Application requesting the Commission approve (i) continued use of the current levels of Debt Service Coverage (DSC) and Times Interest Earned Ratio (TIER) target metrics in Sunflower's Formula-Based Rate for Recovery of Transmission Costs (TFR), which was previously approved by the Commission in Docket No. 13-SEPE-701-TAR, and (ii) amendments to the TFR to allow adjustments in the TFR for Southwest Power Pool, Inc. competitively bid transmission projects compelled by Federal Energy Regulatory Commission Order 1000.

On April 4, 2017, the Commission issued a Suspension Order to allow for a full investigation on the matter for a period of 240 days from the date the Application was filed until November 13, 2017. On October 19, 2017, Sunflower Electric Company and KCC Staff filed a joint motion for an Order extending the Suspension Order for a period of 120 days. In support of their motion, the Parties stated, "Sunflower's request for TFR competitive bid adjustments is unique and complex. Sunflower and Staff have had extensive informal discussion regarding

Sunflower's request for adjustments to its TFR. Both Parties have worked collaboratively towards a revised structure of such adjustments, but have not finalized the exact details. Once the adjustments to the template are finalized Sunflower will revise its request for such adjustments and file a Supplemental Application."

On October 24, 2017, the Commission issued an Order extending the suspension period until March 13, 2018. On November 22, 2017, Sunflower filed its Supplemental Application and additional supporting Testimony that modified its original Application to narrow the scope of its request concerning the TFR competitively bid adjustments and reaffirmed its request for the continued use of the current DSC and TIER ratios.

On February 19, 2018, Staff filed its Report & Recommendation, which recommended the Commission approve Sunflower's request for the current use of the calculation mechanism for developing its DSC and TIER target financial metrics and amend its TFR to allow for the use of competitive adjustments as proposed in Sunflower's Supplemental Application for competitively bid transmission projects within Sunflower's zone in the Southwest Power Pool.

On March 6, 2018, the Commission issued its Order approving Sunflower's request as contained in its Supplemental Application and as detailed in Staff's Report & Recommendation. The Commission finds: (i) Sunflower shall be permitted to retain its current base target ratios and incentive ROE adder, and (ii) Sunflower's request for the modifications to its TFR will result in just and reasonable mechanisms for Sunflower to bid on certain competitive transmission projects in SPP.

SOUTHERN PIONEER ELECTRIC COMPANY

<i>Docket number</i>	<i>18-SPEE-477-RTS</i>
<i>Docket type</i>	<i>Electric</i>
<i>Date filed</i>	<i>30 Apr 2018</i>
<i>Action date</i>	<i>31 Jul 2018</i>
<i>Commission action</i>	<i>Approved</i>

In the Matter of the Application of the Annual Filing of Southern Pioneer Electric Company for Approval to Make Certain Changes to Its Charges for Electric Services, Pursuant to the Debt Service Coverage

Formula Based Ratemaking Plan Approved in Docket No. 13-MKEE-452-MIS and 34.5kV Formula Based Ratemaking Plan Approved in Docket No. 16-MKEE-023-TAR.

On April 30, 2018, Southern Pioneer Electric Company (Southern Pioneer) filed its fifth Application under its five-year Debt Service Coverage Formula Based Ratemaking (DSC-FBR) Pilot Program approved in Docket No. 13-MKEE-452-MIS and Southern Pioneer's third annual update of its three-year 34.5 kV Formula Based Ratemaking (34.5kV FBR) plan approved in Docket No. 16-MKEE-023-TAR.

In its Application, Southern Pioneer sought a revenue increase of \$1,311,929 or 2% for retail ratepayers under its DSC-FBR plan and a revenue requirement increase of \$110,656 under its 34.5kV FBR plan, which was apportioned based on load ratio share (LRS). Southern Pioneer's wholesale Local Access Delivery Service (LADS) customers were responsible for 42 percent of the load ratio share and accounted for \$46,386 of the revenue requirement increase while Southern Pioneer's retail customers were apportioned the remaining \$64,270 of the revenue requirement increase based on a 58 percent LRS. The resultant proposed wholesale LADS rate was \$5.00/kW in the Application.

The Citizens' Utility Ratepayer Board (CURB), petitioned to intervene in the Docket and was granted intervention by the Commission. Kansas Electric Power Cooperative, Inc. and Kansas Power Pool both filed Entries of Appearance.

On July 6, 2018, Staff and CURB filed direct testimony. Staff recommended the Commission approve Southern Pioneer's proposed DSC-FBR and 34.5kV-FBR retail rate adjustments and the proposed 34.5kV LAC charge. CURB recommended the Commission approve a \$21,771 decrease to Southern Pioneer's cost of service. On July 16, 2018, Southern Pioneer filed rebuttal testimony stating that Southern Pioneer agreed with Staff's recommendation and requested that the Commission disregard CURB's proposed adjustment.

On July 31, 2018, the Commission issued its Order approving Staff's recommendations.

WESTAR ENERGY, INC.

<i>Docket number</i>	<i>18-WSEE-328-RTS</i>
<i>Docket type</i>	<i>Electric</i>
<i>Date filed</i>	<i>01 Feb 2018</i>
<i>Action date</i>	<i>02 Oct 2018</i>
<i>Commission action</i>	<i>Withdrawn</i>

In the Matter of the Joint Application of Westar Energy, Inc. and Kansas Gas and Electric Company for Approval to Make Certain Changes in their Charges for Electric Services.

Westar Energy, Inc. and Kansas Gas and Electric Company (Westar) filed its Application for a rate increase on February 2, 2018. The total request was for an increase in rates of \$52.5 million. The company cited the following factors as drivers of the rate increase: 1) change in the federal corporate tax rate implemented by the Tax Cuts and Jobs Act of 2017; 2) investment in the Western Plains Wind Farm; 3) increase in depreciation expense as the result of a depreciation study; 4) the need to begin reflecting merger savings associated with the recently-approved merger with Great Plains Energy; and 5) the expiration of rate credits associated with a wholesale purchased power agreement and the expiration of PTCs associated with Westar's investment in two wind farms set to expire in early 2019.

On June 11, 2018, the parties filed their direct testimony. Staff recommended a decrease of \$68.9 million; and The Citizens' Utility Ratepayer Board recommended a decrease of \$138 million. On July 16, 2018, the parties reached a non-unanimous settlement. The parties to the Stipulation & Agreement agreed to a decrease of \$66 million.

An Order approving the Non-Unanimous Settlement & Agreement was issued on October 2, 2018.

Major Dockets | ELECTRIC UTILITIES

Pursuant to K.S.A. 66-117b, the following is a review with narrative of all dockets for Large Electric Utilities (those with \$10,000,000 or more annual revenue in the preceding calendar year) which caused changes to “rule or regulation or practice pertaining to the service or rates of a public utility or common carrier approved by the state corporation commission during the preceding fiscal year.” That year runs from July 1, 2017 through June 30, 2018.

GENERAL INVESTIGATION - TAX REFORM

<i>Docket number</i>	<i>18-GIMX-248-GIV</i>
<i>Docket type</i>	<i>Multi</i>
<i>Date filed</i>	<i>14 Dec 2017</i>
<i>Action date</i>	<i>n/a</i>
<i>Commission action</i>	<i>Not Final</i>

In the Matter of a General Investigation Regarding the Effect of Federal Income Tax Reform on the Revenue Requirements of Kansas Public Utilities and Request to Issue an Accounting Authority Order Requiring Certain Regulated Public Utilities to Defer Effects of Tax Reform to a Deferred Revenue Account.

The Tax Cuts and Jobs Act (TCJA) is a Congressional bill that amends the Internal Revenue Code to reduce tax rates and modify policies, credits, and deductions for individuals and businesses. In anticipation of the TCJA being signed into law, on December 14, 2017, Staff filed a Motion to Open a General Investigation and Issue Accounting Authority Order Regarding Federal Tax Reform (Staff’s Motion). On December 22, 2017, the TCJA was signed into law, which, amongst other changes, reduced the federal corporate income tax rate from 35% to 21% beginning on January 1, 2018. Also, on December 22, 2017, the Citizens’ Utility Ratepayer Board (CURB) filed a Petition to Intervene and a Response in Support of Staff’s Motion.

On January 18, 2018, the Commission issued its Order Opening General Investigation and Issuing Accounting Authority Order Regarding Federal Tax Reform. In doing so, the Commission directed all regulated public utilities that are taxable at the corporate level, to accrue monthly, in a deferred revenue account, the portion of its revenue representing the difference between: (1) the cost of service as approved by the Commission in its most recent rate case or Kansas Universal Service Fund (KUSF) determination proceeding; and (2) the cost of service that would have resulted had the provision

for federal income taxes been based upon the corporate income tax rate approved in the TCJA. The Order also gave notice to taxable utilities operating in Kansas that the portion of their revenue reflecting higher corporate tax rates should be considered interim and subject to refund, with interest, until an evaluation on a case-by-case basis is complete. Since the Order was granted, Staff has examined the financial impacts of the TCJA on each affected utility on a case-by-case basis. Additionally, Staff has held discussions with each utility individually to attempt to reach an agreement to quantify the financial impacts of the new lower tax rate on their Kansas-based operations and how the costs savings related to the lower tax rates should be passed on to their Kansas customers.

On January 17, 2018, Kansas City Power & Light Company (KCP&L) filed its entry of appearance in this docket. On several occasions, Staff, CURB and KCP&L (collectively, the Parties) met to discuss and attempt to reach an agreement to establish a procedure to be used in KCP&L’s upcoming general rate case to quantify and pass along the cost savings relating to the lower tax rates to its Kansas customers. As a result of the discussions, the Parties were able to reach an agreement. On June 1, 2018, the Parties filed a Joint Motion for Approval of Settlement Agreement Regarding Kansas City Power & Light Company. In the Settlement Agreement, the Parties agreed that for the period of time between January 1, 2018, through the date the Commission issues a final order in its current rate case, Docket No. 18-KCPE-480-RTS, KCP&L would accrue monthly, as a regulatory liability, the cost savings resulting from the TCJA, with interest. The Parties agreed that the total annual amount to be accrued as a regulatory liability exclusive of any calculated interest be \$31,766,554. Additionally, KCP&L agreed

to establish a regulatory liability to account for and capture tax savings relating to excess ADIT and that any issues regarding the amount of tax savings relating to excess ADIT and how those savings should be passed on to customers be deferred to its rate case filing. Furthermore, KCP&L agreed to address the impact of the TCJA in base rates and its proposed plan to refund the amount being accrued as a regulatory liability in its rate case. On June 19, 2018, the Commission issued an Order Granting Joint Motion for Approval of Settlement Agreement Regarding Kansas City Power & Light Company.

On January 31, 2018, Westar Energy, Inc., Kansas Gas and Electric Company (Westar) filed its entry of appearance in this docket. On several occasions, Staff, CURB and Westar (collectively, the Parties) met to discuss and attempt to reach an agreement to establish a procedure to be used to pass the tax savings related to the TCJA on to customers in Westar’s ongoing rate case at the time, Docket No. 18-WSEE-328-RTS (18-328 Docket). As a result of the discussions, the Parties were able to reach an agreement. On May 29, 2018, the Parties filed a Joint Motion for Approval of Settlement Agreement Regarding Westar Energy, Inc. and Kansas Gas and Electric Company. In the Settlement Agreement, the Parties agreed that for the period of time between January 1, 2018, through the date the Commission issues a final order in the 18-328 Docket, Westar would accrue monthly, as a regulatory liability, the cost savings resulting from the TCJA, with interest. The Parties agreed that the total annual amount to be accrued as a regulatory liability exclusive of any calculated interest be \$49,707,217. Additionally, Westar agreed to establish a regulatory liability to account for and capture tax savings relating to excess ADIT and that any issues regarding the amount of tax savings relating to excess ADIT and

how those savings should be passed on to customers be deferred to its current rate case filing. Furthermore, Westar agreed to address the impact of the TCJA in base rates and its proposed plan to refund the amount being accrued as a regulatory liability in its rate case. On June 12, 2018, the Commission issued an Order Granting Joint Motion for Approval of Settlement Agreement Regarding Westar Energy.

On January 31, 2018, The Empire District Electric Company (Empire) filed its entry of appearance in this docket. On February 7, 2018, and again on May 14, 2018, Staff, CURB and Empire (the Parties) met to discuss and attempt to reach an agreement to establish a procedure to be used in Empire's upcoming general rate case to quantify and pass along the cost savings relating to the lower tax rates to its Kansas customers. As a result of the meetings, the Parties were able to reach an agreement. On June 22, 2018, the Parties filed a Joint Motion for Approval of Settlement Agreement Regarding The Empire District Electric Company. In the Settlement Agreement, the Parties agreed that for the period of time between January 1, 2018, through the date the Commission issues a final order in Empire's next general rate case, Empire would accrue monthly, as a regulatory liability, the cost savings resulting from the TCJA, including the impacts to the Asbury and Environmental Cost Recovery Rider (AERR), with interest. The Parties agreed that the total annual amount to be accrued as a regulatory liability exclusive of any interest shall be \$1,229,466, which consists of \$1,049,971 related to base rates and \$179,495 related to the AERR. Additionally, Empire agreed to establish a regulatory liability to account for and capture tax savings relating to excess ADIT and that any issues regarding the amount of tax savings relating to excess ADIT and how those savings should be passed on to customers be deferred to its rate case filing. Furthermore, Empire agreed to file a rate case no later than 150 days from the date of the Commission's order approving the Settlement Agreement, which will include the impact of the TCJA in base rates and its proposed plan to account for any portion of the amount being accrued as a regulatory liability. On July 12, 2018, the Commission issued an Order Granting Joint Motion for Approval of Settlement Agreement

Regarding The Empire District Electric Company.

On February 5, 2018, Southern Pioneer Electric Company (Southern Pioneer) filed its entry of appearance in this docket. On May 22, 2018, a Joint Motion to Dismiss Southern Pioneer Electric Company Due to Non-Applicability of Federal Income Tax Reform was filed by Staff, CURB and Southern Pioneer (collectively, the Joint Movants). Because Southern Pioneer uses a Commission-approved formula based rate methodology and does not embed ADIT in rates, the Joint Movants concluded it did not need to calculate any deferred revenue or be involved further in this general investigation. On June 7, 2018, the Commission issued an Order Granting Joint Motion to Dismiss Southern Pioneer Electric Company.

GENERAL INVESTIGATION

<i>Docket number</i>	<i>17-GIME-565-GIV</i>
<i>Docket type</i>	<i>Electric</i>
<i>Date filed</i>	<i>27 Jul 2017</i>
<i>Action date</i>	<i>15 Mar 2018</i>
<i>Commission action</i>	<i>Order Issued</i>

In the Matter of a General Investigation Regarding Whether Electric Utilities Should be Considered an "Operator" of Private Underground Lines Under the Provisions of the Kansas Utility Damage Prevention Act.

On July 27, 2017, the Commission opened a general investigation regarding an operator's obligation to provide locate markings for commercial underground electric utilities.

The discussion in the docket focused on the interpretation of the definition of the term "operator" found in K.S.A. 66-1802(j). Nine entities filed comments in this docket and four filed replies to Staff's report and recommendation in the docket. On March 15, 2018, the Commission issued its order in the docket stating electric utilities providing service to commercial customers through underground electric service lines are required to provide utility locates for all underground electric facilities upstream of a customer-controlled disconnect point. The order also directs Staff to work with affected parties to develop appropriate solutions to any practical issues that may arise as the result of this order. The order has been appealed by Kansas Electric Cooperatives, Inc., which represents 28 electric distribution cooperatives and three

generation and transmission cooperatives.

GENERAL INVESTIGATION

<i>Docket number</i>	<i>18-GIME-217-GIE</i>
<i>Docket type</i>	<i>Electric</i>
<i>Date filed</i>	<i>28 Nov 2017</i>
<i>Action date</i>	<i>09 Jan 2018</i>
<i>Commission action</i>	<i>Order Issued</i>

In the Matter of a General Investigation to Determine the Commission's Jurisdiction over Municipal Energy Agencies.

On November 28, 2017, the Commission opened a general investigation in response to a Motion to Dismiss filed by Kansas Power Pool (KPP) in Docket 17-KPPE-092-COM. In that docket, KPP argued the Commission lacked jurisdiction over KPP's wholesale transmission service decisions. Rather than decide the issue in the complaint docket, the Commission opened the general investigation to allow all interested parties the opportunity to participate in the proceeding. The general investigation focused on whether a municipal energy agencies' powers under K.S.A 12-895 fell outside the Commission's jurisdictional authority under K.S.A. 12-8,111. All participating parties were requested to file legal briefs regarding this topic. On January 9, 2018, the Commission issued its order stating municipal energy agencies are subject to the Commission jurisdiction in all matters other than obtaining certificates of public convenience and necessity.

CERTIFICATE OF CONVENIENCE

<i>Docket number</i>	<i>18-KPPE-343-COC</i>
<i>Docket type</i>	<i>Electric</i>
<i>Date filed</i>	<i>09 Feb 2018</i>
<i>Action date</i>	<i>01 Nov 2018</i>
<i>Commission action</i>	<i>Granted</i>

In the Matter of the Application of Kansas Power Pool for a Certificate of Convenience and Authority to Transact the Business of an Electric Public Utility in the State of Kansas for Transmission Rights Only to Cross Service Territory of Southern Pioneer Electric Company and Ninescah Rural Electric Company.

On February 9, 2018, the Kansas Power Pool (KPP) filed its application for a transmission rights only (TRO) certificate to cross through the certified territory of two adjacent electric public utilities. The filing was the outcome of the Commission's decision in the 17-KPPE-092-COM complaint docket. In the 18-343

docket, Southern Pioneer and its related transmission utility, Mid Kansas Electric Cooperative opposed granting the TRO to KPP based primarily on the fact that the TRO would result in KPP no longer taking service from Southern Pioneer. On November 1, 2018, the Commission issued its order granting the TRO certificate to Kansas Power Pool.

WOLF CREEK NUCLEAR OPERATING COMPANY, KANSAS GAS AND ELECTRIC COMPANY, KANSAS CITY POWER AND LIGHT COMPANY, AND KANSAS ELECTRIC POWER COOPERATIVE, INC.

<i>Docket number</i>	<i>18-WCNE-107-GIE</i>
<i>Docket type</i>	<i>Electric</i>
<i>Date filed</i>	<i>01 Sep 2017</i>
<i>Action date</i>	<i>02 Aug 2018</i>
<i>Commission action</i>	<i>Approved</i>

In the Matter of the 2017 Triennial Decommissioning Financing Plan.

On September 1, 2017, Wolf Creek Nuclear Operating Company (WNOC), Kansas Gas & Electric (KG&E d/b/a Westar Energy, Inc.), Kansas City Power & Light Company (KCP&L), and Kansas Electric Power Cooperative, Inc. (KEPCo) filed their triennial decommissioning cost study and financing plan for Wolf Creek Nuclear Generating Station pursuant to the requirements of K.S.A. 66-128m and 66-128o.

On December 28, 2017, parties filed a Joint Motion for Procedural Schedule.

On May 15, 2018, Staff filed direct testimony addressing the requests made in the Application.

On June 12, 2018, Joint Applicants filed rebuttal testimony.

On June 18, 2018, CURB filed surrebuttal testimony.

On June 21, 2018, Joint Applicants, Staff and CURB filed a motion to amend the procedural schedule and on June 22, 2018, Joint Applicants and Staff filed a Joint Motion to Approve a non-unanimous Settlement Agreement.

On June 27, 2018, CURB filed testimony opposing the Settlement Agreement.

On June 27, 2018, Staff and the Joint Applicants filed testimony in support of the Settlement Agreement.

On June 29, 2018, Staff filed responsive testimony to CURB’s testimony opposing

the Settlement Agreements.

On August 2, 2018, the Commission issued an Order adopting the SAFESTOR decommissioning methodology for Wolf Creek Nuclear Generating Station. Each of the three owners would address the funding levels of their respective nuclear decommissioning trust funds in upcoming rate cases; Kansas City Power & Light in its 18-KCPE-480-RTS docket and Westar Energy in its 18-WSEE-326-RTS docket.

GREAT PLAINS ENERGY, INC. KANSAS CITY POWER & LIGHT COMPANY, AND WESTAR ENERGY, INC.

<i>Docket number</i>	<i>18-KCPE-095-MER</i>
<i>Docket type</i>	<i>Electric</i>
<i>Date filed</i>	<i>25 Aug 2017</i>
<i>Action date</i>	<i>24 May 2018</i>
<i>Commission action</i>	<i>Approved</i>

In the Matter of the Application of Great Plains Energy Incorporated, Kansas City Power & Light Company, and Westar Energy, Inc. for Approval of the Merger of Westar Energy, Inc. and Great Plains Energy, Incorporated.

On August 25, 2017, Great Plains Energy Incorporated (Great Plains), Kansas City Power & Light Company (KCP&L), and Westar Energy, Inc. (Westar) (Joint Applicants) filed a Joint Application and testimony seeking approval of the merger of Westar and Great Plains which would result in the creation of a new holding company with a total capitalization of \$25 billion. Under this revised merger plan shareholders of Westar would own 52.5% and Great Plains shareholders would own 47.5% the new holding company.

On January 26, 2018, Staff, CURB, and interveners filed direct testimony in response to the Application. Staff’s testimony recommended that the merger be approved by the Commission, but only after the imposition of 56 commitments, as contained in the Direct Testimony of Jeffrey D. McClanahan, Utilities Division Director.

These conditions included items such as additional upfront rate credits, a five year rate moratorium, ongoing rate credits during the pendency of the moratorium, an Earnings Review and Sharing Plan that shared any additional merger savings 50/50 with customers and shareholders, ongoing reporting on capital expenditures and quality of service metrics, a requirement

to keep a headquarters building in Topeka for ten years, minimum headcount Requirements at the Topeka headquarters, and several others.

On February 19, 2018, the Joint Applicants filed rebuttal testimony.

On March 7, 2018, Staff, CURB, the Joint Applicants, and certain intervening parties filed a Joint Motion for Approval of Non-Unanimous Settlement Agreement. The S&A contained the following major terms:

- 1) A five-year moratorium on rate cases beginning after Westar’s (18-WSEE-328-RTS) and KCP&L’s (18-KCPE-480-RTS) 2018 rate cases;
 - 2) Establish an Earnings Review & Sharing Plan to share merger savings between consumers and shareholders during the rate case moratorium;
 - 3) Upfront payments to consumers of \$50 million across all jurisdictions (\$23.07 million Westar and \$7.51 million KCP&L-Ks);
 - 4) Annual bill credits from 2019 through 2022 of \$8.65 million for Westar customers and \$2.82 million for KCP&L-Ks;
 - 5) Guaranteed Recognition of \$30 million of merger savings in the 2018 rate cases;
 - 6) Agreement for parties to recommend the Commission adopt a 9.30% return on equity in the 2018 rate cases (18-WSEE-328-RTS and 18-KCPE-480-RTS);
 - 7) Commitments to zero involuntary termination, to maintain a headquarters in Topeka for at least ten years after the merger closes, and to keep at least 500 full time positions in the Topeka headquarters for the next five years; and
 - 8) Several reporting conditions involving capital expenditure plans, quality of service metrics, and merger integration/savings.
- On March 12, 2018, Staff, CURB, and the Joint Applicants filed testimony in support of the Non-Unanimous Settlement Agreement.
- On March 19, 2018, through March 23, 2018 the Commission held evidentiary hearings on the merger Application and Non-Unanimous Settlement Agreement.
- On May 24, 2018, the Commission issued an Order Approving Merger Application.
- On June 5, 2018, the Joint Applicants filed a Notice of Closing with the Commission.
- On June 7 and 8, 2018, the Sierra Club and

the Kansas Industrial Consumers Group, Inc., filed Petitions for Reconsideration.

On June 28, 2018 the Commission issued an Order Denying Petitions for Reconsideration by the Sierra Club and the Kansas Industrial Consumers Group, Inc.

KANSAS POWER POOL

<i>Docket number</i>	<i>18-KPPE-343-COC</i>
<i>Docket type</i>	<i>Electric</i>
<i>Date filed</i>	<i>09 Feb 2018</i>
<i>Action date</i>	<i>01 Nov 2018</i>
<i>Commission action</i>	<i>Approved</i>

In the Matter of the Application of Kansas Power Pool for a Certificate of Convenience and Authority to Transact the Business of an Electric Public Utility in the State of Kansas for Transmission Rights Only to Cross Service Territory of Southern Pioneer Electric Company and Ninnescah Rural Electric Company.

On February 9, 2018, the Kansas Power Pool (KPP) filed its Application for Commission approval of a Transmission Rights Only (TRO) certificate in the retail service territory of Southern Pioneer Electric Company (Southern Pioneer) and Ninnescah Electric Cooperative (Ninnescah). KPP's Application requested permission to build a five-mile extension of an existing 34.5 kV transmission line through the retail territory certified to Ninnescah and Southern Pioneer, which would connect the existing KPP 34.5 kV transmission line to a proposed new substation. The new substation and the five-mile extension are collectively referred to as the Kingman Direct Connection (KDC).

On May 8, 2018, Larry Holloway filed direct testimony on behalf of KPP and in support of the Application. Mr. Holloway testified that KPP suffers from poor transmission service, which limits Kingman's access to affordable power markets and capacity marketing opportunities. Mr. Holloway testified that the KDC would alleviate KPP's poor transmission access issues.

On May 15, 2018, Southern Pioneer was granted intervention. On May 22, 2018, Mid-Kansas Electric Company, Inc. was granted intervention.

On July 9, 2018, Staff filed testimony in support of KPP's Application. Staff evaluated the request using the standards enumerated in the Retail Electric Suppliers Act, and found that the Application would

promote the public convenience and necessity. Additionally, Staff found that the KDC was the most economical solution for the City of Kingman and KPP to address the transmission service limitations faced by KPP for the City of Kingman.

On July 9th and July 16th, the interveners MKEC and Southern Pioneer filed testimony in opposition of KPP's Application.

The Commission held an evidentiary hearing on August 28, 2018 and August 29, 2018. The Commission accepted briefs and reply briefs during September and October 2018.

On November 1, 2018, the Commission ruled in favor of KPP's Application. The Commission found that the KDC promoted the public convenience and necessity because it met each of the enumerated factors in K.S.A. 66-1,170 and because the project was the most economical solution for the City of Kingman and KPP.

EMPIRE DISTRICT ELECTRIC COMPANY

<i>Docket number</i>	<i>18-EPDE-184-PRE</i>
<i>Docket type</i>	<i>Electric</i>
<i>Date filed</i>	<i>31 Oct 2018</i>
<i>Action date</i>	<i>03 May 2018</i>
<i>Commission action</i>	<i>Withdrawn</i>

In the Matter of the Petition of The Empire District Electric Company for Approval of Its Customer Savings Plan.

On October 31, 2017, the Empire District Electric Company (Empire) filed an Application for Approval of Its Consumer Savings Plan wherein Empire sought an opportunity to develop up to 800 MW of strategically located wind generation in or near Empire's service territory. Empire also wanted to retire the recently-retrofitted Asbury Coal Fired Generating Unit, but continue to earn a return on and a return of its original capital investment in the plant. Empire requested the Commission extend the 180-day statutory deadline in the case, requesting an order by June 15, 2018. On March 1, 2018, Staff and CURB filed testimony opposing Empire's request in its current form.

On April 25, 2018, Empire filed a request to withdraw the Application without prejudice, citing changes made to the Customer Savings Plan as a result of a settlement agreement between Empire and the Missouri Public Service Commission. Staff and CURB agreed to Empire's

request to withdraw the Application as long as procedures were agreed to involving the first rate case Empire files seeking recovery of ownership of Wind Assets in Kansas. These procedures would give CURB and Staff additional review time ahead of the starting of the 240-day statutory period afforded to review a rate case. The Commission approved the motion to withdraw on May 3, 2018.

The Commission acted upon the following dockets filed by Large Electric Utilities from July 1, 2017 to June 30, 2018. These filings involved companies with operating revenues of more than \$10,000,000.

EMPIRE DISTRICT ELECTRIC COMPANY

Natural Gas Utilities

Financials

The following are selected Gross Plant, Revenue, and Expense charts and tables including updated information beyond the close of the fiscal year, where available. Some charts depict information available only on a calendar-year basis.

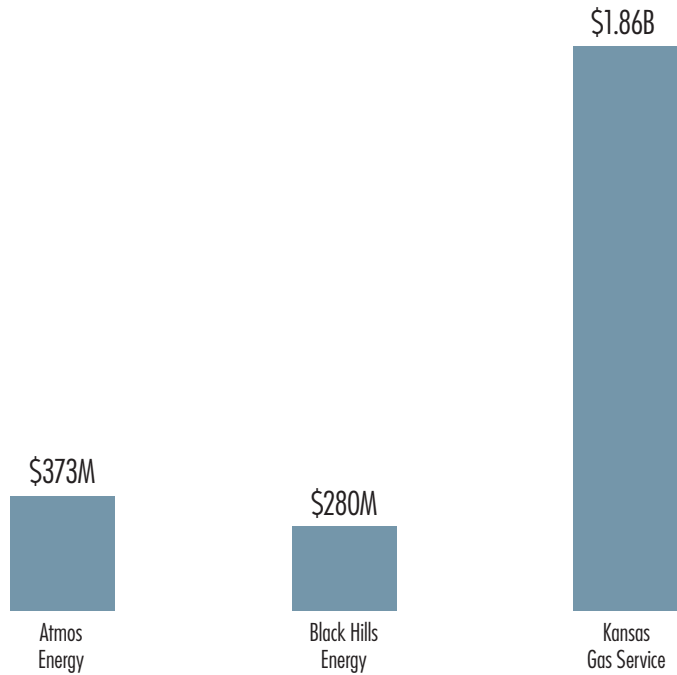

GAS COMPANIES STATEWIDE GROSS PLANT | 2013–2017

Gross Plant is the sum total value of utility assets and property as well as the fixed cost of the generation and provision of service on which the Utility's rate of return is applied in accordance with rules set by the KCC. This chart displays the aggregate total gross plant of all regulated public utilities in Kansas for the past five years.

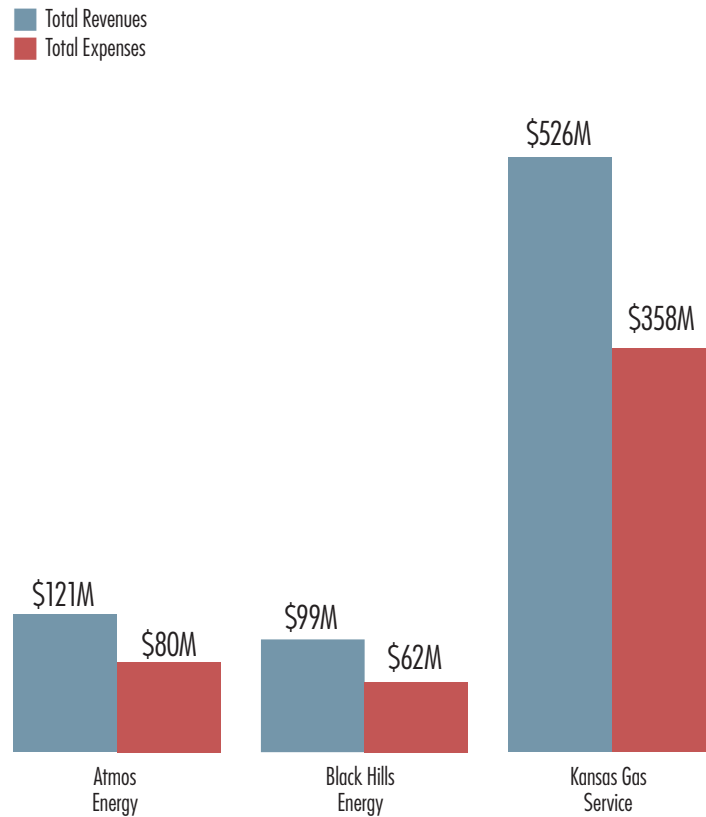

GAS COMPANIES GROSS PLANT, BY COMPANY | 2017

This chart takes the statewide aggregate gross plant figure from the preceding table and divides it among the major regulated utilities. As can be seen from the data, one entity encompasses a vast majority of utility gross plant across Kansas.

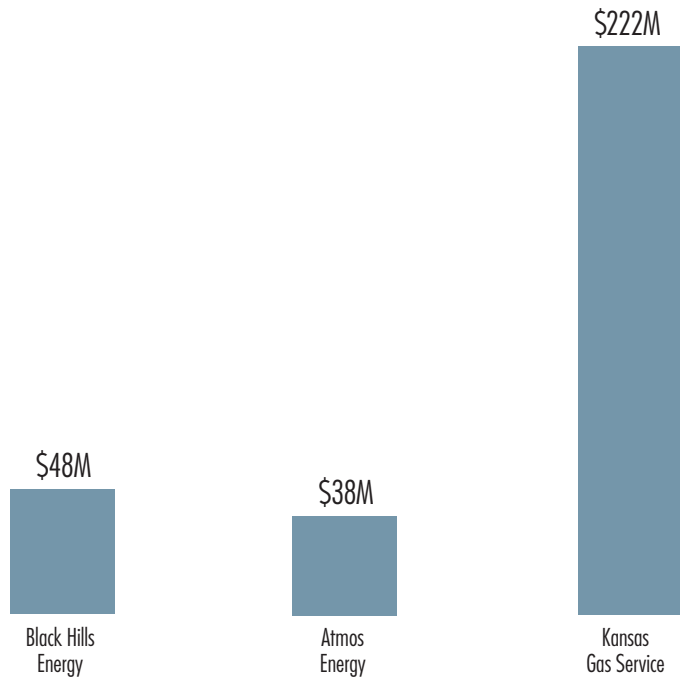

GAS COMPANIES REVENUES AND EXPENSES, BY COMPANY | 2017

This chart compares each utility's annualized revenues and expenses and the difference between the two represents the gross margin of each company.

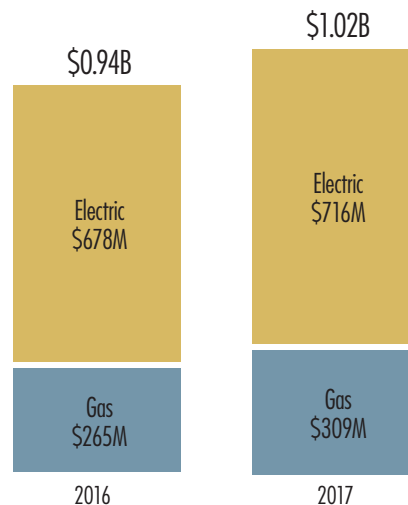

GAS COMPANIES PURCHASED GAS COSTS, BY COMPANY | 2017

This chart takes the expense portion from each utility on the previous table and carves out the cost of purchased gas.

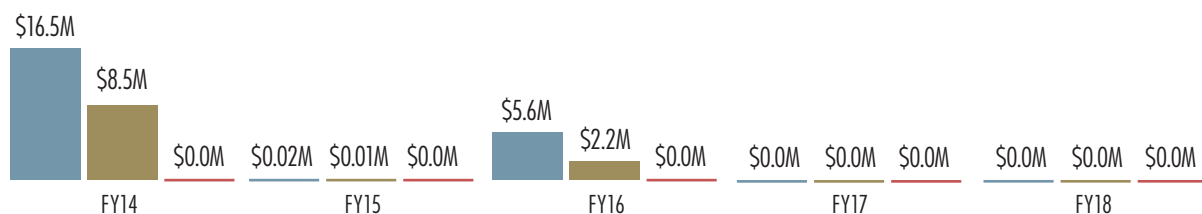

TOTAL PURCHASED GAS (GAS UTILITIES) AND TOTAL PURCHASED FUEL FOR GENERATION (ELECTRIC UTILITIES) | 2016 - 2017

This chart shows the total natural gas purchased for utility use for the last two years. Each column bar is broken down into blue and yellow portions. The blue represents gas purchased by the gas utilities for regulated delivery to their retail and wholesale customers. The yellow represents natural gas “fuel” purchased by electric utilities for natural gas-fired generation of electricity. Whereas the bulk of retail gas use (blue) is for winter heating, utility gas fuel use is predominantly during peak electric usage summer months where baseload nuclear and coal generation have already been dispatched and the remaining load must be served by gas-fired generation.

GAS UTILITIES WITH REVENUES OF OVER \$10M | RATE CASE RESULTS | FY14–FY18

■ Requested
■ Granted
■ Refunds and/or Rate Reductions

RESIDENTIAL GAS BILL COMPARISON | JULY 2017 - JUNE 2018

Large Gas Rate Cases

KANSAS GAS SERVICE, A DIVISION OF ONE GAS, INC.

Docket number 18-KGSG-560-RTS
Docket type Gas
Date filed 02 Jun 2018
Action date n/a
Commission action Pending

In the Matter of the Application of Kansas Gas Service, A Division of ONE Gas, Inc. for Adjustment of its Natural Gas Rates in the State of Kansas.

On June 29, 2018, Kansas Gas Service, a Division of ONE Gas, Inc. (KGS) filed an Application to make changes in its rates and charges for natural gas service. KGS requested an increase of \$42.7 million. The company cited the following factors as drivers of the rate increase: (1) significant capital expenditure investments since its last rate case; (2) increases in employee wages and benefits and other costs; (3) reduction in federal tax expenses; (4) a request to share the savings between customers and shareholders that have resulted from pension expenses having been prefunded by the Company; (5) a request to update its depreciation rates; (6) a request to establish a decoupling mechanism entitled the Revenue Normalization Adjustment; (7) a request to establish the Cyber Security Tracker to allow KGS to track and defer expenses for future recovery relating to cyber security; (8) a request to establish a Depreciation Expense Tracker to allow KGS to track and defer expenses for future recovery relating to depreciation expense; and (9) a request to implement a traditional two-part rate design with an increase in the monthly customer charge.

On October 29, 2018, the parties filed their direct testimony. In its direct testimony, Staff recommended an increase of \$16.9 million; and CURB recommended a decrease of \$4.7 million. Both parties opposed KGS's proposal to share pension expense savings and KGS's Depreciation Tracker. Staff supports KGS's Revenue Normalization Adjustment and Cyber Security Tracker proposals, but with specific modifications.

Kansas Farm Bureau, Kansas Corn Growers, and Woodriver also filed

testimony recommending changes to KGS's tariffs relating to transportation services but did not take a position on the revenue requirement.

A hearings was held on December 11, 2018 and an Order will be issued by February 25, 2019.

GENERAL INVESTIGATION - TAX REFORM

<i>Docket number</i>	<i>18-GIMX-248-GIV</i>
<i>Docket type</i>	<i>Multi</i>
<i>Date filed</i>	<i>14 Dec 2017</i>
<i>Action date</i>	<i>n/a</i>
<i>Commission action</i>	<i>Not Final</i>

In the Matter of a General Investigation Regarding the Effect of Federal Income Tax Reform on the Revenue Requirements of Kansas Public Utilities and Request to Issue an Accounting Authority Order Requiring Certain Regulated Public Utilities to Defer Effects of Tax Reform to a Deferred Revenue Account.

The Tax Cuts and Jobs Act (TCJA) is a Congressional bill that amends the Internal Revenue Code to reduce tax rates and modify policies, credits, and deductions for individuals and businesses. In anticipation of the TCJA being signed into law, on December 14, 2017, Staff filed a Motion to Open a General Investigation and Issue Accounting Authority Order Regarding Federal Tax Reform (Staff's Motion). On December 22, 2017, the TCJA was signed into law, which, amongst other changes, reduced the federal corporate income tax rate from 35% to 21% beginning on January 1, 2018. Also, on December 22, 2017, the Citizens' Utility Ratepayer Board (CURB) filed a Petition to Intervene and a Response in Support of Staff's Motion.

On January 18, 2018, the Commission issued its Order Opening General Investigation and Issuing Accounting Authority Order Regarding Federal Tax Reform. In doing so, the Commission directed all regulated public utilities that are taxable at the corporate level, to accrue monthly, in a deferred revenue account, the portion of its revenue representing the difference between: (1) the cost of service as approved by the Commission in its most recent rate case or Kansas Universal Service Fund (KUSF) determination proceeding; and (2) the cost of service that would have resulted had the provision for federal income taxes been based upon the corporate income tax rate approved in the TCJA. The Order also gave notice to taxable utilities operating in Kansas that the portion of their revenue reflecting

higher corporate tax rates should be considered interim and subject to refund, with interest, until an evaluation on a case-by-case basis is complete. Since the Order was granted, Staff has examined the financial impacts of the TCJA on each affected utility on a case-by-case basis. Additionally, Staff has held discussions with each utility individually to attempt to reach an agreement to quantify the financial impacts of the new lower tax rate on their Kansas-based operations and how the costs savings related to the lower tax rates should be passed on to their Kansas customers.

On January 31, 2018, Black Hills/Kansas Gas Utility Company, LLC, d/b/a Black Hills Energy (Black Hills) filed its entry of appearance in this docket. On February 21, 2018, Staff, CURB and Black Hills (collectively, the Parties) met to discuss and attempt to reach an agreement to quantify the financial impacts of the new lower tax rate on Black Hills' Kansas-based operations and how the cost savings should be passed on to its Kansas customers. As a result of the meeting and follow-up discussions, the Parties were able to reach an agreement. On March 7, 2018, the Parties filed a Joint Motion for Approval of Black Hills' Tax Reform Plan. The Settlement Agreement included a refund of \$1,719,619 in tax savings to Black Hills' customers; a refund of an additional \$154,331 in tax savings to customers relating to Black Hills' Gas Service Reliability Surcharge (GSRS) and a permanent \$0.08 reduction in the monthly GSRS to reflect the tax savings; and the establishment of a regulatory liability to account for and capture tax savings relating to excess accumulated deferred income tax (ADIT). On March 27, 2018, the Commission issued an Order Granting Joint Motion for Approval of Black Hills' Tax Reform Plan.

On January 31, 2018, Atmos Energy (Atmos) filed its entry of appearance in this docket. On February 8, 2018, Staff, CURB and Atmos (collectively, the Parties) met to discuss and attempt to reach an agreement to quantify the financial impacts of the new lower tax rate on Atmos'

Kansas-based operations and how the cost savings should be passed on to its Kansas customers. As a result of the meeting and follow-up discussions, the Parties were able to reach an agreement. On March 9, 2018, the Parties filed a Joint Motion for Approval of Atmos Energy's Tax Reform Plan. The Settlement Agreement included an annual cost of service savings to customers relating to the reduction in federal income tax expense included in Atmos' costs of service of \$3,002,308 (Cost of Service Credit) and the annual GSRS Credit of \$75,210. The Parties also agreed that Atmos would establish a regulatory liability to account for and capture tax savings relating to excess ADIT and that any issues regarding tax savings relating to excess ADIT and how those savings should be passed on to customers be deferred to Atmos' next general rate case filing. On March 27, 2018, the Commission issued an Order Granting Joint Motion for Approval of Atmos' Tax Reform Plan.

On January 31, 2018, Kansas Gas Service, A Division of ONE Gas, Inc. (KGS) filed its entry of appearance in this docket. On February 12, 2018, Staff, CURB and KGS (collectively, the Parties) met to discuss and attempt to reach an agreement to establish a procedure to be used in KGS's upcoming rate case filing to quantify the financial impacts of the new lower tax rate on KGS's operations and how the cost savings should be passed on to its customers. As a result of the meeting and follow-up discussions, the Parties were able to reach an agreement. On March 30, 2018, the Parties filed a Joint Motion for Approval of Settlement Agreement Regarding Kansas Gas Service. As part of the Settlement Agreement, KGS agreed to accrue monthly for the period beginning January 1, 2018, through the date the Commission issues a final order in its next general rate case, as a regulatory liability, the cost saving resulting from the TCJA, including the impact on the GSRS and interest. The Parties agreed that the total annual amount to be accrued as a regulatory liability exclusive of any interest shall be \$14,126,503, which consists of \$13,821,775 related to base rates and \$304,728 related to the GSRS. Additionally,

the Parties agreed that KGS would establish a regulatory liability to account for and capture tax savings relating to excess ADIT and that any issues regarding tax savings relating to excess ADIT and how those savings should be passed on to customers be deferred to KGS's next general rate case filing. Furthermore, KGS agreed to file a rate case no later than 150 days from the date of the Commission's order approving the Settlement Agreement, which will address the impact of the TCJA in base rates and its proposed plan to account for any portion of the amount being accrued as a regulatory liability. On May 15, 2018, the Commission issued an Order Granting Joint Motion for Approval of Settlement Agreement Regarding Kansas Gas Service.

The Commission acted upon the following dockets filed by Large Gas Utilities from July 1, 2017 to June 30, 2018. These filings involved companies with operating revenues of more than \$10,000,000.

ATMOS ENERGY CORPORATION

Docket number 18-ATMG-218-TAR
 Docket type Gas
 Date filed 21 Nov 2017
 Action date 27 Feb 2018
 Commission action Approved

In the Matter of the Application of Atmos Energy for Approval of the Commission for Gas System Reliability Surcharge per K.S.A. 66-2201 through 66-2204.

ATMOS ENERGY CORPORATION

ATMOS ENERGY CORPORATION

Docket number 18-KGSG-120-GIP
Docket type Pipeline Safety
Docket filed 08 Sep 2017
Action date 17 May 2018
Commission Action Closed

In the Matter of the General Investigation Into the Operations of Kansas Gas Service, a Division of ONE Gas, Inc., Regarding the Natural Gas Incident that Occurred at 4505 W. 91st Street in Prairie Village, Johnson County, Kansas.

On July 23, 2017, a fire involving natural gas occurred after a meter set was damaged by a falling tree branch during a thunderstorm. The fire resulted in \$451 property damage to the home. There were no injuries associated with this incident.

KANSAS GAS SERVICE, A DIVISION OF ONE GAS, INC.

Docket number 18-KGSG-126-GIP
Docket type Pipeline Safety
Docket filed 19 Sep 2017
Action date 14 Jun 2018
Commission Action Closed

In the Matter of the General Investigation into the Operations of Kansas Gas Service, A Division of ONE Gas, Inc., Regarding the Natural Gas Incident that Occurred at 4550 SE 29th Street in Topeka, Shawnee County, Kansas.

On September 1, 2017, during routine pipeline maintenance work, escaping gas caused a flash fire. The fire injured a contractor working for Kansas Gas Service. Staff worked with KGS to modify the relevant maintenance procedures in order to enhance the safety of the repair practice and prevent a recurrence of an incident under similar conditions.

GENERAL INVESTIGATION - TAX REFORM

<i>Docket number</i>	<i>18-GIMX-248-GIV</i>
<i>Docket type</i>	<i>Multi</i>
<i>Date filed</i>	<i>14 Dec 2017</i>
<i>Action date</i>	<i>n/a</i>
<i>Commission action</i>	<i>Not Final</i>

In the Matter of a General Investigation Regarding the Effect of Federal Income Tax Reform on the Revenue Requirements of Kansas Public Utilities and Request to Issue an Accounting Authority Order Requiring Certain Regulated Public Utilities to Defer Effects of Tax Reform to a Deferred Revenue Account.

The Tax Cuts and Jobs Act (TCJA) is a Congressional bill that amends the Internal Revenue Code to reduce tax rates and modify policies, credits, and deductions for individuals and businesses. In anticipation of the TCJA being signed into law, on December 14, 2017, Staff filed a Motion to Open a General Investigation and Issue Accounting Authority Order Regarding Federal Tax Reform (Staff's Motion). On December 22, 2017, the TCJA was signed into law, which, amongst other changes, reduced the federal corporate income tax rate from 35% to 21% beginning on January 1, 2018. Also, on December 22, 2017, the Citizens' Utility Ratepayer Board (CURB) filed a Petition to Intervene and a Response in Support of Staff's Motion.

On January 18, 2018, the Commission issued its Order Opening General Investigation and Issuing Accounting

Authority Order Regarding Federal Tax Reform. In doing so, the Commission directed all regulated public utilities that are taxable at the corporate level, to accrue monthly, in a deferred revenue account, the portion of its revenue representing the difference between: (1) the cost of service as approved by the Commission in its most recent rate case or Kansas Universal Service Fund (KUSF) determination proceeding; and (2) the cost of service that would have resulted had the provision for federal income taxes been based upon the corporate income tax rate approved in the TCJA. The Order also gave notice to taxable utilities operating in Kansas that the portion of their revenue reflecting higher corporate tax rates should be considered interim and subject to refund, with interest, until an evaluation on a case-by-case basis is complete. Since the Order was granted, Staff has examined the financial impacts of the TCJA on each affected utility on a case-by-case basis. Additionally, Staff has held discussions with each utility individually to attempt to reach an agreement to quantify the financial impacts of the new lower tax rate on their Kansas-based operations and how the costs savings related to the lower tax rates should be passed on to their Kansas customers.

On June 25, 2018, Staff filed a Motion to Dismiss Barton Hills. Barton Hills Water District's (Barton Hills) gross revenue for 2017 was \$24,866. Barton Hills' last rate case was in 1996 and Staff was unable to

locate the supporting cost of service data used to set those rate in 1996. Due to the immateriality of any tax savings that might exist for Barton Hills, Staff recommended their dismissal from this proceeding. On July 12, 2018, the Commission issued an Order Granting Staff's Motion to Dismiss Barton Hills.

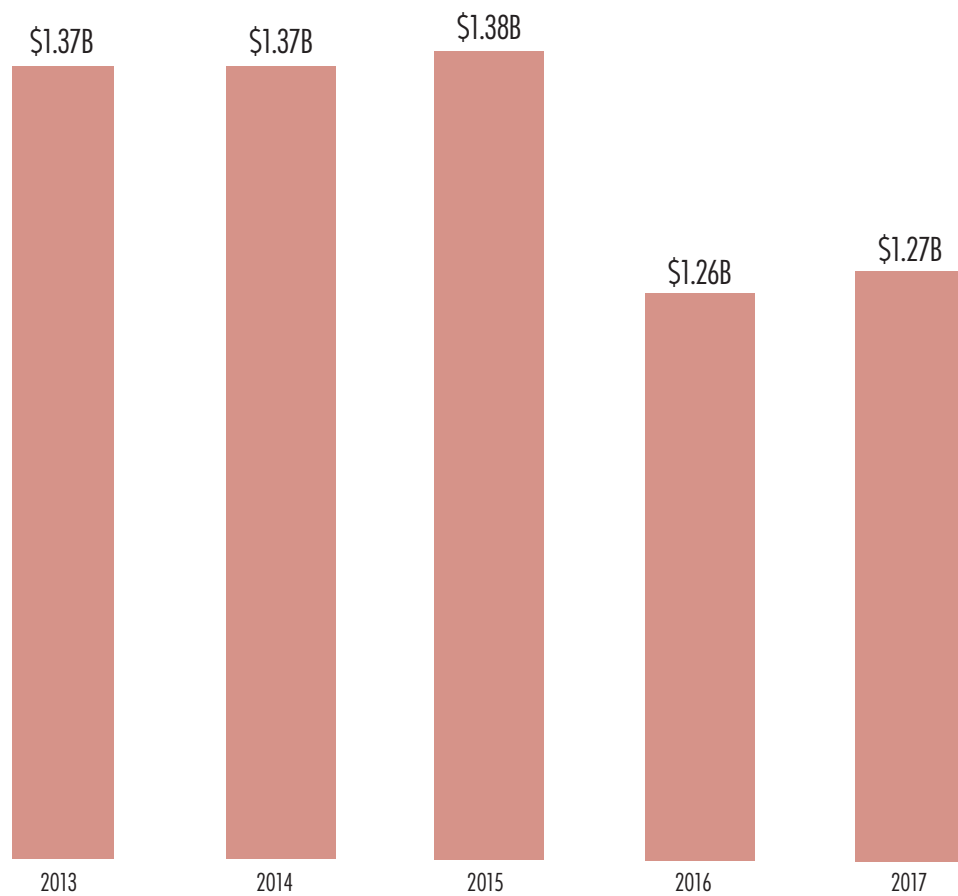

On June 19, 2018, Staff filed a Motion to Dismiss Suburban Water, Green Acres, Amarillo, TKO, and American Energies. Staff filed its motion because Suburban Water, Inc. (Suburban) has zero dollars embedded in its rates for federal income taxes; Green Acres Mobile Home Park, LLC's (Green Acres) rates do not include any allowances for federal income taxes; and neither Amarillo Natural Gas, Inc. (Amarillo) nor Texas-Kansas-Oklahoma Gas LLC's (TKO) rates include cost components for recovery of income taxes. Thus rendering this docket inapplicable to the utilities. Furthermore, with regards to American Energies Gas Service (American Energies), the TCJA would result in tax savings of \$590 annually, rendering those savings de minimis. On July 12, 2018, the Commission issued an Order Granting Staff's Motion to Dismiss Suburban Water, Green Acres, Amarillo, TKO, and American Energies.

This docket is still on-going as the Commission continues to evaluate the impact of the TCJA on the remaining public utilities.

TELECOMMUNICATION UTILITIES RECEIVING KUSF SUPPORT | FY14-FY18

NUMBER OF KUSF TELECOMMUNICATION FILINGS | FY14–FY18

KUSF FUNDING OBLIGATIONS | 3/1/18 - 2/28/19

Major Dockets | LARGE TELECOM UTILITIES

Pursuant to K.S.A. 66-117b, the following is a review with narrative of all dockets for Large Telecom Utilities (those with \$10,000,000 or more annual revenue in the preceding calendar year) which caused changes to “rule or regulation or practice pertaining to the service or rates of a public utility or common carrier approved by the state corporation commission during the preceding fiscal year.”

GENERAL INVESTIGATION - TAX REFORM

<i>Docket number</i>	<i>18-GIMX-248-GIV</i>
<i>Docket type</i>	<i>Multi</i>
<i>Date filed</i>	<i>14 Dec 2017</i>
<i>Action date</i>	<i>n/a</i>
<i>Commission action</i>	<i>Not Final</i>

In the Matter of a General Investigation Regarding the Effect of Federal Income Tax Reform on the Revenue Requirements of Kansas Public Utilities and Request to Issue an Accounting Authority Order Requiring Certain Regulated Public Utilities to Defer Effects of Tax Reform to a Deferred Revenue Account.

The Tax Cuts and Jobs Act (TCJA) is a Congressional bill that amends the Internal Revenue Code to reduce tax rates and modify policies, credits, and deductions for individuals and businesses. In anticipation of the TCJA being signed into law, on December 14, 2017, Staff filed a Motion to Open a General Investigation and Issue Accounting Authority Order Regarding Federal Tax Reform (Staff’s Motion). On December 22, 2017, the TCJA was signed into law, which, amongst other changes, reduced the federal corporate income tax rate from 35% to 21% beginning on January 1, 2018. Also, on December 22, 2017, the Citizens’ Utility Ratepayer Board (CURB) filed a Petition to Intervene and a Response in Support of Staff’s Motion.

On January 18, 2018, the Commission issued its Order Opening General Investigation and Issuing Accounting Authority Order Regarding Federal Tax Reform. In doing so, the Commission directed all regulated public utilities that are taxable at the corporate level, to accrue monthly, in a deferred revenue account, the portion of its revenue representing the difference between: (1) the cost of service as approved by the Commission in its most recent rate case or Kansas Universal Service Fund (KUSF) determination proceeding; and (2) the cost of service

that would have resulted had the provision for federal income taxes been based upon the corporate income tax rate approved in the TCJA. The Order also gave notice to taxable utilities operating in Kansas that the portion of their revenue reflecting higher corporate tax rates should be considered interim and subject to refund, with interest, until an evaluation on a case-by-case basis is complete. Since the Order was granted, Staff has examined the financial impacts of the TCJA on each affected utility on a case-by-case basis. Additionally, Staff has held discussions with each utility individually to attempt to reach an agreement to quantify the financial impacts of the new lower tax rate on their Kansas-based operations and how the costs savings related to the lower tax rates should be passed on to their Kansas customers.

On May 3, 2018, Staff, CURB, Zenda Telephone Co., Inc. (Zenda) and Elkhart Telephone Company, Inc. (Elkhart) (collectively, Joint Movants) filed a Joint Motion to Dismiss Elkhart and Zenda Due to Immateriality of Tax Savings. After conducting its analysis, Staff concluded that the annual tax savings would total \$159 and \$737 for Elkhart and Zenda, respectively. Based upon this information, Staff concluded that it would be administratively inefficient to continue to pursue Elkhart and Zenda. On May 15, 2018, the Commission issued an Order Granting Joint Motion to Dismiss Elkhart and Zenda.

On August 9, 2018, Staff, CURB and Wamego Telecommunications Company, Inc. (WTC) (collectively, the Parties) held a teleconference to discuss issues present in this case in an attempt to reach an agreement on the quantification of the financial impacts of the new lower tax rate on Wamego’s operations and how the cost savings should be passed on to the contributors of the KUSF. As a result of the

call and several follow-up discussions, the Parties reached an agreement. On October 29, 2018, the Parties filed a Joint Motion for Approval of Settlement Agreement Regarding Wamego Telecommunications Company, Inc. As part of the Settlement Agreement, WTC agreed to refund \$69,852 in accrued tax savings since January 1, 2018, to the KUSF through a one-time reduction in KUSF support for October 2018, with the reduction occurring in WTC’s support received in November 2018. Additionally, to reflect the ongoing reduction in federal taxes embedded in its KUSF support going forward, WTC’s annual KUSF support will be reduced by \$139,712 annually, effective with the KUSF support for November 2018, received in December 2018. Furthermore, the Parties agreed that WTC would establish a regulatory liability to account for and capture tax savings relating to excess ADIT and any issues regarding tax savings relating to excess ADIT be deferred to WTC’s next KUSF determination proceeding. At this time, approval of the Settlement Agreement has not yet been granted.

On May 7, 2018, Staff, CURB and J.B.N. Telephone Company, Inc. (JBN) (collectively, the Parties) held a teleconference to discuss the issues present in this case in an attempt to reach an agreement on the quantification of the financial impacts of the new lower tax rate on JBN’s operations and how the cost savings should be passed on to the contributors of the KUSF. As a result of the call and follow-up discussions, an agreement was reached. On October 30, 2018, the Parties filed a Joint Motion for Approval of Settlement Agreement Regarding J.B.N. Telephone Company, Inc. As part of the Settlement Agreement, JBN agreed to refund \$14,137 in accrued tax savings since January 1, 2018, to the KUSF through a one-time reduction in

KUSF support for October 2018, with the reduction occurring in JBN's support received on or before December 1, 2018. Additionally, to reflect the reduction in federal taxes embedded in its KUSF support going forward, JBN's annual KUSF support will be reduced by \$28,275 annually beginning with the KUSF support received for November 2018, paid on or before January 1, 2019. Furthermore, the Parties agreed that JBN would establish a regulatory liability to account for and capture tax savings relating to excess ADIT and any issues regarding tax savings relating to excess ADIT be deferred to JBN's next KUSF determination proceeding. At this time, approval of the Settlement Agreement has not yet been granted.

RAINBOW TELECOMMUNICATIONS ASSOCIATION, INC.

Docket number 17-RNBT-555-KSF
Docket type Telecom
Date filed 19 Jun 2017
Action date 04 Jan 2018
Commission action Approved

In the Matter of the Application of Rainbow Telecommunications Association, Inc., for an Increase in its Cost-Based Kansas Universal Service Fund Support.

On June 19, 2017, Rainbow Telecommunications Association, Inc. (RTA) filed an Application for increased Kansas Universal Service Fund (KUSF) support based on RTA's embedded costs, revenue requirements, investments and expenses. RTA requested an increase of \$1,387,985 in its annual, cost-based KUSF support.

On October 26, 2017, Staff filed direct testimony. In its direct testimony, Staff recommended an increase of \$618,864 in RTA's annual cost-based KUSF support. On November 8, 2017, Staff filed errata testimony revising the recommended support to an increase of \$685,093. On November 9, 2017, Staff and RTA filed a Joint Motion to approve Staff's position regarding Rainbow's annual cost-based KUSF support.

On December 22, 2017, RTA filed a motion to approve the Joint Motion filed on November 9, 2017, to be effective with the January 2018 KUSF data month, with such data to be reported in the February 2018 reporting month, and ultimately paid in the

March 2018 support month. On January 3, 2018, Staff filed a response in opposition to RTA's motion because it reneges on the agreement reached in the Joint Motion which specifically requested the increase to begin with the "first data month after a Commission order."

On January 4, 2018, the Commission issued an Order approving the Joint Motion to approve Staff's Position regarding Rainbow's annual cost-based KUSF Support and granting RTA's request to have the agreed-upon increase be effective with the January 1, 2018 data month.

TAG MOBILE, LLC

Docket number 16-TAGC-323-SHO
Docket type Telecom
Date filed 14 Jan 2016
Action date 19 Oct 2017
Commission action Order Issued

In the Matter of a General Investigation of TAG Mobile, LLC to Show Cause Why This Commission Should Not Initiate Sanctions and Fines and Cancel, Suspend and Revoke Any Authority the Carrier Currently Holds.

This proceeding was opened on January 14, 2016, requiring TAG Mobile, LLC (TAG) to show cause why it should not be subject to sanctions and fines and its federal and state eligible telecommunications carrier (ETC) designations for Lifeline (low-income) support should not be canceled, suspended and/or revoked. On June 23, 2017, Staff filed direct testimony and TAG filed rebuttal testimony on July 31, 2017. On August 25, 2017, the Parties filed a Joint Motion to Waive Evidentiary Hearing and Proceed Upon Paper Record. On October 19, 2017, the Commission issued an Order in which it: (1) revoked TAG's federal and state ETC designations for Lifeline support; (2) required TAG to refund \$942,298.98 in Kansas Lifeline support by January 17, 2018; (3), determined TAG is not eligible to receive any of the accrued Kansas Lifeline Service Program credits; and (4) ordered TAG to remit payment of a \$118,000 fine for its failure to meet its Kansas Lifeline Service Program obligations.

VIRGIN MOBILE USA, LP

Docket number 17-VMBZ-023-KSF
Docket type Telecom
Date filed 02 Aug 2016
Action date 11 Jul 2017
Commission action Order Issued

In the Matter of the Audit of Virgin Mobile USA, L.P. by the Kansas Universal Service Fund (KUSF) Administrator Pursuant to K.S.A 2015 Supp. 66-2010(b) for KUSF Operating Year 19, Fiscal Year March 2015-February 2016.

This proceeding was opened on August 2, 2016, for the KUSF Administrator, GVNW Consulting, Inc. (GVNW) to conduct an audit of Virgin Mobile USA, L.P. (Virgin Mobile). GVNW filed its Audit Report on June 1, 2017, finding that Virgin Mobile failed to report all of its Lifeline subscriber-related revenues to the KUSF and owes an estimated \$227,000 to the KUSF for January 2012 through February 2017. On July 11, 2017, the Commission issued an Order accepting and adopting GVNW's Audit Report and recommendations included therein. Following denial of its Petition for Reconsideration, Virgin Mobile filed a Complaint for Declaratory and Injunctive Relief in U.S. District Court for the District of Kansas on September 18, 2017. The trial is scheduled for October 1, 2019.

SOUTHWESTERN BELL TELEPHONE CO.

Docket number 17-SWBT-158-MIS
Docket type Telecom
Date filed 27 Oct 2016
Action date n/a
Commission action Pending

In the Matter of the Application of Southwestern Bell Telephone Company d/b/a AT&T Kansas for an Order Confirming Relinquishment of its Eligible Telecommunications Carrier Designation in Specified Areas, and Notice Pursuant to K.S.A. 2015 Supp. 66-2006(d) of Intent to Cease Participation in the Kansas Lifeline Service Program.

On October 27, 2016, Southwestern Bell Telephone Company d/b/a AT&T Kansas (AT&T) filed an Application requesting relinquishment of its ETC designation in all currently designated areas except for the census blocks identified in Exhibit B to its Application. On April 27, 2017, the KCC issued an Order confirming that AT&T is authorized to cease participation in the Kansas Lifeline Service Program,

effective May 31, 2017, and requiring Staff to file a recommendation pertaining to AT&T's ETC relinquishment request by May 10, 2017. On May 4, 2017, Staff filed a Report and Recommendation pertaining to AT&T's ETC relinquishment. The Commission requested additional briefing from the parties on July 11, 2017. On July 19, 2017, AT&T requested the Commission to stay its Application until it revised its Exhibits and/or notified the Commission of its desire to lift the stay and continue the proceeding. AT&T made the request for a stay so that it could finalize its list of census blocks requested in its Exhibits. The Commission issued an Order on July 27, 2017, staying the proceeding until AT&T notified the Commission of its desire to lift the stay and continue the proceeding. AT&T filed its Motion for Order Lifting Stay of Proceeding on April 30, 2018. AT&T stated that it had completed its review and amended its Exhibit B and Second Amended Exhibit C, which reflect the results of AT&T's further analysis. The Commission issued an Order on May 17, 2018, lifting the stay on the proceeding. Following a status conference on June 13, 2018, the Commission issued an Order on June 28, 2018, in which it, among other things, allowed the parties to update their briefs on the Commission's questions and required Staff to file its Report and Recommendations regarding the Application, as revised, by October 1, 2018. Staff filed its Report and Recommendation on October 1, 2018.

GENERAL INVESTIGATION

Docket number 18-GIMT-084-GIT
Docket type Telecom
Date filed 31 Aug 2017
Action date 18 Jan 2018
Commission action Order Issued

In the Matter of An Investigation to Determine the Assessment Rate for the Twenty-Second Year of the Kansas Universal Service Fund, Effective March 1, 2018.

The KCC opened this proceeding to determine the appropriate assessment rate for the twenty-second year of the KUSF. The KCC issued an Order on January 18, 2018, in which it adopted a KUSF assessment rate for March 1, 2018, through February 28, 2019, of 7.5 percent.

GENERAL INVESTIGATION

Docket number 18-GIMT-394-GIT
Docket type Telecom
Date filed 05 Apr 2018
Action date 20 Sep 2018
Commission action Order Issued

In the Matter of Certification of Compliance with Section 254(e) of the Federal Telecommunications Act of 1996 and Certification of Appropriate Use of Kansas Universal Service Fund Support.

The Commission opened this proceeding on March 28, 2017, for purposes of collecting data from eligible telecommunications carriers (ETCs) in Kansas. The data was to be filed by July 2, 2018. The data is used to determine whether the KCC will certify to the FCC and the Universal Service Administrative Company (USAC) that ETCs are using federal universal service funds only for the provision, maintenance and upgrading of facilities and services for which the support is intended. The data is also used to determine whether ETCs in Kansas utilized their KUSF monies appropriately. The KCC issued an Order on September 20, 2018, in which it determined that KCC staff shall submit letters to the FCC and USAC to certify that the carriers listed have certified that their federal universal service fund support used in 2017 and will be used in 2019 only for the provision, maintenance, and upgrading of facilities and services for which support was intended. Letters, dated September 24, 2018, were submitted to the FCC and USAC.

RAINBOW TELECOMMUNICATIONS ASSOCIATION, INC.

Docket number 17-RNBT-555-KSF
Docket type Telecom
Date filed 19 Jun 2017
Action date 04 Jan 2018
Commission action Order Issued

In the Matter of the Application of Rainbow Telecommunications Association, Inc. for an Increase in its Cost-Based Kansas Universal Service Fund Support.

Rainbow filed an Application requesting an increase of \$1,387,985 in its high-cost KUSF support on June 19, 2017. Commission Staff filed Direct Testimony on October 26, 2017, recommending an intrastate revenue increase of \$618,864. Staff also recommended that all audit expense included in this figure be

removed after five years, consistent with the amortization period. Finally, Staff recommended Rainbow perform the following actions: (1) revise and update the existing Management and Operational Service Arrangement between Rainbow and Carson Communications, LLC to reflect the current affiliate name; (2) enter into a formal agreement between Rainbow and its affiliate addressing the provision and reimbursement of services provided to Rainbow, including labor, office space, furniture, equipment, and other support services; (3) enter into a formal agreement for goods and/or services provided between Rainbow and Harvest Video, LLC; and (4) conduct current, annual reviews of the Board of Directors minutes to update and document the time spent by the Board on regulated and non-regulated operations. On November 8, 2017, Staff revised its recommended level of annual cost-based KUSF support through errata testimony, to an increase of \$685,093 for a total KUSF draw of \$820,635. On November 9, 2017, Staff and Rainbow filed a Joint Motion to Approve Staff's Position Regarding Rainbow's Annual Cost-Based KUSF Support. A Commission Order was issued on January 4, 2018, adopting Staff's recommendations.

GENERAL INVESTIGATION

Docket number 18-GIMT-448-GIT
Docket type Telecom
Date filed 26 Apr 2018
Action date 19 Jun 2018
Commission action Order Issued

In the Matter of a General Investigation Into the Adjustment of Intrastate Switched Access and Reciprocal Compensation Charges Pursuant to the Federal Communications Commission's Reforms, Effective July 3, 2018.

This proceeding was opened on April 26, 2018, to implement the adjustment of price cap, competitive Local Exchange Carrier (LEC), and rural LEC intrastate access rate modifications, effective July 2018. The Commission issued an Order on June 19, 2018, adopting the Commission Staff's recommendations.

GENERAL INVESTIGATION

Docket number 18-ATKT-058-GIT
Docket type Telecom
Date filed 24 Aug 2017
Action date 24 Aug 2017
Commission action Order Issued

In the Matter of an Application of Assistive Technology for Kansans for Approval to Distribute Tablets as Part of the TAP Program and Increase the Maximum Amount of Funding Available for Electronic Devices Allowed as Part of the TAP Program.

This docket was opened to address the request of Assistive Technology for Kansans (ATK), the Telecommunications Access Program (TAP) administrator, for enhancements to the current TAP Program for Kansas. ATK requested the addition of tablet technology to the current approved offerings in the TAP Program and an increase in the current funding level supported for tablets and cellular phones from \$350 to \$450 per user every four years. The Commission issued an Order on August 24, 2017, approving ATK's request for specific enhancements to the TAP.

GENERAL INVESTIGATION

Docket number 18-UTDT-356-GIT
Docket type Telecom
Date filed 27 Feb 2018
Action date 26 Jun 2018
Commission action Order Issued

In the Matter of a General Investigation to Review the Kansas Universal Service Fund Cap for the United Telephone Companies of Kansas d/b/a CenturyLink Pursuant to K.S.A. 66-2008(d)(2).

The Commission opened this proceeding to review the capped amount of annual KUSF support for price-cap carriers per K.S.A. 66-2008(d)(2), and seek industry comments and reply comments on how to interpret and/or implement the statutory requirement. Following initial and reply comments and a Staff Report and Recommendation outlining the issues and positions, the Commission issued an Order on June 26, 2018, in which it determined it would refrain from taking any action with respect to the cap on KUSF support for price cap carriers at this time.

The Commission acted upon the following dockets filed by Large Telecommunications Utilities from July 1, 2017 to June 30, 2018. These filings involved companies with operating revenues of more than \$10,000,000.

FAIRPOINT COMMUNICATIONS MISSOURI, INC.

Docket number 18-FCMT-476-TAR
 Docket type Telecom
 Date filed 27 Apr 2018
 Action date 17 May 2018
 Commission action Granted

In the Matter of FairPoint Communications Missouri, Inc. Filing for Tariff Revisions to Introduce New Term for EPAK II Bundle.

FAIRPOINT COMMUNICATIONS MISSOURI, INC.

Docket number 18-FCMT-526-TAR
 Docket type Telecom
 Date filed 30 May 2018
 Action date 30 May 2018
 Commission action Accepted

In the Matter of the Fairpoint Communications Missouri, Inc. Filing Tariff Revisions to Purchasing Service Bundled Service Packages.

MAGNA5 LLC

Docket number 18-XOCT-271-COC
 Docket type Telecom
 Date filed 21 Dec 2017
 Action date 06 Feb 2018
 Commission action Pending

In the Matter of the Application of Magna5 LLC for a Certificate of Convenience and Authority to Provide Resold Local Exchange Within State of Kansas.

PROTOCOL LLC

Docket number 18-PRCO-178-CCS
 Docket type Telecom
 Date filed 23 Dec 2017
 Action date 28 Nov 2017
 Commission action Granted

In the Matter of Cancellation of All Operating Certificate of Convenience and Authority Previously Granted Protocol LLC.

S&T TELEPHONE COOPERATIVE ASSOCIATION, INC.

Docket number 18-S&TT-119-TAR
 Docket type Telecom
 Date filed 06 Sep 2017
 Action date 21 Sep 2017
 Commission action Approved

In the Matter of S&T Telephone Cooperative Association's Filing Tariffs to Change Rates for its Service Connection Charge Changes.

S&T TELEPHONE COOPERATIVE ASSOCIATION, INC.

Docket number 18-S&TT-471-TAR
 Docket type Telecom
 Date filed 25 Apr 2018
 Action date 10 May 2018
 Commission action Approved

In the Matter of S&T Telephone Cooperative Association Filing Tariff Revisions to Remove Ethernet Transport Service and Hosted PBX Service.

PIX WIRELESS, LLC

Docket number 18-PIXZ-505-FIN
 Docket type Telecom
 Date filed 17 May 2018
 Action date 17 May 2018
 Commission action Fined

In the Matter of a General Investigation for Pix Wireless, LLC to Show Cause Why this Commission Should Not Initiate Sanctions and Fines and/or Refer the Company to the Attorney General's Office for Non-Compliance with Commission Orders and Kansas Statutes.

TRI-COUNTY TELEPHONE ASSOCIATION, INC.

Docket number 18-TCTC-038-KSF
 Docket type Telecom
 Date filed 01 Aug 2017
 Action date 10 May 2018
 Commission action Accepted

In the Matter of the Audit of The Tri-County Telephone Association, Inc. by the Kansas Universal Service Fund (KUSF) Administrator Pursuant to K.S.A.2016 Supp. 66-2010(b) for KUSF Operating Year 20, Fiscal Year March 2016 - February 2017.

TRI-COUNTY TELEPHONE ASSOCIATION, INC.

Docket number 18-TRCT-037-KSF
 Docket type Telecom
 Date filed 01 Aug 2017
 Action date 10 May 2018
 Commission action Pending

In the Matter of the Audit of The Tri-County Telephone Association, Inc. by the Kansas Universal Service Fund (KUSF) Administrator Pursuant to K.S.A.2016 Supp. 66-2010(b) for KUSF Operating Year 20, Fiscal Year March 2016 - February 2017.

 Commission action Approved

In the Matter of Staff's Petition to Open a General Investigation to Write-Off the Delinquent Balance on TeleDias Communications, Inc.'s Universal Service Fund (KUSF) Account, KS 005673.

Transportation

The role of the Transportation Division of the Kansas Corporation Commission (KCC) is to ensure appropriate and effective regulatory oversight of motor carriers, with the goal of protecting the public interest and promoting safety through comprehensive planning, licensing, education, and inspection to the extent not preempted by federal law.

Motor Carriers

The chief responsibility of the Transportation Division is to develop, modify and implement licensing, auditing, inspection and other administrative procedures that promote safe and efficient motor carrier operations, while balancing public interest and minimizing administrative burdens to the extent possible. Likewise, state law requires the KCC to verify that each new motor carrier is in compliance with the Commission's safety rules and regulations within 18 months of granting the motor carrier Commission operating authority. To advance the Division's established mission, Transportation Staff conducts both comprehensive and focused off-site investigations and audits on new and existing motor carriers, taking appropriate action upon discovering unsafe conditions. The Transportation Division also works closely with the Kansas Highway Patrol (KHP) and the Federal Motor Carrier Safety Administration (FMCSA) to reduce accidents involving motor carriers through promotion of safety education to the motor carrier industry and oversight of State and Federal regulations.

Regarding safety education, the KCC sends e-mails and invitations to each Kansas-based motor carrier that applies for and receives a new USDOT number. The invitations are mailed throughout the month and are designed to encourage the new entrant motor carriers to register their company in the Kansas Trucking Regulatory Assistance Network (KTRAN) and to attend the free Commission-sponsored Safety Seminars focused on the state and federal motor carrier rules and regulations. KCC Special Investigators (SIs) conduct the educational safety seminars throughout Kansas six times per month. Currently, motor carriers may attend one of these seminars in Bonner Springs, Topeka, Chanute, Hutchinson, Hays or Garden City. These seminars are designed to inform and educate new, existing, and out-of-compliance motor carriers of the Commission's rules and regulations. Additionally, the Transportation Staff conducts educational safety seminars for the graduating classes at the truck driving technical schools in Liberal and Topeka.

Since the inception of the federal Comprehensive Safety Analysis (CSA) program, the FMCSA has responded to

concerns from industry and enforcement by updating the program in an effort to improve their motor carrier safety compliance program. The goal of the CSA program has been to intervene early enough in a motor carrier's operation to permit the identification of problem areas and an opportunity for the motor carrier to correct the concerns before an accident occurs. The Federal New Entrant program requires all motor carriers seeking a federal interstate USDOT number to pass a safety audit within 12 months of beginning operations.

The CSA program focuses on 16 regulations that are considered essential to a motor carrier's basic safety plan and therefore necessary to operate in interstate commerce. The CSA audit uses on-road safety performance data to measure a carrier's safety fitness. The data is classified into seven specific categories of carrier/driver behavior to include: unsafe driving; fatigued driving (Hours of Service violations); driver fitness concerns; controlled substances/alcohol programs; vehicle maintenance concerns; cargo-related safety concerns; and the carrier's crash indicator. A motor carrier's failure to comply with any one of the 16 regulations results in

an automatic failure of the safety audit. A motor carrier who fails a new entrant safety audit is provided formal notice of the failure and 60 days to correct the problems identified. Only those carriers who fail to correct the problems or who fail to request either additional time or a formal review are subject to revocation of the carrier’s interstate operating authority. On the other hand, a carrier who passes the review is moved to the bottom of the review list until such time as the carrier’s safety indicators decline and require official intervention.

Regarding motor carrier safety, the KCC, the Kansas Department of Revenue (KDOR) and the Kansas Highway Patrol (KHP) implemented a system aimed at halting the intrastate motor carrier operation of those interstate carriers who have failed to meet the minimum safety requirements of a New Entrant Safety Audit. The KCC Staff will formally recommend that the Commission suspend a carrier listed on a federal out-of-service order. The Director of Vehicles will issue a “tag pick-up” request to the Kansas Highway Patrol.

The KCC, KHP, KDOR and FMCSA share responsibilities in the oversight

of both the state and federal motor carrier safety and economic rules and regulations. This partnership has proven to be extremely efficient and effective in contacting more carriers and drivers and in identifying high risk carriers and drivers. As a result, it is possible for the FMCSA and state oversight agencies to apply a wider range of interventions aimed at correcting high risk behavior.

These efforts have been rewarded with a measurable reduction in the number of carriers operating in an unsafe manner as well as an improved rate of compliance among Kansas carriers when compared to states in the surrounding region. The following charts, compiled from data provided by the FMCSA, demonstrate a couple of the metrics we use to measure the effectiveness of our safety education classes and enforcement mechanisms.

The chart below illustrates the number of “unsatisfactory carriers” found in the past federal fiscal year (FFY). Unsatisfactory carriers are those who have been found to have committed violations of applicable regulations after a compliance review, have a proposed unsatisfactory or have been rated unsatisfactory by the FMCSA. The

results for the ten states in the Midwest region demonstrate Kansas has the 2nd lowest percentage of compliance reviews with an “unsatisfactory” outcome over the past FFY year.

The charts on the following page provide a FMCSA Motor Carrier Management Information System (MCMIS) data snapshot of the number of Kansas domiciled carriers involved in crashes across the country. Crashes involving Kansas domiciled carriers – those that are required to take the safety education program we provide – represent a much smaller percentage of the total crashes than the nationwide trend. Since 2011, Kansas domiciled motor carriers have shown a steady decrease in the number of accidents nationwide. These numbers provide a testimony to the success of the KCC’s safety programs that reach both interstate and intrastate carriers.

UNSATISFACTORY CARRIERS FOR FFY YEAR 2017 IN THE MIDWEST REGION			
STATE	REVIEWS	PROPOSED UNSATISFACTORY	UNSATISFACTORY RATING

Commercial Driver's License (CDL) Reciprocity Agreements

Kansas currently has active agreements with our counterparts in Missouri, Nebraska and Oklahoma. Kansas has entered into Reciprocity Agreements which permit Kansas farmers to operate

their commercial driver's license (CDL) class commercial motor vehicles (CMV) in interstate commerce within 150 miles of the farmers place of operation without the necessity of obtaining a CDL under certain conditions. A farmer may benefit under this exemption when the farmer operating a vehicle holds a valid driver's license in the farmer's home state and

the vehicle is properly operated as a farm vehicle under the laws of the state. The vehicle must be registered as a farm vehicle and be controlled and operated by a farmer for the exclusive purpose of transporting agricultural products, farm machinery, and/or farm supplies to or from the farmer's farm. The federal statutory provisions in the Moving Ahead

for Progress in the Twenty-First Century (MAP-21) legislation were self-executing and took effect on October 1, 2012. This exemption eliminates the need for our CDL Reciprocity agreements for the purpose of safety regulations; however, farm vehicle drivers still need the agreements for the Hazardous Materials exemptions. We continue to work on a similar agreement with representatives from Colorado.

Due to MAP-21, our CDL Reciprocity Agreements are more important than ever. Currently, if farmers transport Hazardous Materials in interstate commerce they are not allowed to use the MAP-21 exemptions. Our agreements allow a farm vehicle driver to operate up to a 150 air-mile radius from the farm in interstate commerce without requiring a CDL and without registering in a Substance and Alcohol Testing program.

Civil Assessment Program

In 2006, the KCC and KHP partnered to enhance the Kansas Safety Compliance Program with the goal of reducing the number of injury/fatality accidents involving Commercial Motor Vehicles. The Civil Assessment Program was designed and implemented for the purpose of distinguishing the responsibilities of drivers from those of the motor carriers under the Federal Motor Carrier Safety Regulations' (FMCSRs) "Out-Of-Service" violations. Out-of-Service (OOS) violations are violations designated as serious by the Commercial Vehicle Safety Alliance (CVSA), and require that a driver or vehicle be removed from service until the violations are corrected. CVSA is a non-profit organization consisting of federal and state regulatory agencies, motor carrier industry, and representatives dedicated to improving motor carrier safety.

STRATEGIES

The program focuses on the safety of the driver, equipment and the traveling public. The KCC and KHP work together on enforcement and education

regarding OOS violations of the FMCSRs discovered during roadside inspections. The KCC will only issue one civil penalty for each OOS violation category. For example, if the truck-tractor of a combination vehicle is placed OOS for brakes and the trailer is also placed OOS for brakes, the company will be documented for both OOS violations, but only fined for one. The KHP and KCC will allow the civil assessment to be waived for OOS violations that are outside the obvious normal method of company operations. The KHP Trooper or local enforcement officer will have the ability to provide information to recommend that no civil assessment be issued. If the carrier has demonstrated, at the roadside inspection, that the violation was 1) potentially unavoidable; 2) the carrier has processes in place to prevent the violation; and 3) the carrier clearly has the means to correct the violation, the Trooper/Officer may recommend no civil assessment be issued. In all cases, the field decision may be superseded after the inspection is reviewed.

OBJECTIVE

The effectiveness of the roadside inspection program is based on information provided by the FMCSA Analysis and Information (A&I) database. The data is based on roadside inspections from both Kansas and foreign based motor carriers. The State of Kansas experienced a 24% decrease in roadside inspections between the Federal fiscal year (FFY) 2013 and FFY 2017 (the most recent information as of 10/10/17*). While the number of inspections decreased, the OOS rate for drivers increased from a 4.92% in 2013 to 5.35% in 2017. The vehicle OOS rate experienced a slight increase from 13.71% in 2013, to 14.72% in 2017. Our continued education efforts for Kansas based motor carriers are designed to help maintain downward OOS trends, or actively correct short term OOS rate increases for our Kansas based motor carriers. These roadside inspection statistics reflect all roadside inspection

activity in Kansas which include a large segment of foreign based motor carriers. (*The FFY ended 9/30/2017)

Nationally, A&I information indicates Kansas continues to have a slightly higher driver OOS rate of 5.35% compared to the National driver OOS rate of 5.12%. For the vehicle OOS, Kansas continues to have significantly lower vehicle OOS rate of 14.27% compared to the National vehicle OOS rate of 20.59%. In hazardous materials (HM) OOS, Kansas has a slightly higher OOS rate of 4.04% compared to the National HM OOS rate of 3.96%. These numbers reflect a continuing relatively static trend in driver and vehicle OOS rates both nationally and Statewide.

Federal Unified Carrier Registration (UCR)

HISTORY

The Unified Carrier Registration (UCR) Agreement is found in 49 USC 14504a (hereinafter referred to as section 14504a). The UCR Agreement is established by federal law in the UCR Act, which is part of the federal highway reauthorization bill known as the Safe, Accountable, Flexible, Efficient Transportation Equity Act, A Legacy for Users ("SAFETEA-LU"), Public Law 109-59, enacted August 10, 2005.

The UCR Act is sections 4301 through 4308 of SAFETEA-LU. In particular, the structure of the UCR Agreement is set forth in section 4305 of the UCR Act, which enacts section 14504a as a new section in 49 USC.

The UCR Agreement was amended under Section 301 of the SAFETEA-LU Technical Corrections Act of 2008, Public Law 110-244, enacted June 6, 2008, and in the Rail Safety Improvement Act of 2008, Public Law 110-432, enacted October 16, 2008. As of September 2011, SAFETEA-LU is currently under extension awaiting a new act of Congress. In the meantime, UCR remains in full force and effect and compliance is mandatory.

SUMMARY

Forty one states submitted a state plan to the Secretary prior to the August 10, 2008, deadline and are eligible to participate in the UCR agreement. The federal UCR agreement requires all for-hire motor carriers transporting property or passengers, and motor private carriers transporting property in interstate commerce, as well as brokers, freight forwarders, and leasing companies to register with the United States Department of Transportation and pay UCR fees. Wholly intrastate carriers and private motor carriers transporting only passengers are not subject to UCR fees.

The 2018 UCR fee schedule below is currently in effect through calendar year 2018. A proposed reduction of the 2019 UCR fees schedule is currently pending and could go into effect as early as November of 2018.

The UCR fees are structured based on fleet size, and trailers have been permanently removed from the fee calculation. Oversight of non-payment of UCR fees began January 1, 2009, and

is conducted through KHP compliance verification at roadside inspections, at Ports of Entry and through the KCC Transportation Division Compliance Reviews. Additionally, the Transportation Division mails notices to each Kansas-based motor carrier which acknowledges interstate activity on its USDOT profile, but has not registered or paid UCR fees for the appropriate year. Below is the current fee schedule for CY 2018 and the proposed fee schedule for CY 2019.

PURPOSE

Collection of UCR fees directly affects a state’s receipt of its allotment of federal funds. These funds are used for both administration of the UCR program and for the enforcement of Kansas motor carrier safety programs. Kansas is focused on making the UCR program work as effectively and efficiently as possible. With the rollout of the KTRAN, the Transportation Division is able to remind carriers of their UCR renewal obligations through email alerts with the KTRAN system. The Transportation Staff closely monitors the UCR program

and consistently responds to request for assistance and has shared information now found in the program’s oversight best practice guide. Kansas remains dedicated to this program and is annually ranked among the top states for compliance with the UCR as measured by the registration of motor carriers.

The charts on the following page demonstrate the success of the Transportation divisions UCR compliance efforts. For the last two years, Kansas has been in the top ten jurisdictions in North America based on the number of Kansas carriers compliant with the UCR registration requirements. For that period, Kansas was also in the top two jurisdictions in the United States.

UCR FEE SCHEDULE			
CY 2018 FEE SCHEDULE		CY 2019 FEE SCHEDULE

Kansas Trucking Regulatory Assistance Network (KTRAN)

FEDERAL GRANT

The Kansas Department of Revenue (KDOR) is the lead agency for the Kansas Commercial Vehicle Information Systems and Networks (CVISN) program. Other agencies involved in the Kansas Expanded CVISN Program Plan are the KCC, KHP and KDOT. These agencies have a longstanding relationship and have partnered on numerous projects in the past. The CVISN team shares a strategic vision which includes providing unparalleled customer service; safety compliance education; and effective, balanced enforcement of our state motor carrier rules and regulations.

BACKGROUND

In May of 2009, the FMCSA reviewed and accepted the KDOR Core CVISN Program Plan/Top-Level Design and certified Kansas as Core CVISN compliant. The mission of the Kansas CVISN program is to create an information network using advanced technology that will enhance efficiency, safety, compliance, and enforcement for commercial vehicle operations. The information network includes the exchange of information and ideas between the government partners and the motor carrier industry. CVISN initiatives will promote the economic well-being of Kansas by facilitating the movement of goods for business and industry. The Kansas CVISN team is dedicated to applying cost-effective, intelligent transportation technologies and streamlining of existing processes that will improve transportation safety and administrative efficiency for both the motor carriers and the state.

In February 2010, the FMCSA announced the availability of \$17,000,000 in additional CVISN grant funds. Additional federal funds under Section 4126(d)(3) provides up to \$1,000,000 in funding for States to deploy, operate, and maintain elements of their CVISN programs. The elements include the

commercial vehicle, commercial driver, and carrier specific information systems and networks. The KCC made a timely application seeking \$1,000,000 in grant funding. The grant required a 50% soft match and the Transportation Division's budget was used for that match.

PROJECT SUMMARY

The KTRAN project serves to further integrate information about Kansas motor carriers, commercial vehicles and commercial drivers. For example, roadside enforcement is now able to access KCC authority, Intrastate Out-of-Service Orders and Driver Waiver information through Kansas Commercial Vehicle Information Exchange Window (CVIEW) query windows utilizing a new system-to-system interface built as part of this project. Further, KCC officials are automatically notified of PRISM OOS status changes as well as having a real-time interface to KSCVIEW for PRISM checking of carriers and vehicles prior to issuing KCC authorities.

This project involved:

- Creating a porting system into a modern database environment with Internet-based functionality. (Public-facing functions allowing for electronic submission of information.)
- Developing a “wizard” based portal to provide carriers with a question and answer process to obtain information needed to conduct online motor carrier business in Kansas. A preliminary interview of the user would determine which credentials and authorities are needed.
- Establishing key system interfaces with other agencies to share information. This activity includes developing PRISM functionality for testing intrastate carriers prior to issuing KCC authorities and tying civil assessments to renewals and roadside enforcement activities. Developing a real-time link to KSCVIEW to provide roadside

enforcement with improved access to permit information and intrastate operating authority data.

KTRAN STATUS UPDATE

The KTRAN project went live in April of 2017 and continues to welcome new registrants with each passing week. Currently, registrants are able to apply and renew their intrastate authorities and soon will begin processing their interstate Unified Carrier Registration (UCR) as well.

Additionally, this project serves to enhance the Kansas E-Credentialing capability by establishing an interactive process where carriers walk through a logical set of questions to determine what authorities, forms and processes need to be followed to meet the carrier's needs. The project is an intelligent, interactive front-end to the TruckingKS.org portal, creating a more efficient business process for carriers and state motor carrier personnel.

KTRAN PROGRAM ENHANCEMENTS

The project has three enhancements awaiting approval, which include:

- Compliance Review (CR) Module
- Insurance Module
- KDHE Hazardous Waste Permit Module

Conclusion

The Transportation Division has undertaken significant efforts to enhance the oversight responsibilities within its purview and has made significant improvements in motor carrier safety and economic regulation. The Transportation Division continues to explore ways to enhance and refine its role to the benefit of the motor carrier industry and the Kansas public.

The Commission acted upon the following Transportation filings from July 1, 2017 to June 30, 2018. These filings pertained to rates, operating authority, and safety-related matters for motor carriers.
