

TABLE OF CONTENTS
REA ELECTRIC ANNUAL REPORT

<u>Page Number</u>	<u>Name of Schedule</u>
1.	General Information and Important Changes During Year
2.	General Information and Important Changes During Year – Continued
3.	General Information and Important Changes During Year – Continued
3a.	Important Changes – Continued
3b.	Important Changes – Continued
4.	Comparative Balance Sheet – Assets and Other Debits
5.	Comparative Balance Sheet – Liabilities and Other Credits
6.	Notes to Balance Sheet
7.	Electric Plant Summary and Electric Line Construction Data
8.	Statement of Margins for the Year
9.	Notes to Income Statement
10.	Electric Plant in Service
11.	Electric Plant in Service – Continued
12.	Nonutility Property and Investments in Associated Organizations
13.	Other Investments and Funds
14.	Special Deposits and Temporary Cash Investments
15.	Notes and Accounts Receivable, Accumulated Provisions for Uncollectible Accounts
15-1	Details of Certain Receivables
16.	Materials and Supplies and Fuel Stock
17.	Prepayments and Other Current and Accrued Assets
18.	Unamortized Debit Discount and Expense, Extraordinary Property Losses, Clearing Accounts
19.	Misc. Deferred Debits, Deferred Losses from Disposition of Utility Plants, Research and Development Activities
20.	Equity Accounts
21.	Detail of the Debit and Credit Entries of Equity Accounts
22.	Long Term Debt
23.	Data Related to Notes Issued and Amounts Unadvanced
24.	Notes Payable and Accounts Payable
25.	Accrued and Prepaid Taxes
26.	Interest Accrued, Other Current and Accrued Liabilities, Consumers' Advances for Construction
27.	Deferred Credits and Miscellaneous Reserves, Contributions in Aid of Construction
28.	Electric Operating Revenues
29.	Kansas Sales of Electricity by Rate Schedules
30.	Sales for Resale
31.	Electric Pump Irrigation Service Statistics – Kansas Only
32.	Electric Pump Irrigation Service Statistics – Kansas Only – Continued
33.	Sales of Electricity by Village and Suburban Areas
34.	Electric Operation and Maintenance Expenses
35.	Electric Operation and Maintenance Expenses – Continued
35-1.	Electric Operation and Maintenance Expenses – Continued
36.	Electric Operation and Maintenance Expenses – Continued
36-1.	Electric Operation and Maintenance Expenses – Continued
37.	Distribution of Salaries and Wages
38.	Accumulated Provisions for Depreciation of Electric Plant in Service
39.	Data Relating to Transmission Plant Retired During the Year

40. Data Relating to Distribution Plant Retired During the Year
41. Accumulated Provisions for Depreciation and Amortization of Electric Plant, Data Relating to Depreciation and Amortization Changes
42. Taxes Charged During Year
43. Income from Utility Plant Leased to Others
44. Income from Merchandising, Jobbing, and Contract Work
45. Particulars Concerning Certain Other Income
46. Particulars Concerning Certain Other Income Deduction Accounts
47. Franchise Requirements
48. Outside Services Employed, Regulatory Commission Expenses, Miscellaneous General Expenses
49. Electric Plant Leased to Others, Electric Plant Held for Future Use, Completed Construction Not Classified and Construction Work in Progress
- 49-1. Completed Construction Not Classified and Construction Work in Progress – Continued
50. Electric Plant Acquisition Adjustments
51. Construction Overheads – Electric
52. Purchased Power
53. Purchased Power – Continued
54. Interchange Power
55. Electric Energy Account
- 55-1. Electric Energy Account, Peaks and Outputs
56. Generating Station Statistics (Large)
57. Generating Station Statistics (Large) – Continued
58. Generating Station Statistics (Small)
59. Changes Made for Scheduled to be Made in Generating Plant Capacities
60. Steam Generating Stations
61. Internal Combustion Engine Generating Stations
62. Production Plant Accounts
63. Transmission Line Statistics
64. Substations
65. Overhead Distribution Systems
66. Conduit, Underground Cable, and Submarine Cable (Distribution System)
67. Electric Distribution Meters and Line Transformers, Test of Distribution Meters
68. Public Street and Highway Lighting
69. Rural Line Data
70. Rural Customer Data – Kansas Only
71. Electronic Records Update
72. Signatures and Verification

GENERAL INFORMATION AND IMPORTANT CHANGES DURING YEAR

1. Name and title of officer having custody of the general corporate books of account and address of office where the general corporate books are kept.

2. Incorporation
 - (a) State in which incorporated _____
 - (b) Date of incorporation _____
 - (c) If incorporated in Kansas, State whether incorporated:
 - (1) under the Electric Cooperative Act (Chapter 17, Article 46) or
 - (2) under the Cooperative Society Act (Chapter 17, Article 15).

3. Date when first project was energized _____

4. States other than Kansas in which respondent operated during the calendar year _____

GENERAL INFORMATION AND IMPORTANT CHANGES DURING YEAR – Continued

7. Directors at close of calendar year:

Name of Director (a)	Address (b)	Term Began (c)	Term Expires (d)	Meeting Attended During Year (e)	Fees During Year (f)

8. Annual Meeting

(a) Date and Place held _____

(b) Votes Cast for Election of Directors:

By Members in person _____

By Proxy _____

Total Votes Cast _____

(c) Membership Outstanding End of Year _____

9. If any general or special cash distribution of patronage capital was made during the year, give the amount paid, the number of members (or prior members) receiving payment, and the purpose for such distribution.

10. Describe any important extensions of the transmission or distribution system during the year.

11. Purchase or Sale of an Operating Unit or Plant.

GENERAL INFORMATION AND IMPORTANT CHANGES DURING YEAR – Continued

12. Other Important Changes During Year

List and supply appropriate description concerning important rate changes, changes in articles of incorporation, significant wage scale changes, material changes in cost of power, important legal proceedings culminated during year or pending during year, and any other transaction during the year which was of material interest. Attach additional sheets if needed.

Subsequent Events

In the space below list all “material” events, which have occurred subsequent to the end of the reporting year and prior to the filing of this annual report, that have or will have an impact on the utility company. For each event listed, describe the impact it has or will have on the utility companies financial statements and/or financial condition.

One time / Unusual Occurrence

In the space below list all “material” one time or unusual occurrences, which have occurred during the reporting year covered in this annual report, that has or will have an impact on the utility company. For each occurrence listed, describe the impact it has or will have on the utility companies financial statements and/or financial condition.

Corporate Guaranties

In the space below, list all corporate guaranties issued by the utility or its parent on behalf of any affiliated interests as defined by K.S.A. §66-1401. For each guaranty, provide the name of the affiliate along with the amount and terms including the beginning and ending dates. Describe what affect invoking the guaranty(s) would have on the financial condition of the utility company.

Cross Default Clauses

In the space below, list all of the affiliates' (as defined by K.S.A. §66-1401) debt obligations that contain cross-default clauses linking the affiliates' performance under the debt agreements to the utility and/or its parent. For each debt obligation with a cross-default clause, provide the name of the affiliate, a concise description of its business, and a description of the debt obligation. Describe what affect invoking the cross default clause(s) would have on the financial condition of the utility company.

COMPARATIVE BALANCE SHEET – ASSETS AND OTHER DEBITS				
Line No.	Account Title and Number (a)	See Page (b)	Balance Beginning of Year (c)	Balance End of Year (d)
	<u>Electric Plant</u>			
1.	Electric Plant (101-107, 114-120)	7		
2.	Less Accumulated Provision for Depreciation and Amortization (108-113, 115).....	41		
3.	Net Electric Plant (Line 1 less Line 2)			
	<u>Other Property and Investments</u>			
4.	Nonutility Property (121) less: Accumulated Depreciation and Amortization (122).....	12		
5.	Investments in Assoc. Organizations (123)	12		
6.	Other Investments (124)	13		
7.	Special Funds (125-128).....	13		
8.	Total Other Property and Investments (Lines 4-7, inclusive)			
	<u>Current and Accrued Assets</u>			
9.	Cash – General (131.1)			
10.	Cash – Loan Funds (131.2, 131.3 & 131.4).....			
11.	Other Special Deposits (134).....	14		
12.	Working Funds (135).....			
13.	Temporary Cash Investments (136)	14		
14.	Notes and Accounts Receivable (141-143) less.....	15		
	Accumulated Provision for Uncollected Accounts (144)	15		
15.	Materials and Supplies (151-159, 163).....	16		
16.	Prepayments (165).....	17		
17.	Other Current & Accrued Assets (171, 172, 173 & 174).....	17		
18.	Total Current & Accrued Assets (Lines 9 thru 17, inclusive)			
	<u>Deferred Debits</u>			
19.	Unamortized Depreciation Discount and Expense (181).....	18		
20.	Extraordinary Property Losses (182)	18		
21.	Preliminary Survey & Investigation Charges (183)			
22.	Clearing Accounts (184)	18		
23.	Temporary facilities (185)			
24.	Miscellaneous Deferred Debits (186).....	19		
25.	Def. Losses from Disp. Of Utility Plant (187)	19		
26.	Research and Development Expense (188).....	19		
27.	Total Deferred Debits (Lines 19-26).....			
28.	Total Assets and Other Debits (Lines 3, 8, 18, and 27).....			

COMPARATIVE BALANCE SHEET – LIABILITIES AND OTHER CREDITS				
Line No.	Account Title and Number (a)	See Page (b)	Balance Beginning of Year (c)	Balance End of Year (d)
	<u>Membership Equity Accounts</u>			
1.	Memberships (200)	20		
2.	Patronage Capital (201)	20		
3.	Special Equity Items (208, 211, 215, 217 and 218)	20		
4.	Operating Margins (219.1)	20		
5.	Nonoperating Margins (219.4)	20		
6.	Other Margins (219.3 and 219.4)	20		
7.	Total Membership Equity Accounts (Line 1 to 6, inclusive)			
	<u>Long-Term Debt</u>			
8.	Bonds (221). Explain in note on page 6.....	6		
9.	REA Debt Outstanding.....	22		
10.	CFC & Other Debt Outstanding	22		
11.	Net Long-term Debt Outstanding (Lines 8, 9 and 10)			
	<u>Current and Accrued Liabilities</u>			
12.	Notes Payable (231)	24		
13.	Accounts Payable (232)	24		
14.	Customer Deposits (235)			
15.	Taxes Accrued (236)	25		
16.	Interest Accrued Accounts	26		
17.	Other Current and Accrued Accounts (Account 238 to 242, inclusive)	26		
18.	Total Current and Accrued Liabilities (Lines 12 to 17, inclusive)			
	<u>Deferred and Other Credit Accounts</u>			
19.	Customers Advances for Construction (252)	26		
20.	Customers' Energy Prepayment (253.1).....	27		
21.	Deferred Gains from Disposition of Utility Plant (256)			
22.	Operating Reserves (261 – 265).....	27		
23.	Contributions in Aid of Construction (271)	27		
24.	Total Deferred and Other Credits Accounts (Lines 19 to 23, inclusive)			
25.	Total Liabilities and Other Credits (Lines 7, 11, 18, and 24)			

NOTE: Page 6 of this report is left blank for notes regarding the balance sheet. If an abnormal amount appears in any balance sheet account, appropriate explanation should be given. Further, if for any reason a figure in the balance sheet is not in agreement with the detail schedule referred to in column (b), a full explanation should be submitted.

NOTES TO BALANCE SHEET

1. The space below is provided for notes regarding the balance sheet or any account thereof.
2. In Column (b) of the balance sheet is shown the page numbers where schedules are provided to show the detail of the balance sheet items. If for any reason a figure in the balance sheet is not in agreement with the schedule, give here a full explanation.
3. If an abnormal amount in any account of the balance sheet, appropriate explanation should be given.

Table 1		ELECTRIC PLANT		
Show the balances at end of year in the accounts making up Electric Plant. Summary of Electric Plant Accounts, End of Year.				
Line No.	Account Number and Title (a)	Account Balances, End of Year		
		Kansas Only (b)	Total Company Amount (c)	For Details See: (d)

7.				xxxxxxx
8.				xxxxxxx
9.				xxxxxxx

GROSS OPERATING REVENUES DERIVED FROM KANSAS INTRASTATE ELECTRIC UTILITY OPERATIONS
 (If operations were wholly within Kansas, this figure will agree with line 1, Col. (c) of page 8. Otherwise, subtract from said figure any revenue received from electric service rendered in other states).....\$ _____

ELECTRIC PLANT IN SERVICE

1. Report below the detail called for relating to electric plant.
2. Corrections or additions and retirements for the current or preceding year should be included in columns (c) and (d), respectively and not included as adjustments in col. (e).
3. Credit adjustments or transfers from an account when shown in column (e) should be enclosed in parenthesis.

Line No.	Account (a)	Balance Beginning of Year (b)	Additions (c)	Retirements (d)	Adjustments and Transfers (e)	Balance End of Year (f)
	<u>Intangible Plant</u>					
1.	(301) – Organization.....					
2.	(302) – Franchise and Consents.....					
3.	(303) – Miscellaneous Intangible Plant					
4.	Total Intangible Plant.....					
	<u>Production Plant</u>					
5.	(310-316) – Steam Production Plant.....					
6.	(320-325) – Nuclear Production Plant.....					
7.	(330-336) – Hydraulic Production Plant					
8.	(340-346) – Other Production Plant					
9.	Total Production Plant (see page 62).....					
	<u>Transmission Plant</u>					
10.	(350) – Land and Land Rights.....					
11.	(351) – Clearing Land and Rights-of-Way....					
12.	(352) – Structures & Improvements					
13.	(353) – Station Equipment					
14.	(354) – Towers & Fixtures					
15.	(355) – Poles & Fixtures.....					
16.	(356) – Overhead Conductors & Devices					
17.	(357) – Underground Conduit					
18.	(358) – Underground Conductors & Devices					
19.	(359) – Roads and Trails.....					
20.	Total Transmission Plant.....					

ELECTRIC PLANT IN SERVICE (Continued)						
Line No.	Account (a)	Balance Beginning of Year (b)	Additions (c)	Retirements (d)	Adjustments and Transfers (e)	Balance End of Year (f)
	<u>Distribution Plant</u>					
21.	(360) – Land and Land Rights.....					
22.	(361) – Structure & Improvements.....					
23.	(362) – Station Equipment.....					
24.	(363) – Storage Battery Equipment.....					
25.	(364) – Poles, Towers & Fixtures.....					
26.	(365) – Overhead Conductors & Devices ...					
27.	(366) – Underground Conduit.....					
28.	(367) – Underground Conductors & Devices.....					
29.	(368) – Line Transformers.....					
30.	(369) – Services.....					
31.	(370) – Meters.....					
32.	(371) – Installations on Customer Premises.....					
33.	(372) – Leased Property on Customer Premises.....					
34.	(373) – Street Lighting & Signal Systems ...					
35.	Total Distribution Plant (Lines 21-34, inclusive).....					
	<u>General Plant</u>					
36.	(389) – Land and Land Rights.....					
37.	(390) – Structures & Improvements.....					
38.	(391) – Office Furniture & Equipment.....					
39.	(392) – Transportation Equipment.....					
40.	(393) – Stores Equipment.....					
41.	(394) – Tools, Shop & Garage Equip.....					
42.	(395) – Laboratory Equipment.....					
43.	(396) – Power Operated Equipment.....					
44.	(397) – Communication Equipment.....					
45.	(398) – Miscellaneous Equipment.....					
46.	Total General Plant (Lines 36-45, inclusive).....					
47.	(101) – Total Electric Plant in Service (Lines 4, 9, 20, 35 & 46).....					

**NONUTILITY PROPERTY (Account 121) AND ACCUMULATED PROVISION
FOR DEPRECIATION AND AMORTIZATION OF NONUTILITY PROPERTY (Account 122)**

1. Give a brief description and state the location of nonutility property included in Account 121. Also, indicate the amounts relating thereto in Account 122.
2. Designate any property which is leased to another company. State name of lessee.
3. Furnish particulars concerning sales, purchases, or transfer to nonutility property during the year.

Description and Location of Property (a)	Account 121 Balance End of Year (b)	Account 122 Balance End of Year (c)

INVESTMENTS IN ASSOCIATED ORGANIZATIONS (Account 123)

1. Report below information relating to memberships and investments in associated organizations, patronage credits therefrom and such other items as have been recorded in the subaccounts of Account 123.

Description of Investment and Date Acquired (a)	Book Cost Beginning of Year (b)	Principal Amount or Number of Shares (c)	Book Cost End of Year (d)	Revenues for Year (e)
Total as Shown in Balance Sheet (Page 4, Line 5)		xxxxxxxxxxxxxxxx xxxxxxxxxxxxxxxx		xxxxxxxxxx xxxxxxxxxx

OTHER INVESTMENTS AND FUNDS

1. Report below information relating to (1) Other Investments (Account 124). (2) Sinking Funds (Account 125) and (3) Other Special Funds (Account 128).
2. Provide a subheading for each account and list thereunder the information called for. Show totals of the individual items for each account which should agree with the amounts shown in the balance sheet on page 4, lines 6 & 7.

Description of Investment and Date Acquired (a)	Book Cost Beginning of Year (b)	Principal Amount or Number of Shares (c)	Book Cost End of Year (d)	Revenues from Year (e)

Table 1 SPECIAL DEPOSITS – (Account 134)		
1. Report below the amount of special deposits by classes at end of year. 2. If any deposit consists of assets other than cash, give a brief description of such assets.		
Description and Purpose of Deposit (a)	Balance Beginning of Year (b)	Balance End of Year (c)
Total as shown in Balance Sheet (Page 4, Line 11)		

TABLE 2 TEMPORARY CASH INVESTMENTS – (Account 136)				
Report below information relating to temporary investments investment's made from general or other case funds.				
Description of Investment and Date Acquired (a)	Book Cost Beginning of Year (b)	Principal Amount or Number of Shares (c)	Book Cost End of Year (d)	Revenues for Year (e)

14. Total Equity Accounts (Lines 1-13, inclusive)				

*Show debit balances in parenthesis

TABLE 2 **DETAIL OF THE DEBIT AND CREDIT ENTRIES TO EQUITY ACCOUNTS**

Show separately the various entries (including audit adjustments) made to the above equity Accounts during the year. Begin with Account 200.1. First show each debit and follow with the credits. When all entries to the account have been listed, draw a line and show totals for the debits and credits to agree with the figures in Columns (c) and (d) of Table 1, page 21. Follow the same procedure for each of the remaining Equity Accounts. When an audit adjustment is applicable to a previous year, indicate which year in Column (g). (Note: Recurring items of exactly the same nature should be totaled and shown as one entry).

Explanation of Entry. Here list and give concise but clear explanation to each entry (a)	Equity Account Number (b)	Amount of the Entry				Year Applicable (if Audit Adj.) (g)
		Debits		Credits		
		Amount (c)	Account Number Credited (d)	Amount (e)	Account Number Credited (f)	

(If additional space is needed, insert sheet and number it 21A.)

LONG TERM DEBT (Account 224)										
<p>1. In lines 1 through 11 list all subaccounts of Account 224 which related to REA indebtedness. Show debit balances in columns (d) and (g) in parentheses for ease in calculating the net REA Debt Outstanding at beginning and end of year (line 12).</p> <p>2. In lines 13 through 17, list all subaccounts of Account 224 which pertain to National Rural Utilities Cooperative Finance Corporation (CFC) as well as any miscellaneous long term debt. Show any debit balances in columns (d) and (g) in parentheses.</p>

ELECTRIC OPERATING REVENUES (Account 400)

1. Report below the amount of operating revenues for the year for each prescribed account and the amount of increase or decrease over the preceding year. Show decrease in parenthesis.
2. Number of customers should be reported on the basis of number of meters, plus number of flat rate accounts, except that where separate meter readings are added for billing purposes, one customer should be counted for each group of meters so added. The average number of customers means the average of the 12 figures at the close of each month. If the customer count in the residential service classification includes customers more than once because of special services, such as water heating, etc., indicate by footnote the number of such duplicate customers included in the classification.
3. Unmetered sales would be included below. The details of such sales should be given in a footnote.

Line No.	Account (a)	See Page No. (b)	Operating Revenues		Kilowatt-Hours Sold		Average Number Customers per Month	
			Amount for Year (c)	Increase or Decrease from Preceding Year (d)	Amount for Year (e)	Increase or Decrease from Preceding Year (f)	Amount for Year (g)	Increase or Decrease from Preceding Year (h)

14.	Total Company Electric Operating Revenues (Lines 12 and 13).....							

KANSAS SALES OF ELECTRICITY BY RATE SCHEDULES

1. Report below for each rate schedule in effect in Kansas during the KWH sales and other data relating thereto. Provide subheadings for each revenue account you have listed on page 28, beginning with Account 440. If the sales under any rate schedule are classified in more than one revenue account, list the rate schedule and sales data under each applicable revenue account subheading.
2. In instances when the same customers are served under more than one rate schedule in the same revenue account classification, the entries in column (d) should denote the duplication in number of reported customers.
3. The average number of customers should be the number of bills rendered during the year divided by the number of billing periods (12 if all billings are made monthly.)
4. In reported for Account 442 – Commercial and Industrial Sales, provide subheadings thereunder to classify such sales as Small and Large according to the classification regularly used by the respondent.

15.	Balance End of Year (Line 1 plus line 7 minus line 11, plus or minus other items)					

DATA RELATING TO TRANSMISSION PLANT RETIRED DURING THE YEAR

Report below by principal plant accounts the information called for concerning transmission plant retired during the year (see object below).

Cost of Plant Retired Charged to Account 108	Station Equipment Account 353 (a)	Towers and Fixtures Account 354 (b)	Poles and Fixtures Account 355 (c)	Overhead Conductor and Devices Account 356 (d)	Other Depreciable Trans. Plant (e)	Totals (to agree with COL. (d), page 38) (f)
1. Major Retirements						
2. Minor Retirements						
3. Total Retirements						
4. Cost of Removal of Major Retirements						
5. Cost of Removal of Minor Retirements						
6. Total Removal Cost (Lines 4 and 5)						
7. Salvage from Major Retirements						
8. Salvage from Minor Retirements						
9. Total Salvage						
10. Net Charges for Transmission Plant Retired						

OBJECT

Findings No. 7, 8, 11 and 12 of the Commission's Order of January 27, 1971, pertain to procedures necessary for accumulating depreciation data by classes of plant. The object is to determine salvage and cost of removal of principal plant accounts by accumulating such data either (1) from all retirement work orders or (2) from the major retirement work orders plus estimates from minor and routine retirement orders. Further explanation is given under general instructions in the front of the report.

Remarks:

DATA RELATING TO DISTRIBUTION PLANT RETIRED DURING THE YEAR

Report below by principal plant accounts the information called for concerning distribution plant retired during the year (see object below).

Cost of Plant Retired Charged to Account 108	Station Equipment Account 362 (a)	Poles and Fixtures Account 364 (b)	Overhead Conductor and Devices Account 365 (c)	Line Transformers Account 368 (d)	Other Depreciable Trans. Plant (e)	Totals (to agree with COL. (e), page 38) (f)
1. Major Retirements						
2. Minor Retirements						
3. Total Retirements						
4. Cost of Removal of Major Retirements						
5. Cost of Removal of Minor Retirements						
6. Total Removal Cost (Lines 4 and 5)						
7. Salvage from Major Retirements						
8. Salvage from Minor Retirements						
9. Total Salvage						
10. Net Charges for Transmission Plant Retired						

OBJECT

Findings No. 7, 8, 11 and 12 of the Commission's Order of January 27, 1971, pertain to procedures necessary for accumulating depreciation data by classes of plant. The object is to determine salvage and cost of removal of principal plant accounts by accumulating such data either (1) from all retirement work orders or (2) from the major retirement work orders plus estimates from minor and routine retirement orders. Further explanation is given under general instructions in the front of the report.

Remarks:

TABLE 1 ACCUMULATED PROVISIONS FOR DEPRECIATION AND AMORTIZATION OF ELECTRIC PLANT				
Line No.	Item (a)	Total Company		Kansas Only End of Year (d)
		Beginning of Year (b)	End of Year (c)	
1.	(108) – Accumulated Provision for Depreciation of Electric Plant in Service			
2.	(109) – Accumulated Provisions for Depreciation of Electric Plant Leased to Others			
3.	(110) – Accumulated Provisions for Depreciation of Electric Plant Held for Future Use			
4.	(111) – Accumulated Provisions for Amortization of Electric Plant in Service			
5.	(112) – Accumulated Provisions for Amortization of Electric Plant Lease to Others			
6.	(113) – Accumulated Provisions for Amortization of Electric Plant Held for Future Use			
7.	(114) – Accumulated Provisions for Amortization of Electric Plant Acquisition Adjustments			
8.	Total Accumulated Provisions for Depreciation and Amortization of Electric Pant (Cols. (b) and (c) to agree with Page 4, Line 2) ..			

TABLE 2 DATA RELATING TO DEPRECIATION AND AMORTIZATION CHARGES

(Show in the space below the rates by classes of plant used by respondent to determine depreciation charges relating to Electric Plant in Service. Also, if respondent is making periodic credits to Accounts 111 or 115, indicate for each item being amortized, the annual provision, the period of "write-off", the contra-debt, account, and the Commission docket number authorizing the same.)

**PART TWO OF THIS ANNUAL REPORT
IS ELECTRIC ANNUAL REPORT
REA PART 2**

INCOME FROM UTILITY PLANT LEASED TO OTHERS (Accounts 412, 413)

1. Report below the revenues, expenses and income for year from lease to others of utility property constituting a distinct operating unit of system.
2. For each lease show: (1) name of lessee and description and location of the leased property, (2) revenues, (3) operating expenses classified as to operation, maintenance, depreciation, rents, amortization, and taxes, and (4) income from lease for year. Arrange amounts so that deductions appear as a subtraction, revenues, and income as the remainder.
3. If the property is leased on a basis other than that of a fixed annual rental, give particulars of the method of determining the annual rental.

INCOME FROM MERCHANDISING, JOBBING, AND CONTRACT WORK (Account 415, 416)

Report the revenues, costs, expenses, and net income from merchandising, jobbing, and contract work during year. The net profit or loss should agree with the net of Accounts 415 and 416.

Line No.	Item (a)	Amount (b)

PARTICULARS CONCERNING CERTAIN OTHER INCOME (Accounts 417 – 423)

1. Report in this schedule the information specified in the instructions below for the respective other income accounts. Provide a conspicuous subheading for each account and show a total for the account. Additional columns may be added for any account if deemed necessary.
2. Income from Nonutility Operations (Account 417) – Describe each nonutility operation and show revenues, operating expenses classified as to operation, maintenance, depreciation, rents amortization, taxes, and net income from the operation. Give the basis of any important segregation of expenses between utility operations and nonutility operations.
3. Nonoperating Rental Income (Account 418) – For each major item of miscellaneous property included in Account 121, Nonutility Property, which is not used in operations for which income is included in Account 417, but which is leased or rented to others, give name of lessee, brief description of property, effective date and expiration date of lease, amount of rent revenues, operating expenses classified as to operation, maintenance, depreciation, rents, amortization, taxes, and net income from the rentals. If the property is leased on a basis other than that of a fixed annual rental, state the method of determining the rental. Minor items may be grouped by classes, but the number of items so grouped should be shown.
4. Interest and Dividend Income (Account 419) – Report interest and dividend income identified as to the asset account or group of accounts in which are included as assets from which the interest or dividend income was derived. Income derived from investments, Accounts 123, 124 and 136 may be shown in total. Income from sinking and other funds should be identified with the related special funds. Show also expenses included in Account 419 as required by the Uniform System of Accounts. Allowance for Funds Used During Construction (419.1) will be shown as a separate item and state the method followed to determine such amount.
5. Miscellaneous Nonoperating Income (Account 421) – Give nature and source of each miscellaneous nonoperating income and the amount thereof for the year. Minor items may be grouped by classes.
6. Generation and Transmission Cooperative Capital Credits (Account 423) – Give the source, the period involved and the amount for each allocation of capital credits during the year.

Line No.	Item (a)	Amount (b)
----------	----------	------------

--	--	--

PARTICULARS CONCERNING CERTAIN OTHER INCOME DEDUCTION ACCOUNTS

1. Report in this schedule the information specified in the instructions below for the respective income deduction accounts. Provide a conspicuous subheading for each account and show a total for the account. Additional columns may be added if deemed appropriate with respect to any account.
2. Miscellaneous Amortization (Account 425) – Report amount of amortization charges which are not included in other accounts. State the nature of each item and give the contra account for the same.
3. Miscellaneous Income Deductions (Account 426) –Report the nature and amount of miscellaneous deductions for the year. Minor amounts may be grouped by classes if the number of items so grouped is shown.
4. Amortization of Loan Expenses (Account 428) – Indicate the amounts charged to this account and credited to Account 181 and any other debits or credits.
5. Other Interest Charges (Account 431) – Report the amount of debt and the amount of rate of interest for each class of debt on which other interest charges were incurred during the year.

NOTE: The totals of columns (e), (f) and (g) should be the same as the total of (c).

ELECTRIC PLANT ACQUISITION ADJUSTMENTS
 (and ACCUMULATED PROVISIONS FOR AMORTIZATION OF ELECTRIC PLANT ACQUISITION ADJUSTMENTS)

1. Report the balance at beginning and end of year and changes during the year for Electric Plant Acquisition Adjustments, Account 114 and Accumulated Provisions for Amortization of Electric Plant Acquisition Adjustments, Account 115.
2. Explain each debit and credit during the year, give reference to any Commission orders or other authorizations concerning such amounts, show contra account debited or credited.
3. For acquisition adjustments arising during the year state the name of the company from which the property was acquired, date of transaction, and date journal entries clearing Account 102, Electric Plant Purchased or Sold were accepted for filing by the Commission.
4. Credits to Account 114 and debits to Account 115 should be enclosed in parentheses.
5. In the blank space at the bottom of the schedule explain the plan of disposition of acquisition adjustments. Give also, date the Commission authorized use of Account 115, Accumulated Provision for Amortization of Electric Plant Acquisition Adjustments.

Item (a)	Contra Account (b)	Acquisition Adjustments (Account 114) (c)	Amortization Reserve (Account 115) (d)
Balance beginning of year			
Balance end of year			

Footnotes:

TABLE 1 CONSTRUCTION OVERHEADS - ELECTRIC

1. Report below the information called for concerning construction overheads for the year.
2. List in column (a) the kinds of overheads according to the titles used by the respondent. Charges for outside professional services for engineering fees and management or supervision fees capitalized should be shown as separate items.
3. On the lower section of this schedule furnish the requested explanatory information concerning construction overheads.
4. A respondent should not report "none" to this schedule if no overhead apportionments are made, but rather should explain on the lower section of this schedule that only such engineering, supervision and administrative costs, etc., which are directly chargeable to construction are charged to construction if this is the case. Engineering, supervision, administrative, and interest costs, etc. which are first assigned to a blanket work order and then prorated to construction jobs shall be considered overheads for the purposes of formulating a response to the schedule.

Line No.	Name of Overhead (a)	Total Overheads Cleared to Construction (b)	Cost of Construction to which Overheads were Charged (exclusive of Overhead Charges) (c)	Percent Overheads to Construction Cost (d)
	Total			

TABLE 2 GENERAL DESCRIPTION OF CONSTRUCTION OVERHEAD PROCEDURE

1. For each construction overhead for electric plant, explain (a) nature of the engineering supervisory, or administrative work, etc., the overhead charges are intended to cover, (b) the general procedure for determining the amount capitalized, (c) the method of distribution to construction jobs, (d) percentages applied to different types of construction, (e) basis of differentiation in percentages for different types of construction, and (f) amounts capitalized for each overhead for the year for which this report is submitted.
2. In addition to other information concerning engineering and superintendence or other such overheads explain whether the amounts treated as overheads include all engineering and superintendence costs or only such portion as are not directly chargeable to specific jobs.
3. For interest during construction state the interest rate used, the basic charges to which applied, in addition to the amounts capitalized for the year for which this report is submitted.

PURCHASED POWER (Account 555)
(Except Interchange Power)

1. Report power purchased for resale during the year. Exclude from this schedule and report on page 50 particulars concerning interchange power transactions during the year.
2. Provide subheading and classify purchases as to (1) Associated Utilities, (2) Nonassociated Utilities, (3) Associated Nonutilities, (4) Other Nonutiities, (5) Municipalities, (6) Cooperatives, and (7) Other Public Authorities. For each purchase designate statistical classification in column (b), thus: Firm Power, FP; dump or surplus power, DP; other, O; and place an "X" in column (c) if purchase involved import across a state line.
3. Report separately firm, dump, and other power purchased from the same company. Describe the nature of any purchases classified as Other Power, column (b).

Line No.	Purchased From (a)	Statistical Classification (b)	Import Across State Lines (c)	F.P.C. Rate Schedule No. of Seller (d)	Point of Receipt (e)	Substation (f)	KW or KVA of Demand (Specify which)

PURCHASED POWER (Account 555) (Continued)
(Except Interchange Power)

4. If receipt of power is at a substation indicate ownership in column (f), thus: respondent owned or leased, RS; seller owned or leased, SS.
5. If a fixed number kilowatts of maximum demand is specified in the power contract as a basis of billing, this number should be shown in column (g). The number of kilowatts of maximum demand to be shown in columns (h) and (i) should be actual based on monthly reading and shown be furnished whether or not used in the determination of demand charges. Show in column (j) type of demand reading (instantaneous 15, 30 or 60 minutes integrated).
6. The number of kilowatt hours purchase should be the quantities shown by the power bills.
7. Explain any amount entered in column (o) such as fuel or other adjustments.

INTERCHANGE POWER
(included in Account 555)

1. Report below all of the kilowatt-hours received and delivered during the year. For receipts and deliveries under interchange power agreements, show the net charge or credit resulting therefrom.
2. Provide subheading and classify interchanges as to (1) Associated Utilities, (2) Nonassociated Utilities, (3) Associated Nonutilities, (4) Other Nonutilities, (5) Municipalities, (6) Cooperatives, and (7) Other Public Authorities. For each interchange across a state line place an "x" in column (b).
3. Particulars of settlements for interchange power shall be furnished in Part B, Details of Settlement for Interchange Power. If settlement for any transaction also includes credit or debit amount other than for increment generation expenses, show such other component amounts separately, in addition to debit or credit for increment generation expenses, and give a brief explanation of the factors and principles under which such other component amount were determined. If such settlement represents the net of debits and credits under an interconnection, power pooling, coordination, or other such arrangement, submit a copy of the annual summary of transactions and billings among the parties to the agreement. If the amount of settlement reported in this schedule for any transactions does not represent all of the charges and credits covered by the agreement, furnish in a footnote a description of the other debits and credits and state the amount and accounts in which such other amounts are included for the year.

MONTHLY PEAKS AND OUTPUTS

1. Report hereunder the information called to pertaining to simultaneous peaks established monthly (in kilowatts) and monthly output (in kilowatt-hours) for the combined sources of electric energy of respondent.
2. Monthly peak column (b) should be respondent's maximum kw, load as measured by the sum of its coincidental net generation and purchases plus or minus net interchange, minus temporary deliveries (not interchange) of emergency power to another system. Monthly peak including such emergency deliveries should be shown in a footnote with a brief explanation as in the nature of emergency*.
3. State type of monthly peaks reading (instantaneous 15, 30, or 60 minutes integrated).
4. Monthly output should be the sum of respondent's net generation for load and purchases plus or minus net interchange and plus or minus net transmission or wheeling. Total for the year should agree with line 17 on previous page.
5. If the respondent has two or more power systems not physically connected, the information called for below should be furnished for each system.

		MONTHLY PEAK					
Line No.	Month (a)	Kilowatts (b)	Day of Week (c)	Day of Month (d)	Hour (e)	Type of Reading (f)	Monthly Output (KWH) (See ins. 4) (g)
31.	January						
32.	February						
33.	March						
34.	April						
35.	May						
36.	June						
37.	July						
38.	August						
39.	September						
40.	October						
41.	November						
42.	December						
Total							

*In some cases there may be situations of commingling of purchases and exchanges and "wheeling", also of direct deliveries by the supplier to customers of the reporting utility wherein segregation of kw and demand for determination of peaks as specified by this schedule may be unavailable. In these cases peaks may be reported which include these intermingled transactions. An explanatory note, however, should be furnished, which indicates, among other things, the relative significance of the deviation from basis otherwise applicable. Of the individual kw amounts of such totals are needed for billing under separate rate schedules and are estimated, give the amount and basis of estimate.

**GENERATING STATION STATISTICS
(LARGE STATION)**

1. Large stations for the purpose of this schedule are steam and hydro stations of 2,500 KW or more of installed capacity and internal combustion engine stations of 500 KW or more of installed capacity (name plate ratings).
2. If any plant is leased, operated under a license from the Federal Energy Regulatory Commission, or operated as a joint facility, indicate such facts by the use of asterisks and footnotes.
3. Specify if total plant capacity is reported in KVA instead of kilowatts as called for on line 4.
4. If peak demand for 60 minutes is not available, give that which is available, specifying period.
5. The total hours shown on line 10 should equal 8,760 or 8,784 depending upon the number of days in the year.
6. If a group of employees attend more than one generating station, report on line 11 the approximate average number of employees assigned to each station.

Line No.	Item (a)	Total (b)	Plant (c)	Plant (d)	Plant (e)	
1.	Kind of plant (steam, hydro, int. comb.).....	X

42.	Lubrication oil (int. combustion engines only):		XXXXX	XXXXX	XXXXX	XXXXX
43.	Quantity.....					
44.	Total Cost.....					

GENERATING STATION STATISTICS (Large Stations) – Continued

7. If gas is used and purchased on a term basis, the btu content of gas should be given and the quantity of fuel consumed converted to mcf.
8. Quantities of fuel consumed and average cost per unit of fuel consumed should be consistent with charges to expenses accounts 501 and 547 as shown on line 24.
9. The items under cost of plant and production expenses represent accounts or combinations of accounts prescribed by the Uniform System of Accounts. Production expenses, however, do not include Purchased Power, System Control and Load Dispatching, and Other Expenses classified as "Other Power Supply Expenses."
10. If any plant is equipped with combinations of steam, hydro, internal combustion engine or gas turbine-equipment, each should be reported as a separate plant. However, if a gas turbine unit functions in a combined operation with a conventional steam unit, the gas turbine should be included with the steam station.

GENERATING STATION STATISTICS – (continued)
(Small Stations)

1. Small generating stations, for the purpose of this schedule, are steam and hydro stations of less than 2500 KW and internal combustion engine stations of less than 500 KW installed capacity (name plate rating).
2. Designate any plant leased from others, operated under a license from the Federal Energy Regulatory Commission, or operated as a joint facility and give a concise statement of the facts in a footnote.
3. List plants appropriately under subheadings for steam, hydro, and internal combustion engine stations.
4. Specify if total plant capacity is reported in kva instead of kilowatts.
5. If peak demand for 60 minutes is not available, give that which is available, specifying period.
6. If any plant is equipped with combinations of steam, hydro and combustion engine equipment, each should be reported as a separate plant.

TABLE 1 CHANGES MADE OR SCHEDULED TO BE MADE IN GENERATING PLANT CAPACITIES

Give below the information called for concerning changes in electric generating plant capacities during the year.

A. Generating Plants or Units Dismantled, Removed from Service, Sold, or Leased to Others During Year.

Line No.	Name of Plant (a)	Disposition* (b)	Installed Capacity-Kilowatts			Date** (f)	If sold or leased to another give name and address of purchaser or lessee (g)
			Hydro (c)	Steam (d)	Other (e)		
1.							
2.							
3.							
4.							
5.							
6.							
7.							

* State whether dismantled, removed from service, sold or leased to another. Plants removed from service include those not maintained for regular or emergency service.

** Date dismantled, removed from service, sold, or leased to another. Designate complete plants as such.

TABLE 2 B. Generating Units Scheduled for or Undergoing Major Modifications.

Line No.	Name of Plant (a)	Character of Modification (b)	Installed Plant Capacity After Modification Kilowatts (c)	Estimated Dates of Construction	
				Start (d)	Completion (e)
1.					
2.

* Hydro, pumped storage, steam, internal-combustion, gas-turbine, nuclear, etc.

STEAM GENERATING STATIONS

In the following space and / or upon attached sheets show the following concerning each steam generating station:

1. Station name and location.
2. Boilers: (a) Type, (b) Year installed, (c) Method of firing, (d) Rates pressure in pounds, (e) Rates steam temp. F. and (f) Rated maximum M lbs. of steam per hour.
3. Prime Movers: (a) Reciprocating engine or turbine, (b) Year installed, (c) Condensing or noncondensing, (d) Steam pressure at throttle and (e) R.P.M.
4. Generators: (a) Year installed, (b) Voltage, (c) Phase, (d) Frequency, (e) Name plate rating of unit Kilowatts and (f) Number of units in station.
5. Total installed generating capacity in kilowatts (Name plate ratings).

INTERNAL COMBUSTION ENGINE GENERATING STATION						
Line No.	Item (a)	Name and Location of Station				
		(b)	(c)	(d)	(e)	(f)
	<u>Prime Movers</u>					
1.	Diesel or other type of engine					
2.	Name of maker.....					
3.	Year installed					
4.	Two or four cycle.....					
5.	Belted or direct connected					
6.	Rated h.p. of station prime movers					
7.	Total rated h.p. of station prime movers.....					
	<u>Generators</u>					
	Year installed					
9.	Voltage.....					
10.	Phase.....					
11.	Frequency or d.c.					
12.	Name plate rating of unit in kilowatts.....					
13.	Number of units in station					
	<u>Total Capacity and Ownership</u>					
14.	Total installed capacity in kilowatts (Name plate rating).....					
15.	Does respondent wholly own said station? (If not, give full explanation of the ownership and agreement)					

PRODUCTION PLANT ACCOUNTS
(Account 310 – 346, inclusive)

1. Show below in columns (b) and (f) the balances at beginning and end of year for each primary plant account of the production plant, and in columns (c) through (e) show the additions, retirements, etc. made during year.
2. Show subtotals for each type of production plant which will agree with the summaries shown on page 10, lines 5 to 8.

Line No.	Account Number and Name (a)	Balance Beginning of Year (b)	Additions (c)	Retirements (d)	Adjustments and Transfers (e)	Balance End of Year (f)
	Total Production Plant (to agree with page 10, line 9)

SUBSTATIONS

1. Report below the information called for concerning substations of the respondent as of the end of the year.
2. Substations listed must have secondary voltages exceeding 2.3 K.V. Delta.
3. In column (a) show name of customer after substations supplying energy for resale.
4. Indicate in column (b) the functional character of each substation, designating whether transmission or distribution and whether attended or unattended.
5. Show in columns (i), (j) and (k) special equipment such as rotary converters, rectifiers, condensers, etc. and auxiliary equipment for increasing capacity.
6. Designate substations or major types of equipment owned from others, jointly owned with others, or operated otherwise than by reason of solo ownership by the respondent, for any substation or equipment operated under lease, given name of lessor, date and period of lease and annual rent. For any substation or equipment operated other than by reason of sole ownership or lease, give name of co-owner or other party, explain basis of sharing expenses or other accounting between the parties, and state amount and accounts effected in respondent's books of account. Specify in each case whether lessor, co-owner, or other party in an associated company.

OVERHEAD DISTRIBUTION SYSTEMS

1. Report below the information called for concerning overhead distribution systems of respondent at end of year.
2. Urban distribution systems should be reported separately for each large metropolitan area and each community of 250 population or more (not part of a major metropolitan area required to be reported as such). Urban systems serving communities of smaller size may be grouped by operating division.
3. Rural distribution systems may be reported in total by operating divisions. In a footnote give the definition of rural distribution system used in the preparation of this schedule.
4. Designate distribution systems leased from others, jointly owned with others, or operated otherwise than by reason of sole ownership by the respondent. For any system operated under lease, give name of lessor, date and period of lease and annual rent. For any system operated other than by reason of sole ownership or lease, give name of co-owner or other party, explain basis of sharing expenses or other accounting between the parties, and state amounts and accounts affected in respondent's books of account. Specify in each case whether lessor, co-owner, or other party in an associated company.

CONDUIT, UNDERGROUND CABLE, AND SUBMARINE CABLE
(Distribution System)

1. Report below the information called for concerning conduit, underground cable, and submarine cable at end of year.
2. Show separately the underground distribution system plant serving each large metropolitan area. Also report separately the underground distribution system of any community of 250 population or more (not part of a large metropolitan area required to be reported as such) for which the underground plant is an important part of the total distribution system of such community. Report in total by operating divisions the underground distribution systems not required to be reported separately.
3. Designate underground systems, or important portions thereof, leased from others, jointly owned with others, or operated otherwise than be reason of sole ownership by the respondent. For any underground system operated under lease give name of lessor, date and period of lease, and annual rent. For any system operated other than by reason of sole ownership or lease, give name of co-owner or other party, explain basis of sharing expenses or other accounting between the parties and state amounts and accounts affected in respondent's books of accounts. Specify in each case whether lessor, co-owner or other party is an associated company.

**ELECTRIC DISTRIBUTION METERS AND LINE TRANSFORMERS
(TOTAL COMPANY AND KANSAS ONLY)**

1. Report below the information called for concerning distribution watt-hour meters and line transformers.
2. Watt-hour demand distribution meters should be included below but external demand meters should not be included.
3. Show in a footnote the number of distribution watt-hour meters or line transformers held by the respondent under lease from others, jointly owned with others, or held otherwise than by reason of sole ownership by the respondent. If 500 or more meters or line transformers are held under a lease, give name of lessor, date and period of lease, and annual rent. If 500 or more meters or line transformers are held other than by reason of sole ownership or lease, give name of co-owner or other party, explain basis of accounting for expenses between the parties, and state amounts and accounts affected in respondent's books of account. Specify in each case whether lessor, co-owner, or other party in an associated company.
4. If respondent operates wholly within Kansas, do not complete columns (e), (f) and (g).
5. If respondent operates in more than one state, complete columns (e), (f) and (g) (Kansas Only).

Line No.	Item (a)	Number of watt-hour meters (b)	Line Transformers		KANSAS ONLY Number of watt-hour meters (e)	Line Transformers KANSAS ONLY

2.	Number which tested more than 2% slow	_____
3.	Number which tested more than 2% fast	_____
4.	Explain test schedules:	

PUBLIC STREET AND HIGHWAY LIGHTING

1. Report below the information called for concerning street lighting and signal systems owned or leased at end of year.
2. Show separately the street lighting and signal systems for each community of 10,000 population or more or for each community of smaller size may be required by a state regulatory commission concerned. Group as "other" the system for all other communities served.
3. Designate street lighting and signal systems, or important portions thereof, leased from others, jointly owned with others, or operated otherwise than by reason of sole ownership by the respondent. For any system operated other than by reason of sole ownership or lease, give name of co-owner or other party, explain basis of accounting for expenses or other current charges between the parties, and state amounts and accounts affected in respondent's books of account. Specify in each case whether lessor, co-owner, or other party in an associated company.

RURAL LINE DATA

1. Report below the information called for concerning distribution lines of respondent serving farm and rural customers, except customers classified as industrial.
2. A farm is defined as any tract of land of ten or more acres, used mostly to produce agricultural products, with annual gross sales of \$50.00 or more or any tract of less than ten acres with annual gross sales of agricultural products of \$25.00 or more. However, some differences remain as to the division between the reporting of farm and non-farm customers.
3. Rural Service is defined as service communities (town and villages) with less than 250 populations regardless of the rates, and service to all other areas where customers are billed on a district rural or farm rate schedule.

Line No.	Item (a)	State of _____ (b)	State of _____ (c)	State of _____ (d)
1.	Number of miles of rural lines:	XXXXXXXXXXXXXXXXXX	XXXXXXXXXXXXXXXXXX	XXXXXXXXXXXXXXXXXX

RURAL CUSTOMERS DATA – KANSAS ONLY – YEAR ENDING DECEMBER 31, _____

1. Report in column (a) the miles of rural pole line energized and in column (b) show number of customers in rural area (including towns and villages of less than 250 population) regardless of rates, and in other areas where customers are billed on district rural or farm rates.
2. In column (c) report only farm customers (those residing on tracts of land of ten or more acres, used mostly to produce agricultural products, with annual gross sales of \$50.00 or more, or any tract of less than 10 acres with annual gross sales of agricultural products of \$25.00 or more), and report in column (e) the remaining rural domestic consumers who do not fall in the classification of farm customers.
3. Report in column (g) commercial customers located in rural areas which are served on a distinct commercial or general service schedule, and show in column (i) all other customers living in rural areas which do not fall within one of the three previously mentioned classifications.

Month Ending	Miles Rural Pole Line Energized (a)	Total Number of Rural Customers (All Classes) (b)	Farm		Non-farm Rural Residential		Rural Commercial		Other Rural (Specify)

VERIFICATION

The foregoing report must be verified by the oath of the President or chief officer of the company. The oath required may be taken before any person authorized to administer an oath by the laws of the State in which the same is taken.

OATH

State of _____)

County of _____)

SS:

_____ makes oath and says that
(Insert here the name of the affiant)

he/she is _____
(Insert here the exact legal title or name of the respondent)

That he/she has examined the foregoing report; that to the best of his/her knowledge, information, and belief, all statements of fact contained in the said report are true and the said report is a correct statement of the business and affairs of the above named respondent in respect to each and every matter set forth therein during the period from the including.

_____, to and including _____

(Signature of affiant)

Subscribed and sworn to before me, a _____

In and for the State and county above named, this _____ day of _____.

My commission expires _____

(Signature of officer authorized to administer oaths)
