## INTRASTATE TARIFF 400-N

### INTRODUCTION – PAGE 4

#### HOW TO USE THIS TARIFF

Tariff 400-N governs the transportation of household goods (personal effects and property) and other similarly defined articles of Household Goods utilizing Intrastate permits and/or authority as applicable by the state Authority of Record.

#### TRANSPORTATION CHARGES

The transportation charges in this tariff include the loading of the shipment at the point of origin, vehicle transportation to the point of destination, and the unloading of the shipment at destination, but **do not include** the Additional Services named in Sections 1 and 2 of the tariff.

The transportation charges apply for the transportation of household goods between points within the state. The charges apply between US postal zip codes. The Mileage Guide distance is used to determine the applicable charges). In order to display all of the thousands of possible zip code and postal code combinations, the charges are contained in the electronic software portion of the tariff, rather than a paper format.

**EFFECTIVE: January 1, 2023**

### INTRODUCTION – PAGE 5

#### ADDITIONAL SERVICES

Additional Service rates and charges apply for services that are requested by the shipper or necessary to complete the shipment. The electronic software portion of the tariff provides the applicable additional service rates and charges described below. Refer to the application page of Section 1 or 2 for more information.

Item 3, Released and Declared Value. The charges in this item apply when the shipment is declared or released for transportation under the Full Value Protection provisions. The shipper may select from 3 deductible options.

Item 16, Fuel Cost Price Adjustment (Surcharge). This item contains a fuel price matrix that provides for a percentage adjustment to the transportation charges based on the cost of diesel fuel as reported by the U.S. Department of Energy (DOE). If the average nationwide cost of diesel fuel increases above the base price of \$1.136 per gallon, a percentage adjustment applies on the transportation charges.

Item 28, Diversions and Stopoffs. This item contains the provisions that apply when a shipment is diverted or when additional stops are made to perform extra pickups or deliveries.

Item 35, Advancing Charges. This item applies when charges are advanced by the carrier for services performed by third parties at the request of the shipper or required by a governmental or a local authority, such as tolls or ferry service charges.

Item 40, General Price Adjustment. This item provides for an annual adjustment to the rates and charges contained in the tariff based on the application of certain government cost indices.

Item 60, Insurance Surcharge. This item contains an additional percentage adjustment to the transportation charges to compensate the carrier for the cost of obtaining insurance coverage.

Item 105, Container Service. This item applies when the carrier furnishes cartons and performs the packing of some or all of the articles in the shipment. The item applies on a hundredweight basis for complete (full-pack jobs) shipments and on a per container basis for partial shipment pack jobs. Regular time and overtime rates apply, based on the time of the day and the day of the week that the service is performed. The rates contained in the software include the cartons and packing materials. Rates are not provided for containers or materials that are supplied but not packed by the carrier.

Rates for full and custom unpacking, crating service and for debris disposal (when the shipper does his own unpacking and you are requested to remove and dispose of cartons and packing materials) are also provided in this item.

Item 120, Extra Labor, Special Services and Waiting Time. This item applies when the carrier provides extra labor, special services (such as disassembling or assembling unusual articles), or waiting time.

Item 125, Shuttle Service. This item applies when the shipper requests shuttle service for pickup or delivery at inaccessible locations.

(Concluded on next page)

Provisions previously shown hereon regarding Item 53 are hereby cancelled.

**EFFECTIVE: January 1, 2023**

### INTRODUCTION - PAGE 6

Item 130, Light and Bulky Articles and Weight Additives. This item applies when light or bulky articles, such as cars, large-screen televisions, or hot tubs, are included in the shipment. The item also includes weight additives that apply for articles such as boats, trailers and campers.

Item 135, Origin and Destination Service Charge. This item applies on a hundredweight basis at the origin and destination point of the shipment to compensate the carrier for handling and servicing the shipment at each location.

Item 175, Pickup or Delivery Service on Saturdays, Sundays or Holidays. This item applies when the carrier performs pickup or delivery service on weekends, holidays, or after hours at the specific request of the shipper or if required by landlord requirements or local ordinances.

Item 185, Storage. This item applies when storage-in-transit is performed, based on the location where the storage is provided, except as otherwise provided in the item (over 30 mile radius).

When storage-in-transit is provided, an additional SIT valuation charge applies in an amount equal to 10% of the shipment valuation charge when the shipment is transported under Full Value Protection. The SIT valuation charge applies for each storage period of 15 days or fraction thereof.

Example: A 5000 pound shipment released at \$25,000 is placed into SIT for 17 days. The shipment valuation charge would be \$245.00 (at the \$250 deductible level) and the SIT valuation charge would be 10% of the shipment valuation charge for each 15 days or fraction thereof of storage, or \$49.00 (10% times \$245.00 times 2).

In this example, remember that the SIT valuation charge applies in 15-day increments. Therefore, since the SIT period continued into the second 15-day period, the SIT valuation charge applies twice.

Item 200, Claims, Loss and Damage. This item applies when the carrier performs claim resolution services on behalf of a third party.

Item 207, Climate Control Service. This item applies when carrier provides insulated units equipped with air-ride suspension and mechanical units that supply refrigeration, heating or humidity control for the shipment.

Item 210, Pickup and Delivery Transportation Charges on Storage-In-Transit Shipments. This item applies on SIT shipments when the carrier provides pickup or delivery service between the storage location and the residence. Charges are based on the zip code applicable at the storage location and the distance between the storage location and the residence, except as otherwise provided in the item.

Item 225, Pickup and Delivery Service Applicable at Third Party and Self-Storage Warehouses. This item applies when the carrier is requested to go inside the warehouse space rented by the shipper to either remove items stored there or to place items into the storage space. Charges apply based on the location of the storage facility and the weight of the items stored.

---

**The provisions of this tariff may also be affected by any of a wide variety of independent pricing actions (exception items), which may be applicable on behalf of individual carriers. Exceptions such as binding estimates, discounts and deductible levels of valuation as published in Exceptions Tariff Series 104-G always take precedence over the provisions in this tariff and must be taken into account when rating shipments.**

### **SECTION 1 - RULES AND REGULATIONS -PAGE 8**

#### **ITEM 2**

#### **BILL OF LADING AND RATES**

Unless otherwise provided in this tariff, when property is transported subject to the provisions of this tariff, or as amended, the acceptance and the use of the Uniform Household Goods Bill of Lading as described herein is required.

- (a) If the bill of lading is issued on the order of the shipper, or his agent, in exchange or substitution for another bill of lading, the shipper's signature to the prior bill of lading as to the statement of value or otherwise, or election for common law or bill of lading liability, in or in connection with such prior bill of lading, shall be considered a part of the original bill of lading as fully as if the same were written or made in connection with the original bill of lading.

Any alteration, addition or erasure on a bill of lading made without a special notation thereon by the agent of the carrier issuing the bill of lading shall be without effect and the bill of lading shall be enforceable according to its original tenor.

- (b) The rates and charges shown herein are reduced rates conditioned upon the use of the Uniform Household Goods Bill of Lading. Consignor at his option, may elect not to accept the terms of the Uniform Household Goods Bill of Lading, and in lieu thereof to have the carrier transport the property with carrier's liability limited only as provided by common law and by the laws of the United States and the several States insofar as they apply, but subject to the terms and the conditions of the Uniform Household Goods Bill of Lading insofar as such terms and conditions are not inconsistent with such common carrier's liability; the rate charged therefore will be 100 percent higher than the transportation rate contained in this tariff as would apply for such shipment if offered for transportation at a released value not exceeding 60 cents per pound, per article.

When the consignor elects not to accept any of the terms of such bill of lading he must give notice to the initial carrier of such election. The initial carrier must indicate the receipt of such notice by writing or stamping thereon a clause signed by the carrier reading:

"In consideration of the higher rate charged, the property herein described will be carried, and the services to be rendered hereunder will be performed, with the carrier's liability limited only as provided by law; but subject to the terms and conditions of this bill of lading insofar as they are not inconsistent with such common carrier's liability."

- (c) All rates and charges herein are dependent upon the shipment being released in accordance with the provisions of Item 3 of this tariff.

## **INTRASTATE TARIFF 400-N**

### **SECTION 1 - RULES AND REGULATIONS –PAGE 9**

#### **ITEM 3**

#### **RELEASED AND DECLARED SHIPMENT VALUE (VALUATION)**

C The carrier's maximum liability in the event of loss or damage shall be either:

- (1) The lump sum value declared by the shipper, which may not be less than \$5,000 or \$5.00 per pound multiplied by the actual weight of the shipment, in pounds, whichever is greater, or
- (2) The actual loss or damage not exceeding sixty (60) cents per pound of the weight of any lost or damaged article when the shipper has released the shipment to carrier, in writing, with liability limited to sixty (60) cents per pound per article.

Unless the shipper expressly waives carrier's maximum liability as set forth in Part (1) above and releases the shipment to a value not exceeding 60 cents per pound per article, the carrier's maximum liability for loss or damage shall be either the lump sum value declared by the shipper or an amount equal to not less than \$5.00 for each pound of weight in the shipment, whichever is greater.

As used in this tariff, the phrases, "released value", "declared value", and "value declared by the shipper" shall have the same meaning.

Carrier's maximum liability and the valuation charges specified herein for the assumption of liability shall be subject to selection by the shipper, prior to loading, of an appropriate maximum valuation amount and either deductible Option "A", "B" or "C". Shipper may declare or release the shipment to a higher maximum valuation amount, subject to one of the amounts shown in the table herein. To avoid these additional charges, shipper must agree that if articles are lost or damaged, carrier liability will not exceed 60¢ per pound for the actual weight of any lost or damaged article or articles in the shipment.

**OPTION A - NO DEDUCTIBLE:** Under Option A, the carrier assumes responsibility for the declared or released maximum valuation amount.

**OPTION B - \$250 DEDUCTIBLE:** Under Option B, in consideration of a reduction in the valuation charge, the shipper assumes responsibility for the first \$250.00 of any claim, except as otherwise provided for in Paragraph (i).

**OPTION C - \$500 DEDUCTIBLE:** Under Option C, in consideration of a reduction in the valuation charge, the shipper assumes responsibility for the first \$500.00 of any claim, except as otherwise provided for in Paragraph (i).

#### C RELEASED AND DECLARED SHIPMENT VALUE (VALUATION)

- (a) The released value must be entered on the Bill Of Lading, or in substitution thereof, the Order For Service, in the following form and may be completed only by the person signing it:

If you wish to declare a higher value for your shipment, you must indicate that amount below.

The value of my shipment is: \_\_\_\_\_

You must also select one of the following deductible amounts under the Full(Replacement)Value level of liability that will apply for your shipment (If you do not make a selection, the "No Deductible" level will apply):

No Deductible (\_\_\_\_\_) \$250 Deductible (\_\_\_\_\_) \$500 Deductible (\_\_\_\_\_)   
 (initial) (initial) (initial)

To waive the Full (Replacement) Value level of liability and to select the Alternative Level of Liability, you must write , on the line below, the words "60 cents per pound".

Your signature is required here: I acknowledge that for my shipment I have 1) either waived the Full (Replacement) Value level of liability OR declared a value under the Full (Replacement) Value level of liability and selected a deductible amount, if appropriate, and 2) received and read a copy of the "Your Rights and Responsibilities When You Move" brochure explaining these provisions.

\_\_\_\_\_

(Date)

Provided that: Where the shipper is the employer of the actual owner of the household goods being transported and is responsible for all transportation charges in connection with such move, the shipper may waive the Full (Replacement) Value level of liability and instruct the motor carrier to release the shipment to a value of 60 cents per pound per article (a) by specification made on a purchase order, or (b) by issuing, in advance of the shipping date, appropriate letters of instruction to the carrier. In such instances, the motor carrier must incorporate the instructions by reference to the shipper's document in the bill of lading in lieu of the personal signature and handwritten statement relating to released rates.

- (b) When a shipment is tendered to the carrier with a released or declared value equal to or greater than \$5.00 per pound times the weight of the shipment in pounds, the carrier will, at its option, either repair items to the extent necessary to restore to the condition when received by the carrier; pay the shipper for the cost of repairs; replace item(s) with item(s) of like kind and quality; or make a cash settlement for the current market replacement cost of the item(s). #### **ITEM 3 (Continued)**

#### **RELEASED AND DECLARED SHIPMENT VALUE (VALUATION)**

- (e) All shipments (other than those released to a value not exceeding 60 cents per pound per article) will be deemed released to a minimum lump sum value of \$5,000 or \$5.00 times the actual total weight (in pounds) of the shipment. The stated valuation must be in the increments shown herein. If the shipper declares or releases the shipment to a valuation that falls between the valuation amounts shown, or, if no such declaration is made by the shipper and the valuation amount calculated by the carrier based on the weight of the shipment falls between the valuation amounts shown, the highest valuation amount in the applicable category and the applicable charge associated therewith will apply. The deductible level (no deductible, \$250 or \$500 deductible) of valuation declared will determine the valuation charge that will apply, as shown in the table below.
- (f) The weight used for determining the minimum valuation will be the actual net weight of the shipment or the estimated weight when the shipment moves pursuant to the terms and conditions of a Binding Estimate.
- (g) When Full Value Protection applies to a shipment that includes one (1) or more motor vehicles (automobiles, vans, pickup trucks, or sport utility vehicles), the carrier's maximum liability for the vehicles shall be either (1) the value stated in the current issue of the National Automobile Dealer's Association (N.A.D.A.) - (h) The released or declared value and the carrier's maximum liability, whether or not loss or damage, injury, or delay occurred from carrier negligence, as determined under this rule, shall apply to any claims resulting from the performance or failure to perform by carrier of any services, including accessorial services, which carrier has contracted to perform.
- (i) When the shipper takes a written exception at the time of delivery for non-delivery of an inventoried item(s), and subsequently submits a properly documented claim for loss of the item(s) and carrier's investigation establishes the carrier's liability, the deductible amount, if any, shall not apply to the non-delivered item(s).
- (j) Rates or charges herein based on released value have been authorized by the Surface Transportation Board in Amendment No. 4 to Released Rates Decision No. MC-999, decided December 18, 2001, and revised July 24, 2006, subject to complaint or suspension. Any limitation of liability resulting from application of this provision has been authorized by the Surface Transportation Board in Amendment No. 4 to Released Rates Decision No. MC-999, decided December 18, 2001, and revised July 24, 2006, subject to complaint or suspension.

#### ITEM 3 (Concluded)

#### RELEASED AND DECLARED SHIPMENT VALUE (VALUATION)

**EXCEPTION 1:** Shippers who tender shipments which are released to a value greater than 60¢ per pound per article, that include an article or articles that exceed \$100 per pound per article (or have a total value of \$4000 or more), must specifically notify the carrier in writing that an identified article or articles with a value greater than \$100 per pound are included in the shipment by execution of the following provision contained in the carrier's Bill of Lading, or in substitution thereof, the Order for Service:

#### EXTRAORDINARY (UNUSUAL) VALUE ARTICLE DECLARATION

I acknowledge that I have prepared and retained a copy of the "Inventory of Items Valued in Excess of \$100 Per Pound Per Article or have total value of \$4000 or more" that are included in my shipment and that I have given a copy of this Inventory to the carrier's representative. I also acknowledge that the carrier's liability for loss of or damage to any article valued in excess of \$100 per pound or have total value of \$4000 or more will be limited to \$100 per pound for each pound of such lost or damaged article (based on actual article weight), not to exceed the declared value of the entire shipment, unless I have specifically identified such articles for which a claim for loss or damage is made on the attached inventory.

\_\_\_\_\_  
(Date)

A shipper's failure to notify the carrier that an article or articles having a value that exceeds \$100 per pound will be included in the shipment will restrict the carrier's maximum liability to \$100 per pound for each pound or have total value of \$4000 or more of any lost or damaged article (based on actual article weight), not to exceed the declared value of the entire shipment.

Any limitation of liability resulting from application of this provision has been authorized by the Interstate Commerce Commission (now the Surface Transportation Board) in Amendment No. 1 to Released Rates Decision No. MC-989 decided October 5, 1995, subject to complaint or suspension.

#### **ITEM 4**

#### **WEIGHING AND WEIGHTS**

1. Carriers transporting shipments on a non-binding estimate shall determine the weight of each shipment transported prior to the assessment of any charges depending on the shipment weight. Except as otherwise provided in this item the weight shall be obtained on a scale meeting the definition of a certified scale as provided in 49 CFR 375.1 (b)(4).
2. Weighing Procedure
  - a. Except as otherwise provided in this item, the weight of each shipment shall be obtained by determining the difference between the tare weight of the vehicle on which the shipment is to be loaded prior to the loading and the gross weight of this same vehicle after the shipment is loaded; or, the gross weight of the vehicle with the shipment loaded and the tare weight of the same vehicle after the shipment is unloaded.
  - b. At the time of both weighings the vehicle shall have installed or loaded all pads, dollies, hand trucks, ramps and other equipment required in the transportation of such shipments. Neither the driver nor any other persons shall be on the vehicle at the time of either weighing.
  - c. The fuel tanks on the vehicle shall be full at the time of each weighing or, in the alternative, no fuel may be added between the two weighings when the tare weighing is the first weighing performed.
  - d. The trailer of a tractor-trailer vehicle combination may be detached from the tractor and the trailer weighed separately at each weighing providing the length of the scale platform is adequate to accommodate and support the entire trailer at one time.
  - e. Shipments weighing 1,000 pounds or less may be weighed on a certified platform or warehouse scale prior to loading for transportation or subsequent to unloading.
  - f. The net weight of shipments transported in containers shall be the difference between the tare weight of the container, including all pads, blocking and bracing used or to be used in the transportation of the shipment and the gross weight of the container with the shipments loaded therein.
  - g. The shipper or any other person responsible for payment of the freight charges shall have the right to observe all weighing of the shipment. The carrier must advise the shipper or any other person entitled to observe the weighing of the time and specific location where each weighing will be performed and must give that person a reasonable opportunity to be present to observe the weighing. Waiver by a shipper of the right to observe any weighing or reweighing is permitted and does not affect any rights of the shipper under these regulations or otherwise.

#### ITEM 4 (Concluded) WEIGHING AND WEIGHTS

- h. Carrier may substitute manufacturer's weight for automobiles, trucks, vans, campers, boats, and other similar vehicular or bulky articles in lieu of obtaining separate weight tickets on these articles whenever such articles are included within a shipment. Manufacturer's weight will be obtained from either the Branham Automobile Reference Book, the National Automobile Dealer's Association (N.A.D.A.) Official Used Car Guide (the "Guide"), or from other appropriate reference sources of manufacturer's weight, or the shipper may provide carrier with copies of manufacturer's documents evidencing the weight of the article included in a shipment.
3. Weight Tickets. The carrier shall obtain a separate weight ticket for each weighing required under this item except when both weighings are performed on the same scale, one weight ticket may be used to record both weighings. Every weight ticket must be signed by the person performing the weighing and must contain the following minimum information:
  - a. The complete name and location of the scale.
  - b. The date of each weighing.
  - c. Identification of the weight entries thereon as being the tare, gross and/or net weights.
  - d. The company or carrier identification of the vehicle.
  - e. The last name of the shipper as it appears on the bill of lading.
  - f. The carrier's shipment registration or bill of lading number.
  - g. The original weight ticket or tickets relating to the determination of the weight of a shipment must be retained by the carrier as part of the file on the shipment. All freight bills presented to collect any shipment charges dependent on the weight transported must be accompanied by true copies of all weight tickets obtained in the determination of the shipment weight.
4. The provisions of paragraph (2), (3) and (5) of this item shall not apply to shipments tendered to the carrier in containers or to shipments consisting solely of machinery (including auxiliary and component parts thereof) which are being transported by household goods carriers pursuant to the definition of household goods in paragraph (3) of Item 100 of this tariff; provided, the weight of each shipment is certified by the shipper thereof on the bill of lading covering such shipments.
5. Reweighing of Shipments. Before the actual commencement of the unloading of a shipment weighed at origin and after the shipper is informed of the billing weight and total charges, the shipper may request a reweigh. **The charges shall be based on the reweigh weight.**

#### ITEM 17

#### STORAGE-IN-TRANSIT

- (a) Storage-In-Transit of property covered by this tariff is the holding of the shipment or portion thereof at or in the facilities or warehouse used by the carrier or its agent, for storage, pending further transportation, and will be effected only at specific request of the shipper or under the conditions specified in Paragraph (n) of this item. For the purpose of this item a carrier may designate any facility or warehouse to serve as its agent.
- (b) A shipment portion thereof may be placed in storage-in-transit (over 30 mile radius) one or more times for an aggregate period not to exceed 90 days. When not removed from storage-in-transit at midnight on the 90th day, liability as carrier shall terminate after such time, the intrastate character of the shipment or portion thereof shall cease, the warehouse location shall be considered the destination of the property, the warehouseman shall be agent for the shipper, and the property shall then be subject to the rules, regulations and charges of the warehouseman. Carrier may terminate the intrastate character of the shipment or portion thereof prior to the 90-day maximum storage-in-transit period, if payment of the billed charges is not made within the due date stated on such billing. Until all lawful charges are paid, property will remain at carrier's or agent's storage location subject to a lien for all such charges.
- (c) When storage-in-transit is at origin, charges (subject to Item 20) may be billed after storage-in-transit is effected as follows:
  - 1. Transportation charges between origin and location where storage-in-transit is effected.
  - 2. Storage charges due at time of billing.
  - 3. Charges for additional services, advances and other lawful charges.
- (d) When storage-in-transit is at other than origin, charges (subject to Item 20) must be billed at the time storage-in-transit is effected, as follows:
  - 1. Transportation charges between origin and location where storage-in-transit is effected.
  - 2. Charges for additional services, advances and other lawful charges.

At the time of billing under this paragraph, storage charges due the carrier may be billed. Storage charges for subsequent days of storage that property remains in storage-in-transit may be billed as they become due.

#### ITEM 17 (Continued) STORAGE-IN-TRANSIT

- (e) Delivery of shipments to residence from storage-in-transit at origin, en route or at destination will be made on the date requested, if possible. If prior commitments of carrier prevent delivery on that date, every effort will be made to deliver as soon as possible, subject to the following:
1. If shipment is not removed from storage by the 5th working day (excluding Saturday, Sunday and holidays) after the requested delivery date(s), storage charges will cease to accrue after such date.
  2. If shipment is removed from storage prior to the 5th working day after the requested delivery date(s), storage charges will cease to accrue the day after shipment is removed.

All other provisions under the tariff will continue in effect until further transportation is made available by the carrier. Until all lawful charges are paid, property will remain at carrier's or agent's storage facility subject to a lien for all such charges.

- (f) The transportation charges to apply when the shipment or portion thereof is stored in transit will be (1) the applicable transportation rate between initial point of pickup and storage location, and (2) the applicable transportation rate from storage location, which, for rate application purposes, will be considered a new point of origin, to destination point.

**Refer to Item 210 for the application of SIT pickup and delivery transportation charges.**

- (g) The transportation charges to apply on a shipment when only a portion of the shipment is stored in transit en route to destination will be the applicable transportation rate based on total weight of entire shipment, for total distance via all points of pickup and/or delivery (from first point of pickup to final point of delivery), plus additional service charges applicable to each portion of the shipment. The total charges for picked up and/or delivered portions shall not, in any case, exceed the total charges as would apply if computed to each portion as a separate shipment. (The provisions of Paragraph (f) of this item will apply from the point of origin to storage location for determination of separate charges on the portion of shipment stored in transit, when computing the lower overall total charges.
- (h) The transportation charges to apply on a portion of a storage-in-transit shipment delivered from storage location to destination will be the applicable transportation rate based on the weight of such portion, subject to the provisions of Paragraph (f) of this item.

#### ITEM 19

#### CLAIMS, LOSS AND DAMAGE

**(a) Claims in Writing Required:**

A claim for loss, damage, injury, or delay will not be voluntarily paid by a carrier unless filed in writing as provided in subparagraph (b) below with the receiving or delivering carrier, or carrier issuing the bill of lading, or carrier on whose line the alleged loss, damage, injury, or delay occurred, within the specified time limits applicable thereto and as otherwise may be required by law, the terms of the bill of lading or other contract of carriage, and all tariff provisions applicable thereto. All transportation charges must be paid in full as per the terms and conditions of the Estimate and Order for Service prior to settlement and payment of any claim for loss and or damage. A claim is not considered as received unless fully paid, submitted with specificity and in writing within time frame mentioned herein.

**(b) Minimum Filing Requirements:**

A communication in writing from a claimant filed with carrier within the time limits specified in the bill of lading or contract of carriage or transportation, and (i) containing facts sufficient to identify the shipment (or shipments) of property involved, (ii) asserting liability for alleged loss, damage, injury, or delay, and (iii) making claim for the payment of a specified or determinable amount of money, will be considered as sufficient compliance with the provisions for filing claims embraced in the bill of lading or other contract of carriage.

**(c) Documents not constituting claims:**

Bad order reports, appraisal reports of damage, notations of shortage or damage, or both, on freight bills, delivery receipts, or other documents, or inspection reports issued by carriers or their inspection agencies, whether the extent of loss or damage is indicated in dollars and cents or otherwise will, standing alone, not be considered by carriers as sufficient to comply with the minimum claim filing requirements specified in subparagraph (b) above.

**(d) Claims filed for uncertain amounts:**

Whenever a claim is presented against carrier for an uncertain amount, such as \$100 more or less, carrier will determine the condition of the shipment involved at the time of delivery by it, if it was delivered, and will ascertain as nearly as possible the extent, if any, of the loss or damage for which it may be responsible. It will not however, voluntarily pay a claim under such circumstances unless and until a formal claim in writing for a specified or determinable amount of money has been filed in accordance with the provision of subparagraph (b) above.

**(e) Other claims:**

If investigation of a claim develops that one or more other carriers has been presented with a similar claim on the same shipment, the carrier investigating such claim will communicate with each such other carrier and, prior to any agreement entered into between or among them as to the proper disposition of such claim or claims, will notify all claimants of the receipt of conflicting or overlapping claims and will require further substantiation, on the part of each claimant of his title to the property involved or his right with respect to such claim.

As a condition precedent to recovery, a claim for any loss, damage, injury, or delay, must be filed in writing with carrier within nine (9) months after delivery to consignee as shown on bill of lading, or in case of failure to make delivery, then within nine (9) months after a reasonable time for delivery has elapsed; and suit must be instituted against carrier within two (2) years and one (1) day from the date when notice in writing is given by carrier to the claimant that carrier has disallowed the claim or any part of or parts thereof specified in the notice. Where a claim is not filed or suit is not instituted thereon in accordance with the foregoing provisions, carrier will not be liable and such claims will not be paid.

(l) **Acknowledgment and settlement by carrier:**

(m) **Salvage:**

Whenever property transported by a carrier is damaged or alleged to be damaged and is, as a consequence thereof, not delivered or is rejected or refused upon tender thereof to the owner, consignee, or person entitled to receive such property, carrier, after giving due notice, whenever practicable to do so, to the owner and other parties that may have an interest therein, and unless advised to the contrary after giving such notice, will undertake to sell or dispose of such property directly or by the employment of a competent salvage agent. Carrier will only dispose of the property in a manner that will fairly and equally protect the best interests of all persons having an interest therein. Carrier will make an itemized record sufficient to identify the property involved so as to be able to correlate it to the shipment or transportation involved, and claim, if any filed thereon. Carrier also will assign to each lot of such property a successive lot number and note that lot number on its record of shipment and claim, if any claim is filed thereon.

Upon receipt of a claim on a shipment on which salvage has been processed in the manner herein before described, carrier will record in its claim file thereon the lot number assigned, the amount of money recovered, if any, from the disposition of such property, and the date of transmittal of such money to the person or persons lawfully entitled to receive the same.

Nothing in this tariff shall require the carrier to perform any service at any point or location where, through no fault or neglect of the carrier, the furnishing of such services is impracticable because:

The allowable free waiting time provisions provided for in Item 120 will not apply during the ferry waiting and transportation period described herein.

#### ITEM 40 GENERAL PRICE ADJUSTMENT

A periodic General Price Adjustment (GPA) will apply on all rates and charges named in this tariff as provided herein.

1. Effective January 1<sup>st</sup> of each calendar year, the rates and charges in this tariff shall be subject to a General Price Adjustment as determined by the selected U.S. Department of Labor indices for a preceding 12-month annual basing period (e.g. from July to July).
2. Applicable U.S. Department of Labor indices are as reported on the Bureau of Labor Statistics [www.bls.gov](http://www.bls.gov) web site (tariff users may also refer to the [www.promover.org](http://www.promover.org) web site for current U.S. Department of Labor indices information), as follows:

**A) CPI Index** information is based on the Consumer Price Index, for All Urban Consumers (CPI-U), Not seasonally adjusted, U.S. City Average, for All Items (less Food and Energy), Series ID [cuur0000SA0L1E](#).

**B) CEU Index** information is based on the average hourly earnings of production workers in the National Employment Index for Hours and Earnings, not seasonally adjusted, for Transportation and Warehousing, specialized freight trucking, under NAICS Code 4842, Series ID [ceu4348420008](#).

3. The General Price Adjustment will be based on the increase in the CEU times .41 (representing the labor portion of carriers' expenses) plus the increase in the CPI times .59 (representing the reciprocal of .41), as specified in Paragraph 2, from July to July of each subsequent calendar year. For example, the basing period will be July 2004 to July 2005 for the January 1, 2006 adjustment.

#### **A ITEM 40 (Concluded)** **GENERAL PRICE ADJUSTMENT**

4. To determine the General Price Adjustment to apply, first determine the unadjusted indexes (July to July basing period) for each index (CPI and CEU) applicable at the beginning and at end of the specified basing period. Second, to determine the percentage increase in the CEU, subtract the beginning CEU from the ending CEU and divide that answer by the beginning CEU. Multiply that answer times .41. Third, to determine the percentage increase in the CPI, subtract the beginning CPI from the ending CPI and divide that answer by the beginning CPI. Multiply that answer times .59. Finally, add the two weighted subtotals together to determine the GPA percentage increase/decrease to apply. The GPA calculation will be rounded to nearest tenth of percent according to normal rounding procedures.

***For example:***

	<u>July 2005 to</u>	<u>July 2006</u>	<u>% Change</u>	<u>Times Factor</u>	<u>= GPA</u>
CPI Index =	200.8	206.2	2.689	.59	1.587
CEU Index =	15.70	16.59	5.669	.41	2.324
GPA Total =					<b>3.9 GPA</b>

The General Price Adjustment (GPA) will apply for all shipments loading beginning on the following January 1<sup>st</sup> through December 31<sup>st</sup>.

5. Notwithstanding any other provisions of the tariff, the General Price Adjustment WILL NOT APPLY to the provisions of Item 3, Released and Declared Shipment Value.

#### COLLECTION OF FREIGHT CHARGES ON HOUSEHOLD GOODS SHIPMENTS INVOLVING LOSS OR DESTRUCTION IN TRANSIT AND ON SHIPMENTS TRANSPORTED ON MORE THAN ONE VEHICLE (See Note 1)

- a. Carrier shall not collect, or require a shipper to pay, any published freight charges (including any charges for accessorial or terminal services) when that shipment is **totally lost or destroyed in transit**. The provisions of this item shall apply only to the transportation of household goods as defined in NOTE 1 below. Notwithstanding any other provisions of this item, a carrier shall collect, and the shipper shall be required to pay, any specific valuation charge that may be due. This item shall not be applicable to the extent that any such loss or destruction is due to the act or omission of the shipper.
- b. In the event that any portion, **but less than all**, of a shipment of household goods is lost or destroyed in transit, a motor common carrier of household goods in intrastate commerce shall, at the time it disposes of claims for loss, damage, or injury to the articles in the shipment, refund that portion of its published freight charges (including any charges for accessorial or terminal services) corresponding to that portion of the shipment which is lost or destroyed in transit. - (e) "Unidentified payment" means a payment which a carrier has received but which the carrier is unable to match with its open accounts receivable or otherwise identify as being due for the performance of transportation services.
- (f) "Claimant" means any shipper or receiver, or its authorized agent, filing a request with a carrier for the refund of an overcharge, duplicate payment, or overcollection.

##### **SECTION 3: FILING AND PROCESSING CLAIMS**

- (a) A claim for overcharge, duplicate payment, or overcollection shall not be paid unless filed in writing with the carrier that collected the transportation charges. The collecting carrier shall be the carrier to process all such claims. When a claim is filed with another carrier that participated in the transportation, that carrier shall transmit the claim to the collecting carrier within 15 days after receipt of the claim. If the collecting carrier is unable to dispose of the claim for any reason, the claim may be filed with or transferred to any participating carrier for final disposition.

#### **PROCEDURES GOVERNING THE PROCESSING, INVESTIGATION AND DISPOSITION OF OVERCHARGE, DUPLICATE PAYMENT, OR OVERCOLLECTION CLAIMS**

##### **SECTION 5: INVESTIGATION OF CLAIMS**

- (a) Upon receipt of a claim, whether written or otherwise, the processing carrier shall promptly initiate an investigation and establish a file, as required by Section 6.
- (b) If a carrier discovers an overcharge, duplicate payment, or overcollection, which has not been the subject of a claim, it shall promptly initiate an investigation and comply with the provisions in Section 9.
- (c) In the event the carrier processing the claim requires information or documents in addition to that submitted with the claim, the carrier shall promptly notify the claimant and request the information required. This includes notifying the claimant that a written claim must be filed before the carrier becomes subject to the time limits for settling such a claim under Section 8.

##### **SECTION 6: CLAIM RECORDS**

At the time a claim is received the carrier shall create a separate file and assign it a successive claim file number and note that number on all documents filed in support of the claim and all records and correspondence with respect to the claim, including the written acknowledgment of receipt required under Section 7. If pertinent to the disposition of the claim, the carrier shall also note that number on the shipping order and delivery receipt, if any, covering the shipment involved.

##### **SECTION 7: ACKNOWLEDGMENT OF CLAIMS**

Upon receipt of a written claim, the carrier shall acknowledge its receipt in writing to the claimant within 30 days after the date of receipt except where the carrier shall have paid or declined the claim in writing within that period. ##### **SECTION 8: DISPOSITION OF CLAIMS**

If the carrier declines to pay a claim or makes settlement in an amount different from that sought, the carrier shall notify the claimant, in writing, of the reason(s) for its action, citing tariff authority or other pertinent information developed as a result of its investigation.

#### **SECTION 9: *DISPOSITION OF UNIDENTIFIED PAYMENTS, OVERCHARGES, DUPLICATE PAYMENTS AND OVER COLLECTIONS NOT SUPPORTED BY CLAIMS***

- (a) (1) Carriers shall establish procedures for identifying and properly applying all unidentified payments. If a carrier does not have sufficient information with which properly to apply such a payment, the carrier shall notify the payor of the unidentified payment within 60 days of receipt of the payment and request information which will enable it to identify the payment. If the carrier does not receive the information requested within 90 days from the date of the notice, the carrier may treat the unidentified payment as a payment in fact of freight charges owing to it. Following the 90-day period, the regular claims procedure under this part shall be applicable.
- (2) Notice shall be in writing and clearly indicate that it is a final notice and not a bill. Notice shall include: the check number, amount, and date; the payor's name; and any additional basic information the carrier is able to provide. The final notice also must inform payor that: (i) applicable regulations allow the carrier to conditionally retain the payment as revenue in the absence of a timely response by the payor; and (ii) following the 90-day period the regular claims procedure shall be applicable.
- (3) Upon a carrier's receipt of information from the payor, the carrier shall, within 14 days: (i) make a complete refund of such funds to the payor; or (ii) notify the payor that the information supplied is not sufficient to identify the unapplied payment and request additional information; or (iii) notify the payor of the carrier's determination that such payment was applicable to particular freight charges lawfully due the carrier. Where no refund is made by the carrier, the carrier shall advise the payor of its right to file a formal claim for refund with the carrier in accordance with the regular claims procedure under this rule.
- (b) When a carrier that participated in a transportation movement, but did not collect the transportation charges, finds that an overpayment has been made, that carrier shall immediately notify the collecting carrier. When the collecting carrier (whether single or joint linehaul) discovers or is notified by such a participating carrier that an overcharge, duplicate payment, or over-collection exists for any transportation charge which has not been the subject of a claim, the carrier shall create a file as if a claim had been submitted and shall record in the file the date it discovered or was notified of the overpayment. The carrier that collected the charges shall then refund the amount of the overpayment to the person who paid the transportation charges or to the person that made duplicate payment within 30 days from the date of such discovery or notification.

##### **RATES BASED ON MINIMUM WEIGHT OR MINIMUM VOLUME**

- a. When transportation charges for shipments of individual shippers as described in paragraph (a)(1) of Item 100 of this tariff are based on minimum weights or volume, carrier must indicate on the order for service the minimum weight or volume - base rate, and the minimum charges applicable to the shipment.
- b. If carrier fails to comply with the provisions of paragraph (a) of this item the minimum weight or volume provisions will not apply, and in lieu thereof, the actual weight or actual volume of the shipment will be used to determine the applicable transportation charges.

#### **ITEM 58**

##### **REMOVAL OR PLACEMENT OF PROPERTY FROM OR TO INACCESSIBLE LOCATIONS**

It is the responsibility of the shipper for removal or placement of property from or to attics, basements and other locations, and to make property available to the carrier where the location of property and goods to be shipped or delivered is (1) not accessible by a permanent stairway (does not include ladders of any type), (2) not adequately lighted, (3) does not have a flat continuous floor, and (4) does not allow a person to stand erect. If the shipper or owner requests and carrier agrees to removal or placement of property from or to such areas not readily accessible, Item 120, Labor Charges, will apply for this service.

#### **ITEM 60**

##### **INSURANCE-RELATED GENERAL INCREASE**

All shipments transported under the provisions of this tariff are subject to an Insurance-Related General Increase Surcharge equal to four (4.0%) percent of the applicable transportation charges.

The Insurance-Related General Increase is to aid carrier's recovery of increased carrier liability insurance expenses and will apply for the period of time that this item remains in effect.

To determine the surcharge to apply, multiply the applicable transportation charge and the applicable pickup and delivery transportation charge on SIT shipments (Item 210) times 4.0%.

Note 1: The insurance-related surcharge revenue is to be shown separately from other revenue on carrier documentation for the purpose of identifying the amount as special insurance-related revenue.

Note 2: Notwithstanding any other provisions of this tariff, the Insurance-Related General Increase Surcharge will apply on the transportation charges applicable on SIT shipments when such shipments are delivered into or removed from the SIT facility during the time that this item is in effect.

#### APPLICATION OF TRANSPORTATION CHARGES

The transportation charges in this tariff include the loading of the shipment at the point of origin, vehicle transportation to the point of destination, and the unloading of the shipment at destination but do not include the Additional Services named in Sections 1 and 2 of this tariff.

The transportation charges apply on a seasonal basis; higher Peak Season charges apply on shipments picked up on May 15<sup>th</sup> through September 30<sup>th</sup> of each calendar year. The transportation charges **do not include** the Additional Services named in Sections 1 and 2 of the tariff. (Except for Pickup or Delivery of Storage-In-Transit Shipments transported under Item 210, the linehaul transportation charges on ALL FIRST PROVISIO shipments picked up for delivery to SIT, or delivered from SIT during the period of May 15<sup>th</sup> through September 30<sup>th</sup> of each calendar year will be subject to the PEAK SEASON transportation charges provided in the tariff.)

The transportation charges apply for the transportation of household goods between points in the United States as provided for in Item 1 of the tariff. The charges apply between US postal zip codes and between US postal zip codes. In order to display all of the thousands of possible zip code and postal code combinations, **the transportation charges are contained in the electronic software portion of the tariff**, rather than a paper format.

EXCEPTION: For the transportation charges for containerized shipments (packed for overseas shipment and normally shipped on flatbed or open-side trailers), applicable from and to airports, ship docks, piers, depots, stations, warehouses and wharves, refer to Tariff No. 700-D, HGB 700-D, issued by the Household Goods Carriers' Bureau Committee.

#### APPLICATION OF ADDITIONAL SERVICES

Except as may otherwise be specifically provided for, the Additional Service rates and charges provided for in this section apply throughout the United States and are in addition to all other rates in the tariff.

This section of the tariff describes the application of the Additional Service items and the electronic software portion of the tariff provides the specific charges that apply.

2. The transportation charges and additional service rates and charges apply without additional valuation charges when the shipment is released to a value not exceeding 60 cents per pound per article. #### ITEM 105 CONTAINER SERVICE

Except as otherwise provided, Container Service charges apply at the location where the service is provided when carrier performs packing, unpacking, debris removal, crating or uncrating service for the shipment (See Notes 1, 2 and 6).

Refer to the tariff software for the applicable Container Service charges defined in Parts 1, 2, 3, and 4 of this item.

#### PART 1 - FULL SERVICE PACKING (See Note 6)

**Full Service Packing includes all of the cartons, containers and packing service required and provided by the carrier to pack the shipment for interstate transportation (See Note 7).**

Full Service Packing rates apply based on the net weight of the shipment and includes all cartons and containers furnished by the carrier and the packing of such cartons and containers. All cartons and containers remain the property of the consignee. If the consignee or his agent requests unpacking (which includes disposal of such cartons, if requested), separate rates apply for Full Service or Custom Service Unpacking, as requested by the shipper, in addition to the rates for Full Service Packing. If the carrier is requested to perform Full Service Unpacking on a date after the date of delivery, a minimum charge will apply.

Full Service Packing charges **do not include** crating service; refer to Part 4 of this item for crating service provisions.

The charges in this Part apply based on the weight of the shipment. The weight (See Note 3) of motor passenger vehicles (automobiles, pick-up trucks, vans, sport utility vehicles, dune buggies, and specialty motor vehicles) and any weight additives applicable in Item 130, will be deducted from the shipment weight prior to determining the Full Service Packing charges contained in this Part.

#### PART 2 - CUSTOM SERVICE PACKING (See Note 6)

**Custom Service Packing applies on a per carton basis for individual cartons and containers requested by the shipper or his agent and provided by the carrier to pack items not packed by the shipper.**

Custom Service Packing rates apply on a per carton or container basis, and includes the cartons and containers furnished and the packing of such cartons and containers furnished by the carrier when the shipper elects to pack a portion but not an entire shipment (see notes 4 and 5). All cartons and containers remain the property of the consignee. Custom Service Packing is not applicable and will not apply when the shipper has requested Full Service Packing as described in Part 1 of this item. If the consignee or his agent requests unpacking (which includes disposal of such cartons, if requested), separate rates apply for Custom Service Unpacking in addition to the rates for Custom Service Packing. If the carrier is requested to perform Custom Service Unpacking on a date after the date of delivery, a minimum charge will apply.

### SECTION 2 - ADDITIONAL SERVICES – PAGE 66

#### ITEM 105 (Continued) CONTAINER SERVICE

Custom Service Packing rates **do not include** crating service; refer to Part 4 of this item for crating service provisions.

In the event two or more cartons or containers must be joined because of the size, shape or character of the item or items to be packed, each such container or carton that is so joined will be counted as one carton for rating purposes. For example, if three (3) corrugated containers are joined to pack an oversize painting, the number of containers used for rating purposes would be three (3).

When cartons of more than 3 cubic foot capacity are used and no rate is shown for the carton size, the rate shall be based on the next lower size carton indicated. In applying rates for mattress cartons, if the size furnished exceeds any one of the dimensions for which rates are shown, the rates for the next larger size will apply.

#### DESCRIPTIVE APPLICATION OF PARTS 1 AND 2

1. Apply Full Service Packing charges when the shipper elects to have the mover pack the entire contents of the shipment (or if the shipper plans on self-packing only a few items). For example, if the shipper plans on packing important papers, heirloom silverware, and some of their children's toys, they should select Full Service Packing.

Full Service Packing does not apply to items that are not normally packed for transit service, such as items that are blanket-wrapped.

2. Apply Custom Service Packing charges when the shipper elects to pack a portion but not all of the contents of their shipment and directs the mover to pack only selected items (breakable, valuable or fragile items.) For example, if the shipper plans on packing all of their folded clothing, shoes, linens, quilts, pillows, books, pots and pans, flatware and all of their other non-breakable household items, they should select Custom Service Packing.

Shipper will designate either Full Service Packing or Custom Service Packing based on these or similar examples and the circumstances of their move before packing/loading begins.

#### PART 3: DEBRIS REMOVAL SERVICE

Debris Removal Charges apply when the carrier is requested by the shipper to perform debris removal of shipper-unpacked cartons subsequent to the date of delivery.

When debris removal is performed in conjunction with unpacking service, a debris removal charge will not apply for the cartons unpacked by carrier.

Debris removal service performed subsequent to delivery must be performed within thirty (30) days of delivery date and within a fifty (50) mile radius of Carrier Agency location. Additional charges may be applicable subject to Shipper authorization in major metropolitan locations where service provider has geographical or operational limitation to provide this service and shall be quoted on a case by case basis.

#### ITEM 105 (Concluded) CONTAINER SERVICE

##### PART 4: CRATING SERVICE

Crating Service charges apply when the carrier is requested to provide crates (specially constructed for mirrors, paintings, glass or marble tops and similar fragile articles) based on the gross measurement of the crate (subject to a four (5) cubic foot minimum). The packing service charge for crates includes the construction and packing of such crates, which remain the property of the consignee. Separate charges apply for the unpacking of crates.

In the event the carrier does not possess qualified personnel to construct such crates, carrier will, upon request of the shipper, owner or consignee, and as their agent, engage a third party to construct such crates. All charges for services provided by third parties must be paid by the shipper and apply in lieu of the crating and/or uncrating charges contained in this item. Such charges will be advanced by the carrier and billed as an advanced charge in accordance with Item 35 (Advancing Charges).

**Note 1: Extra Stops.** On shipments picked up or delivered at more than one location, the initial point of origin and the final point of delivery shall be the basis for the determination of rates and charges under this item.

**Note 2: Overtime Hours.** Container Service charges for packing, unpacking, debris removal and crating/uncrating apply when service is performed during regular service hours, which, for purposes of this item, are defined as between 8:00 a.m. and 5:00 p.m. Monday through Friday (excluding Holidays). **When service is performed on Saturdays, Sundays or Holidays, or between the hours of 5:00 p.m. and 8:00 a.m. Mondays through Fridays, charges for overtime service will apply.**

**Note 3: Determining Weights.** Carrier may substitute manufacturer's weight for automobiles, pick-up trucks, vans, sport utility vehicles, dune buggies, and specialty motor vehicles in lieu of obtaining separate weight tickets on these articles whenever such articles are included within a shipment. Manufacturer's weight will be obtained from either the Branham Automobile Reference Book, the National Automobile Dealer's Association Official Used Car Guide, or from other appropriate reference sources of manufacturer's weight, or the shipper may provide carrier with copies of manufacturer's documents evidencing the weight of the article included in a shipment.

**Note 4: Cartons Furnished by Shipper.** Container Service rates in this item **apply ONLY for cartons and containers that are furnished by the carrier.** Extra Labor rates contained in Item 120 apply for the packing and/or unpacking of cartons or containers furnished by the shipper and packed or unpacked by the carrier, except as provided in Note 7.

**Note 5: Rates Not Applicable for Cartons or Containers ONLY.** The rates provided DO NOT APPLY for containers or cartons that are supplied but not packed by the carrier.

**Note 6: Non-Alternation of Rates.** The provisions of Parts 1 or 2 of this Item apply at the election of the shipper prior to the commencement of packing and/or loading on a per shipment basis; except as otherwise specifically provided, the rates named in each Part do not alternate with the rates in any other Part.

**Note 7: Repacking Shipper Cartons under Full Packing Service.** When the carrier, to insure safe transportation, is required to repack cartons or containers that have been packed by the shipper, Item 120 (Extra Labor) rates will apply for the time spent unpacking such shipper-packed cartons (the Item 120, Extra Labor, charges apply **ONLY** for the time spent opening and removing the contents of the shipper-packed cartons; no additional repacking or carton charges apply for such cartons because these charges are already included in the Full Service Packing charges for the shipment).

**NOTE 5:** Except as otherwise provided, in determining lengths for the purpose of this item, all fractions of a foot will be disregarded.

For Bath Tubs, Hot Tubs, Spas, Whirlpool Baths and Jacuzzis, the determination of dimension will be arrived at by measuring the outside of the item and multiplying the item's width times the length times the height (in inches) and dividing the result by 1728 (the number of cubic inches in a cubic foot). Round the total up to the next whole number to determine the total number of cubic feet.

For example, 74 inches wide times 84.5 inches long times 33 inches high equals 206349 inches divided by 1728 equals 119.41 cubic feet, which rounds up to 120 cubic feet.

**NOTE 6:** The length of boats, canoes, skiffs, rowboats, kayaks or sailboats shall be determined by the straight center line distance between the top center point of the transom and a point perpendicular with the foremost part of the bow. Manufacturer's "length overall" or "center line length" shall apply as the correct length for the purposes of this item in lieu of physical measurement by carrier.

**NOTE 7:** Not applicable.

Weight Additives will be based on the longest applicable disassembled part. Refer to Note 6 herein for proper measurement of specified articles.
